COMMERCIAL AND FINANCIAL

Wheat Was a Puzzler for All the Traders Yesterday.

TOPENED LOWER, WHICH WAS SURPRISING

Market Rallied on Buying by Promipent Houses and the Advance Was Helped by Liberal Exports.

CHICAGO, Feb. 14.—The fickleness dis-played by wheat today would make even St. Valenting envious. Opening lower, which was the first surprise, it rapidly advanced and held strong until near the close, when it went down, closing at loss of %c since yesterday, after having been nearly to above that price. Corn and oats were more

consistent, and closed practically unchanged, as did also provisions.

In wheat there was a moderate specula-tive trade, the market ruling rather spasmodic, the range for the day being 114c. The tone at the start was weak, and initial trades showed from %c to %c and %c loss, but a good demand prevailed shortly afterward and prices gradually sold up 1%c. The easy opening was attributable to some extent to the weaker-cables. Liverpool coming 4d lower and then the cold wave predicted yesterday failed to ma-

to some extent to the weaker-cables, Liverpool coming \(\) dower and then the cold \(\) wave predicted yesterday failed to materialize, the weather on the contrary, being mild and favorable, and no doubt cut something of a figure with the action at the start. The market rallied on buying by prominent houses and the advance was helped along by the liberal exports, more moderate northwestern receipts and fair out inspection here. The decline in the afternoon in the face of the rise on this side yesterday was also said to be due to the reduction in ocean freights more than anything else, and this explanation was something of a help to the situation. As a rule there was little in the news to warrant the advance, but sentiment was undeniably bullish, and the feeling that some upturn was due was quite general. May opened about \(\) color for the color of \(\) color of \(\) con and started up and sold from \(\) fixed to \(\) fixed, and at noon was \(\) fixed. The market broke badly toward the close of the session. Room traders loaded up heavily above \(\) for for May and in endeavoring to sell out caused a sharp reaction. Besides the report of \(\) fixed to depress values late in the day. Heavy seiling orders also came in from the northwest and May sold down to \(\) fixed. Closing rather weak at that price.

Corn was quiet, but firm, influenced by the strength in wheat and the continued moderate receipts. May opened unchanged to \(\) fluctuated between during the last hour in sympathy with wheat. May sold off to \(\) 30\(\) c, and closed easy at that price. In oats the feeling was firm early, but later as wheat went down the advantage was lost. May opened fractionally lower at 21\(\) c, fluctuated between from 21\(\) c to \(\) fluctuated between from 21\(\) c to \(\) fluctuated between from 21\(\) c to \(\) fluctuated between from 21\(\) c to \(\) fluctuated between from 21\(\) c to \(\) fluctuated between from 21\(\) c to \(\) fluctuated between from 21\(\) c to \(\) con \(\) and cased o

WEATHER HINDERS BUSINESS

Continued Closeness of Money is Also a Disturbing Element.

IRON PRODUCTION EXCEEDS DEMAND

Demand for Boots and Shoes is Disappointing-Nothing Encouraging for Textile Workers-Small Sales of Wool.

NEW YORK, Feb. 14.—B. G. Dun & Co.'s Weekly Review of Trade, which issues to-morrow, will say: The weather still hinders business as does the continued closeness of money and the prolonged inaction of coagress, but confidence increases. The production of pig iron, 198,559 tons weekly. Feb-ruary 1, is 4.63 per cent less than January 1, and 8.5 per cent less than November 1, while the unsold stocks increased 63,188 tons in January, showing an output much ex-ceeding the present demand. Pig Iron at the east and at Chicago has not advanced, southern competition continuing at prices so low that several Alabama furnaces have

southern competition continuing at prices so low that several Alabama furnaces have stopped, but bessemer is a shade lower at Pittsburg. The demand for plates, sheets and fire nails continues 75:11-good, and there are more orders for railroad cars and bar iron at Chicago, but no, further sales of rails appear, and the demand for farshed productions keeps about 70 per cent of the capacity employed. The colic output is again much reduced. Copper is a shade firmer at 10% cents, while tin and lead are not active and unchanged.

The demand for boots and shoes is still disappointing, several factories have closed and a few are working full time, belief in lower prices still prevaling, although further reductions have been made in most lines, amounting since January 1 to 6 per cent. Some prominent makers get good orders for women's light shoes, but others scarcely any, and Boston shipments thus far are 21 per cent less than last year.

Textile work shows little change, though the cut in print cloths to 2.75 and a general concession in brown and bleached staples, averaging for the whole lixt quoted, 6 per cent since January 1, induced more buying, which the known accumulation of goods ahead of demand has hindered. Many mills are reporting great profits last year from the rise in cotten, but the prospect of a larger crop this year does not promise a repetition of such gains. Though goods still average 12.7 per cent above their lowest point last year, cotton is now 44 per cent higher than it was then.

Sales of wool have been small for the two woeks of February, 9,329,709 pounds, against 19,299,559 pounds last year, and 12,592,559 pounds in 1833, but higher prices abroad, sustained by heavy shipments of goods to this country, incline holders of wool here to make no concessions, so that manufacturers have the more difficulty in meeting competition. Many cancellations of orders, as well as their own, defer orders.

Produce markets tend downward, mainly because supplies exceed expectations. Wheat has declined three-fourth o

WEEKLY CLEARING HOUSE TOTALS Aggregate of Business Transacted by the Associated Banks. NEW YORK, Feb. 14.—The fellowing table, compiled by Bradstreet's, shows the total clearances at the principal cities and the percentag of increase or decrease, as compared with the corresponding week last year:

FOREIGNERS BUYING A LITTLE.

Market Has Been Irregular with a General Bullish Tone. NEW YORK, Feb. 14.—Bradstreet's review of the New York stock market for the week shows irregular strength has characterized the trading on the Stock exchange for the past week. The outcome of the bond issue has stimulated public interest in the market and brought in a consideration of the prince of new buying orders. London also purchased our securities to a certain extent, the market there being affected by a renewed movement in Kaffic forders, and Americans being held in better esteem on account of the success being the market there being affected by a renewed movement in Kaffic forders, and Americans being held in better esteem on account of the success being held in better esteem on account of the success was religiously as the success of the prospect of an understanding between our own and the British governments in regard to deferred.

50 the Venezucian question. The foreign buying the success of the prospect of an understanding between our own and the British governments in regard to the Venezucian question. The foreign buying the success of the prospect of an understanding between our own and the British governments in regard to the Venezucian question. The foreign buying the success of the prospect of the p interest in the market and brought in a considerable volume of new buying orders. London

ularity, though the appearance of buying, whether from our own, public or London, has caused sharp and december of the control of the market had a reesclonary tone, but was steady at the close. DEDW SITUATION IS DISAPPOINTING.

THE OWNERS OF STATE OF STATES OF THE STATES

Omnha One of the Kew Places Sending Favorable Reports.

NEW YORK, Feb. R.-Bradstreet's tomorrow will say: The general Laphysis situation throughout the country does not meet anticipations, and except a few cities—Baltimore and Pitisburg, in the east; Chicago, St. Louis and Omaha at the west; Galveston and Chattanooga at the south, the east; Chicago, St. Lodis and Omaha at the west; Galveston and Chattanooga at the south, remains dull for the season, in most instances disappointingly so. Improvement in demand and price is confined to hidgs, teather and boots and shoes, which are corepictus in the short list of staples, for which prices are higher. Features of the situation are those resulting from unfavorable weather east and in the central west, reaction in prices of fron and steel, further complaints by wedlen manufacturers, an outlook for more title woolen machinery, a smaller total of bank clearings, continued stiffness and maintenance of high rates for loans, notwith-standing the favorable inference drawn from the heavy oversubscription to the government bond lissue, and restricted production of pig iron.

Exports of wheat (flour included as wheat) from both coasts of the United States this week, amount to 2.715,000 bushels last week, and as compared with 2.572,000 bushels in the corresponding week one year ago, 2,055,000 bushels in the corresponding week was years ago, 2,055,000 bushels in the same week two years ago, 2,055,000 bushels three years ago, and as contrasted with 4,042,000 bushels in the corresponding week in 1892.

The total number of business failures reported throughout the United States this week is 351, an exceptionally large number, the gain, as compared with list week, being forty-three. Most of the increase is explained by returns from the central western states and the Pacific coast. There are eighty-five more business failures this week than in the second week of February, 1895, ninety-three more than in the corresponding week in 1894, and 176 more than in the second week of February, 1895, ninety-three more than in the second week of February, 1895, ninety-three more than in the second week of February, 1895, ninety-three more than in the second week of February, 1895, ninety-three more than in the second week of February, 1895, ninety-three more than in the second week of February, 1895, ninety-three more tha

STOCKS AND BONDS. Manipulation by the Speculative Lenders Was the Feature. NEW YORK, Feb. 14.—Manipulation by the speculative leaders was again today the feature of the stock market. Outside business was very light and there was a dearth of news bearing

of the stock market. Outside business was very light and there was a dearth of news bearing legitimately upon prices, aside from a disappolating turn in the London market for our securities. The usual conflict in the market and the inconsistent gossip was circulated regarding the active industrial stocks, and they exhibited relatively much greater activity than the railroad Hist. The course of prices was erratic. London had been expected to follow the strong closing of the local market, but, as a matter of fact, prices from that certer aboved declines of from §, to 1½ per cent, and subsequent foreign scling in this market effected losses of from §, to 1½ per cent, and subsequent foreign scling in this market effected losses of from §, to 1½ per cent, and subsequent foreign scling in this market effected losses of from §, to 1½ per cent, and subsequent foreign scling in this market effected losses of from §, to 1½ per cent, and subsequent foreign scling in the scaled to the apparent renewed friction over the Transvani situation and to the discouraging estimates by leading Duropean financiers as to the net results of the new loan in strengthening the treasury reserve. The point made several days ago in these dispatches that good authorities did not figures out more than \$70,00,000 of new gold from the loan, is now more generally appreciated, and bear capital was made out of it yesterday and today. This is not illogical, in view of the approaching spring imports season, when a fairly large outgo of gold is normal. Sugar led the entire market in point of activity. The stock at the outset displayed aggressive strength on pool manipulation, based on actual calculations, as its abundant resources and large earning power, expectations of the payment of the regular dividends now impending, and further advances in foreign sugars. An advance of 2% per cent was engineered, carrying the price the regular dividends now impending and further advances in foreign sugars. An advance of 2% per cent was engineered, carrying the pr

ther advances in foreign sugars. An advance of 2% per cent was engineered, carrying the price to 115.

The Evening Post's London financial cable-gram says: The stock markets opened dull today on President Kruger's gnessage. Kaffirs were especially affected. There was a general recovery later, and the closing prices were at the best, but with little business, except in first-class investment solurifies. American opened below the parity, but there was a raily at the close, and they finished at the best, Grand Trunks were flat on the deficit of the half year. The fa.00 in gold taken from the Bank of England for America today is apparently to make up a special order, for there is practically no demand now for gold here. The Paris and Berlin markets were dict today, but rather easier. The stock lost a large pairt of the improvement in sympathy with the griccal heaviness at the close. Tobacco moved within a range of 1½ per cent on purely protygatomal manipulation. The railway shares, as a group, were not especially noteworthy. Slight, declines occurred in them early, but there was a subsequent practically general improvement) to about last night's closing under the influence of a buying movement that was in progress around 1 o'clock. Weakness characterized the market in the final hour. Manhattan broke 1% pee cent, the grangers leading. The closing was, rather quiet and weak, with values ruling at the low point. The bond market was dull and generally firm. Sales aggregated 1,100,000. Government bonds were easier on dealings of \$534.02.

The following were the closing quotations on the leading stocks of the New York exchange today: Clearings. Inc. Dec.

WASHINGTON, Feb. 14.—The subtreasury at New York today lost \$1,549,000 in gold coin and \$15,490 in bars, leaving the true amount of the gold reserve \$70,180,870.

CHICAGO, Feb. 14.—Clearings, \$15,918,531; money, firm; call loans, \$ per cent; commercial paper, 597 per cent; New York exchange, 25c discount; foreign exchange, bankers London stuting, 11870-618519.

NEW YORK, Feb. 14.—London advices state that cwing to the slackened inquiry for bar gold for export, the price has been reduced to 778 3d. Clearings, \$125,023,823; balances, 38,205,390. The deposits of gold at the subtreasury today were between \$4,009,000 and \$5,000,000; withdrawals, about \$1,200,000.

SALES OF WOOL ARE HEAVY. Free Purchasing is Checked by Holders' Idea of Value. BOSTON, Feb. 14.—The American Wool and

Cotton Reporter says of the wool trade: "The sales in the three principal markets for the week have amounted to 4,756,440 pounds, 2,205,100 pounds of which were domestic wool. The total sales since January 1, 1896, have been 37,047,839 pounds, against 32,305'965 pounds a year ago. Although as the record of sales shows, a larger amount of business has been done in the period under review than was transacted a week earlier, nevertheless the market continues to be quiet. Money is as tight as a drum, and holders of wool are for the most part relentlessly firm in their ideas of the value of their commodity, so that free purchasing is quite the exception. Strange as it may seem, in consideration of the obvious duliness of trade, rates for good stack show no depreciation.

"The sales for the week at New York have amounted to 1,112,209 pounds, of which 197,099 pounds were domestic and 915,999 pounds foreign wool. The same conservative buying that has been characteristic of the market for many weeks is still its principal feature. The sales since January 1, 1896, have amounted to 5,534,759 pounds, against 7,876,209 pounds a year ago.

"The sales at Boston for the week have been 2,655,759 pounds, of which 1,409,709 pounds were domestic wool. The market continues quiet, though prices are steady. Australian is in the lead among all sorts of wool pow selling, although there has recently been some diversion of attention toward our staple territorial wools. Sales since January 1, 1896, have amounted to 13,192,000 pounds.

"The inquiry at Philadelphia continues more largely for three-eighths and one-half-blood wool, particularly washed, which is at this time in limited supply, with the price firm. Sales for the week have amounted to 915,000 pounds. Gaies since January have amounted to 8,321,089 pounds, against 5,651,819 pounds a year ago.

"There has been less business done at St. Louis this week, but offers close to asking prices have imount of business has been done in the period inder review than was transacted a week

"There has been less bisiness done at St. Louis this week, but offers close to asking prices have been had on several lines, and it would reem as though large sales would result soon, as some of the offers are for large blocks of wool." St. Louis General Market.

St. Louis Feb. 14.—FLOUR—Dull and easy; patents, 37.0973.0; extra fancy, 34.4993.55; fancy, 34.0993.10; choice, \$2.5093.75.

OMAHA LIVE STOCK MARKET

Slight Increase in the Receipts of Both Cattle and Hogs.

CATTLE SOLD TEN CENTS HIGHER

Demand Good and Offerings All Sold-Hogs Also Sold 5 Cents Higher on Active Demand-Pens Cleared Early.

FRIDAY, Feb. 14. Receipts for the days indicated are: Cattle, Hogs, Sheep Horses 1,698 1,896 829 2,211 985 2,476 2,134 4,194 1,210 1,564 918 2,859 1,167 2,838 ebruary ebruary February 8. Pebruary 7.

CATTLE-The receipts of cattle today numbered 1,008 head as against \$29 yesterday numbered 1,008 head as against \$29 yesterday and 1,167 on Friday of last week. The supply of cattle has been very light ever since Tuesday, and buyers were a little hungry for them today, which contributed much toward making a better market. Then, too, the reports were encouraging from other market points, so that everything was in the seller's favor, with the result that there was a decided improvement in the market on killing cattle.

With the buyers all wanting cattle the few fat steers on sale did not last very long, but everything was sold and weighed up an good season. It was a good strong and active market, with prices in extreme cases 10c higher. Several loads of pretty decent little cattle rold at \$2.6963.85.

Butchers' stock was also in good demand and desirable cows and helfers sold freely at stronger prices. The market closed early with practically everything sold.

Stockers and feeders were in such light

Two Were Not Naturalized.
DENVER, Colo., Feb. 14.—Attorney General Carr's stenographer arrived today from Walsenburg with a transcript of the evi-Walsenburg with a transcript of the evidence taken by the grand jury in the case of the Italians who were lynched last March. The jury, after being out four hours, found that the Italians came to their death at the hands of persons unknown. Two Italians had taken out naturalization papers. Dr. Joseph Cuneo, acting consul for Italy, has written to Governor McIntyre and Attorney General Carr thanking them for the energy and interest displayed in the investigation and trial.

Chicago Purchasers Paying Up. CHICAGO, Feb. 14—The gold reserve in the Chicago subtreasury has been increased the Chicago subtreasury has been increased nearly \$1,000,000 within the past week, purchasers of the new bond issue depositing their gold for a certificate to send to Washington. "I do not know the exact amount of bonds purchased by Chicago people and banks," said Cashier Pratt, "but so far as I can learn from the depositors, Chicago is not buying the bonds on the installment plan. All the gold so far deposited with us has been for the full number of bonds purchased by the depositors."

Five Hundred Weavers Strike. SACO, Me., Feb. 14.-Between 400 and 500 weavers of the New York corporation in Saco stopped work in a sympathetic rtrike this morning, on account of the discharge of J. J. Whalen, president of the local weavers' organization. This action will probably result in a shutdown of the entire corpora-
