Condition of Trade and Quotations

on Staple and Fancy Produce.

It is about time for spring shooting matches to begin, and live pigeons are in better demand. Those who have orders for them have some diffi-culty in getting all the live birds they want. There are complaints at other points as well as at Omaha that the consumption of eggs is

There are complaints at other points as well as at Omaha that the consumption of eggs is not what might be expected in view of prevailing low prices. Chicago Proluce says: "Whether it is the extraordinarily large supply of fresh eggs, or whatever the cause, dealers do not regard local consumptive demand as being near up to the volume that the cheapness of eggs would seem to warrant. Some dealers declare that it cent eggs were no more freely taken than those that brought 12 cents, but they are generally unable to tell why. Lower quotations should increase consumption. One dealer thinks the reason can be found in the fact, as he claims, that there are immense quantities of mixed eggs in the market. He asserted that he knew of instances where retailers had purchased cold storage eggs at a very low price, and, after mixing them with fresh, retailed the mixture for fresh eggs." Quotations:

STOCKS AND BONDS.

Trading in Securities Was About Equal to Tuesday's Volume. NEW YORK, March 4.—Trading in stocks towas in about the same volume as yesterday was in about the same volume as yester-day. The market appeared to have cut away from the influence of the Cuban Imbroglio. The day was in about the same volume as yesterday. The market appeared to have cut away from the influence of the Cuban imbroglio. The greater part of the business was for account of the professionals, but there was also a little leaven of commission orders. The temper of the financial community was more cheerful than at any time since the introduction of the Cuban belligerency resolutions. London lent some support, and covering by the traders was quite the order of the day. There was a marked absence of news having a legitimate bearing upon prices, aside from the encouraging exhibits of February gross carnings, including those of the St Paul. The company mentioned shows an increase of \$178,138. The market opened strong and higher, and a further degree of strength was imparted by reassuring cables of London prices for Americans and some buying of the international shares here. It has become the fashion with the traders to mark time upon London, owing to the absence of outside interest in the market. The upward movement was checked for a brief interval by an attack on Burlington, which caused a drop of 13 per cent in that stock. The selling was again nitributed to the unsatisfactory character of the January report, published Monday. Other stocks lost substantial fractions in a few cases, but the upward movement was soon resumed with renewed vigor. General Electric was especially strong, gaining 15 per cent on gossip of expected favorable developments. Sugar advanced 14 per cent on repurchases by interests that were licavy scilers last week on the Cuban scare.

Tobacco moved irregularly within a range of a point, and was sustained by covering of the chorts. Leather preferred was exceptionally weak on further liquidation of Bosten holdings. In the railway 18t gains were noted in a number of the active stocks, ranging from 1 to 15 per cent. The marker received as slight setback around delivery hour on the execution of realizing orders. The reaction was of GW momentary duration, however, and in the further raily the cos

Accumulation of Grain Stocks.

NEW YORK, March 4.—Special telegraph and cable dispatches to Bradstreet's covering principal points of accumulation indicate the following changes in available stocks last Saturday; Available supplies—Wheat, United States and Canada, cast of the Rocky mountains, decrease, \$46,000 bu; afloat for, and in Europe, decrease, 1,326,00 bu. Corn—United States and Canada, cast of the Rockies, increase, 1,48,000 bu. Oats—United States and Canada, cast of the Rockies, increase, 148,000 bu. Oats—United States and Canada, east of the Rockies, increase, 148,000 bu. Increases of available supplies of wheat of importance, not included in the visible supply statement for last week, are: Fifty-three thousand bu. at Rochester, N. Y., 45,000 bu. in Milwaukee private elevators, and 50,000 bu. at various istorage points in Manitoba, Corresponding decreases include 150,000 bu. in northwestern interior elevators, 42,000 bu. at Fort Worth, Tex., 3,000 bu. at Louisville, and 24,000 bu. in Cheago private elevators. The elevator fire at Minnespolis since totals of wheat stocks were compiled destroyed more than 1,000,000 bu. in public elevators. Pacific const stocks amounted to 4,296,000 bu, on March 1, a decrease during February, this year, of 1,532,000 bu. Accumulation of Grain Stocks.

Dry Goods Market.

NEW YORK, March 4.—There was more demand in both the commission and jobbing houses and the relatively large business was with the latter. Nevertheless, the irregular request of the former took a good average quantity of stuffs—seasonable specialties of every description, although staples claimed the attention of buyers, yet the greater purchases comprised selling the market. Printing cloths dull at 2%c bid and declined.

FALL RIVER, Mass., March 4.—Print cloths very dull; nominal, 2%c. The large accumulation in the stock of print cloths in this city and the consequent depression in price is causing much talk among these interested.

A curtailment of production by an agreement among manufacturers to join in a general shutdown is considered to be very probable. The stock reported February 29 was 948,000 pieces, 527,000 pieces being regulars. Dry Goods Market.

Sniled with a New Captain. NEW YORK, March 4.—The steamer New York of the International Navigation com pany's line sailed today under the command of Captain Watkins, Gaptain Grant, who was in command of the steamer when she went aground on Saturday, having resigned. Vice President Wright announced today that the company had yesterday received the resignation of Captain Grant to take effect immediately. "I must say," said Mr. Wright, "that Captain Grant's resignation was not demanded by the company. I have nothing more to say about it."

Perilous Trip Over the Ice.

ERIE, Pa., Masch 1—The four men who reached Northeast, Pa., from the loebound ferry boat Shenango No. 1 on Monday, after a perilous journey over the ice fields, started on the return trip to the vessel today with a sled, carrying provisions. The Shenango, they say, has been forced by the pressure of the ice out of the water and the keel of the big steamer is three feet clear of the water almost the entire length. It is believed, however, the steamer will come out with no further damage than that already sustained by the accident to the steering apparatus.

There was a general advance all along the There was a general advance all along the line today, everything in the shape of live

stock selling higher. CATTLE-The receipts of cattle proved to be light today, only 906 head being reported, as against 1,686 yesterday and 1,789 on Wednesday of last week. Yesterday's

ported, as against 1,686 yesterday and 1,789 on Wednesday of last week. Yesterday's storm, which covered most all sections of the state, may have been one cause of the light receipts today.

Among the offerings of cattle the proportion of beef steers was quite large and the quality ranged from fair to choice. With so few cattle in sight and with the prospect of light receipts during the next few days the buyers all seemed to be anxious for cattle. Then, too, the reports from other markets were encouraging and the result was an advance of 56710c. Not only was the market higher, but it was more active than on most days of late, and the offerings changed hands readily, the yards being soon cleared. Two bunches of corn fed steers of very good quality, averaging 1,481 and 1571 pounds sold at \$4.10, the highest price paid in several weeks. A good share of the cattle sold inside the range \$3.60\text{g} 2.80.

Cows and heifers were also in very light surply and they experienced about the same advance as fat steers, the market being active and the pens soon cleared.

Hardly enough stockers and feeders were on sale to make a market, but the few here sold quickly at very strong prices. Representative sales:

3. The jurisdiction of equity to relieve against mistakes is in general confined to cases where, because of such mistake, the minds of the parties never met, and there was therefore no contract, and to cases where the contract made was not correctly expressed by the instrument evidencing it. Relief cannot be given because of misapprehensions in regard to a collateral matter, as in regard to a fact incidentally affecting the value of the subject matter of the contract, there being no deception of wrongful concealment.

HOGS—Only 2,409 hors were received today, as against 2,604 yesterday and 2,435 on Westnesday of last week. In addition to the light receipts, provisions opened higher, and teports from other markets were all encouraging. On top of these bull features there was a good local demand, and the market opened active and 10c higher. The market had hardly opened before everything was sold and the trade was over.

The range of prices was \$3.85@3.95, but the great bulk went at \$3.90@3.95, as against \$3.80@3.85 yesterday. Today's advance carries the market back to where it was on February 18, when the hogs sold about the same as today. Representative sales:

In Cattle There Was the Strongest
Kind of a Market.
CHICAGO, March 4.—In cattle there was the
strongest kind of a market today, receipts being much smaller than usual for Wednesday. ing much smaller than usual for Wednesday. The demand was so good that long before noon the good cattle were taken, prices being nearly loc higher as a rule. Sales of common to fancy native dressed beef and shipping steers were at from \$3.50 to \$4.65, the bulk of the cattle selling at from \$3.50 to \$4.65, the bulk of the cattle selling at from \$3.50 to \$4.55. The stocker and feeder trade has started up once more, and sales are larger at from \$3.55 to \$3.75, a few common lots going at from \$2.65 to \$3. Butchers' cattle sold in a very satisfactory manner at strong prices, cows, helfers and bulls going largely at from \$2.10 to \$3.25. Veal calves are plentier this week, but good lots are no cheaper, and are selling at from \$5.25 to \$6.25. Texas cattle are plentier and active at ruling prices, weakness being confined to the commoner offerings.

Hog receipts today showed a material falling off, and buyers were obliged to pay a further advance of about loc. After the supply was pretty well taken prices fell back to \$c, and closed weak. Common to extra droves were taken at from \$3.85 to \$4.22\frac{1}{2}, the bulk of the sales being at from \$4.95 to \$4.10.

In sheep trade today was brisk at from \$2.50 to \$2.65 for common to choice sheep, few selling below \$3. Westerns were in demand at from \$3.51 to \$3.65, and 69-lb. Texans were wanted at \$3.20. Lambs sold at from \$3.59 to \$4.65, chiefly at \$4 and upward. The demand was so good that long before noor

During the winter of 1893, F. M. Martin of Long Reach, West Va., contracted a gevere cold which left him with a cough. In speaking of how he cured it, he says. "I used several kinds of cough syrup, but found no relief until I bought a bottle of Chamberlain's Cough Remedy, which relieved me almost instantly, and in a short time brought about a complete cure." When troubled with a cough or cold use this remedy and you will not find it necessary to try several kinds before you get relief. It has been in the market for over twenty years, and constantly grown in favor and popularity. For sale at 25 and 50 cents per bottle by druggists.
