### BAD FAITH OF SPAIN.

Mr. Sherman went on to speak of the bad faith of Spain in putting down the former rebellion, when reforms were promdesirous of proceeding to a vote, Mr. Allen said he would not only recognize Cuba, but he would establish her as one of the na-tions of the earth, and for that purpose sed and never executed. The rule of Spain has always been one of iron, of oppression and of atrocities. The senator paid a glowing tribute to General Gomez, commander of the Cubans, who had been pictured as a

At this point numerous amendments, some verbal, were offered. One by Mr. Call pro-posed a proclamation by the president rec-ognizing the independence of Cuba. "But mark it," said Mr. Sherman, "I do not favor the annexation of Cuba to the United States. In my judgment the island should become a part of Mexico, being of the same people, and I would be glad to see that accomplished."

Mr. Sherman said he would now turn his attention to "the saddest phase of this whole subject." He referred to the recall whole subject." He referred to the recall of General Campos, a humane soldier, and the substitution of General Weyler, who has been well christened "the butcher." "The events of the last thirty days in connecttion with this appointment had changed his whole feeling." he said. "This man Weyler is one of the worst men who could be sen cify a people. NO DANGER OF A REPUBLICAN PARTY SPLIT

### Senators from the Western States Assert that AH Differences Over the Columne Question Will Be Amlenbly Adjusted.

CHICAGO, Feb. 28 .- A special to the Rec ord from Washington says: The remarkable speech of Mr. Carter in the senate, taken in connection with that of Mr. Carlisle at the Manhattan club in New York a few days ago, has started a good deal of talk over the reorganization of the old political parties and ear, instead of during the session only, a division of the people upon new lines. charge Both the republicans and democrats seem almost hopelessly divided upon the same issue, in congress declare that they will not support. the candidate to be nominated at Chicago

The nominated at St. Louis. Why, it is asked. cannot those in both parties who think alike get together and name men who agree with them? A great many people believe that if discussion and division continue much longer that will happen. Secretary Morton sug-gested such an expectation upon his part in a newspaper interview not long ago and there are those who claim to have heard the presi dent predict a general breakup and reorgan ization before the end of this administration, but it is not likely that there will be any bolting from either party until after the na-tional conventions are held and the platforms are adopted.

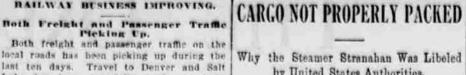

The republican leaders do not expect any bolt. Both Mr. Teller and Mr. Carter, who announced the terms of the silver senators. declare that they will not leave the repub-lican party and that they cannot be driven out, no matter who is nominated.

"I am a republican and I always expect to be a republican," said Mr. Teller. "I am just as good a republican as John Sherman or George F. Hoar, and there is just as much probability of their leaving the party as there is of my leaving it. I have said that will not support the republican cand date or the presidency unless we can make some satisfactory agreement on the silver ques tion. I think that agreement can be made but if it is found impossible I will still continue to be a republican. I do not intend to vote the democratic ticket, no matter who is iominated on either side."

Senator Carter says: "We are going to get together before the St. Louis convention. The silver men are not going to bolt the re-publican party. There are many other issues upon which we agree, and they would hold us together no matter how much we might differ on the money question. Nevertheless, we western fellows intend to have something to say about the management and the policy of the party. We don't propose to let New England and New York lead us around any longer by the nose."

in Prosecuting. NEW YORK, Feb. 28 .- The United States authorities have taken a step in the Bermuda case that gives great satisfaction to the Cubans. Heretofore there has been no legal

process in connection with the seizure of the steamship and the lighter James S. T. Stranahan and the lighter's cargo of arms and ammunition. They were detained under executive orders, the president of the United States having power to act in such cases, but no court authority had been brought into

requisition, except in the case of the men for whom warrants had been issued. James J. Macklin, attorney for McCaldin Bros., who own the steamer Strannhan, made a demand on the United States marshal Wednesday for the release of the lighter. He was asked to wait until the district attorney could look into the matter and readily acceded. marked. The libel notifies all concerned to appear March 17 before Judge Brown, in the United States district court, to show cause why the packages described should not be seized and forfeited.

Speaking of the case, Horatio S. Reubens of general counsel for the Cubans said: "The action of the district attorney shows that he has abandoned the idea of acting on the ground of infraction of the neutrality laws. He thus introduces a novelty in such cases. There was no warrant for the government's Fair Sized Ice Crop. Now that the ice harvest for this year is a thing of the past, the Union Pacific officials neutrality laws the government has failed." WAR SPIRIT IS AGAIN RAMPANT.

**Radical Declaration on Cuban Matters** 

Anticipated. CHICAGO, Feb. 28.-The Post's Washington special says: Beyond a question the United States is nearer war than it has been for many years. The temper of congress is strongly in favor of active intervention for the independence of Cuba, and without a

doubt is prepared to commit this government to extreme measures in support of that position. Members of the sense and house of representatives have been over-whelmed with expressions of sympathy from every kind of organization and from hundreds of thousands of individuals, all indicative of eagerness for the liberation of Cuba, and not a man on the floor of either chamber has the slightest fear of offending

his constituents in going to the extreme in this direction. The American spirit has been so thoroughly aroused that congress and the president feel that they have a practically unanimous endorsement in alding the revolutionists, and it is only a question of a few hours when there will be an open declaration to the effect that Spain must either terminate hostilities on the island or admit the independence of the insurgents. The first impulse was to put politics ahead of national patrictism and to confine the

#### Quarreling Over Tickets. A serious quarrel has broken out among the

transcontinental roads over the division of what are known as circle rates-that is, rates going by one route and returning by another.
