OST, A \$690.00 NOTE, PAYABLE MARCH 1 1900; correspond box 47, Papillion, Neb., and receive reward. Lost-M253 27\* Complaint Filed Against Steve Noland on the Same Account-Now in Jail for Thiety Days for Daunkenness.

A. C. VAN SANT'S SCHOOL, 513 N. Y. LIPE About a week ago William McGraw was arreated, charged with abusing his family. The case was an aggravated one. McGraw lives at Twenty-fourth and Burt streets. One MAHA BICYCLE CO., BEST PLACE TO BUY bicycles; bicycles repaired, 223 N. 16th st. 607 night be returned home with an overwhelmng burden of intoxication. Shortly after entering his house his wife ran out doors, the blood streaming from her face. She told her URNITURE PACKED, MATTRESSES MADE and renovated, window cushions made; prices reduced. M. S. Walklin, 2111 Cuming. Tel. 1331, 780 neighbors that she had been beaten by her husband, and on their complaint McGraw was

arrested. On his hearing in police court McGraw Judge Gordon sentenced McGraw to thirty

days on the street. Yesterday a stepson of McGraw at peared in police court with a note from his SHARES IN MUTUAL L. & B. ASS'N PAY 6, 7, 8 per cent when 1, 2, 3 years old; always redeemable. 1704 Farnam st., Nattinger, sec. 781 mother. In the communication Mrs. McGraw stated that she was ill and in destitute ircumstances. She asked for McGraw's re-HOW TO GET A HOME OR SECURE GOOD interest on savings. Apply to Omaha L. & B. Asa'n, 1794 Farnam. G. M. Nattinger, sec 782 lease, that he might furnish some support for the family, even if he did beat her. She said that she had applied to the county com-missioners for assistance, but they had refused to help her because her husband had a card from the street commissioner, on which he could obtain three days' employment on

the streets. The circumstances of the case were found to be as related, and Judge Gordon was in a quandary. He did not want to suspend McGraw's sentence, and he desired to assist the family as much as possible. He finally solved the problem by obtaining an agreement from the county commissioners that they would furnish the family with supplies and fuel until McGraw had served his time.

Steve Noland, another wife beater, who
was arrested for driving his wife out of doors several nights ago, stands a good chance of meeting an even harder fate. He wan Wednesday sentenced on the charge of drunkenness to thirly days in the county jail, the middle ten on bread and water, and esterday a complaint was filed against im, charging him with assaulting his

Noland's family is needy. The members are without fuel and without supplies. No but little money. It is stated that out of \$7 which he earned some time ago he gave his wife 15 cents for the support of herself and children.

Arrested a Couple of Suspects. The police are of the opinion that they have the men who several nights ago entered the second-hand store of Greenberg. The suspected men are Charles, alias Wilson and John Denny. They were arrested in a house at Eleventh and Davenport streets by Detectives Dunn and Dona

When the officers reached the house the men tried to escape through windows, but were balked in the attempt. The house was filled with a smell of burging leather and it is sus pected that the men were burning shoes. This enspicion has given rise to the theory that Denny is the man who entered Sanford's house on Sharman avenue, Tuesday night The would-be burglar left a shoe behind when interrupted by Sanford and it is thought that Denny, being the burglar, might have destroyed the other by burning it. When arrested Denny had no shoes in the house and went to the station in his stocking feet. Wilson was wearing some clothing that has been identified by Qreenberg.

Very Awkward Indeed. This is precisely the kind of mistake a man makes if he "turns out" on the wrong side of the road when a vehicle comes toward him. No less absurd is the error of the individual who takes drastic medicines to and rheumatic ailments and malaria.

## NAGLE WOULD HAVE HIS OWN WAY

Would Not Be Tied Down by Rules of Evidence. The county court was the scene of a farcical trial yesterday. The suit was brought by Charles A. Nagle against Herman Timme his son, Fred, and, his wife. Nagle wanted \$200 for damages alleged to have been susighting in "Paradise" alley, near Sixteenth tained by him on account of the taking of two horses, valued at \$200. He alleged that the horses belonged to him, and that Timme took them from the farm of a mar named Puls, where they were being pastured Timme's defense was that Nagle had given

THEY GET JAIL SENTENCES CATHODE RAYS REACH THE COAST.

San Francisco Amused by the New Scientific Discovery. SAN FRANCISCO, Feb. 20.—Successful experiments have been made here with the new cathode rays by Dr. P. M. Jones, Dr. Carleton and Allen Babcock, an electrician It took three days of experimenting before a

successful result was obtained. to making the experiments no camera is used no focus is necessary. The objects to be photographed are merely laid on the outside of a plate nolder, the wooden slide of which is not removed. The vacuum tube is suspended above the objects. The cathode ray makes its mysterious penetration and fixes on the sensitized plate the shadow of

the dense objects. The first thoroughly successful experiment was made with a number of common objects placed on the plate holder. These were, first, a small circular pocket pin cushion made of silk with a number of pins inserted at the edges; second, a pasteboard pill box containing two salol and phenacetine pills, a steel staple, a brass hook, a double-pointed tack, a brass headed tack and a shirt stud with spiral wire

third, a wooden lead pencil with a metal and rubber tip; fourth, a brass hinge. The experiment was a success. The silken pin cushion was faintly shown and every pin was visible. The outlines of the pill box were visible, yet every article in the box was clearly shown on the plate. The graphite in the lead pencil was shown by a heavier shadow than that made by the wood or by the metal and rubber at the top.

the metal and rubber at the top. The next experiment is of great interest. Into the edge of a solid piece of pine wood, three-quarters of an inch thick, was driven a screw. The piece of pine was placed on the plate holder, the current was turned on and the cathode ray did its perfect work. When the plate was developed the shadow of the wood was shown and distinctly visible the outline of the screw, the threads being

thoroughly perceptible. The next experiment was entirely different from the tests that had preceded it. The corpse of a little bird was placed on the plate holder slide and there permitted to re-main under the vacuum tube for two hours. The plate shows the form of the bird and indistinctly the bones of the neck, wings, leg, shoulder and chest. Dr. Jones believes that longer exposure would have shown all the bones of the skeleton.

## AMONG THE LOCAL RAILROADS. Railrond Time Tables.

Effective Sunday evening next, there will be a change in the passenger schedule of the Missouri Pacific and the Omaha roads. The St. Louis express of the Missouri Pacing, train No. 193, which now arrives here at 6:08 o'clock, p. m., daily, will reach this city at 5.53 p. m. The change is made in order that passengers from St. Louis and Kansas latter now leaves here at 5:45 o'clock p. m., daily. On and after Sunday next, this train, No. 22, will leave for St. Paul at 5:55 p. m. The change in the schedules of both roads allows two minutes for the transfer of passengers. It is a most desirable change, and one that the traveling public has desired
