SPALDING, Neb., Match 8 .- (Special.)-The Cedar valley has now a magnificent irrigation canal, constructed by the Nebraska Irrigation and Power company. This canal is the nearest traigation enterprise to the constructed despite the fact that the Celar valley has lost but one crop in a whole generation. planted to fruit trees and vineyards this spring. Our hills afford the right shelter from sun and wind.

It is a well known fact that the north and cast slopes are the only places whe e orc ards are a sure success in Nebraska, and we have 200 acres of such slopes. The fruit hills of Council Bluffs give an average of \$100 profit per acre every year, and they offer as fine a sight as the vineyards of Burgandy. But these hills are worth \$500 an acre, and when planted with fruit trees in full bearing \$1,000. The Spaiding hills are not so steep, and not so much exposed to the high winds. They are smooth and well sheltered, and they are still at nominal prices.

Our irrigation ditch flows at the foot of the hills and it will be an easy work to raise the hills and it will be an easy work to raise
the water on top of the hills in lakes, if
necessary. That would make our fuit lands
equal to any in the United Etates for moisture, shelter and sunshine.

SOUTH DAKOTA NOTES.

Hot Springs Company Affairs. HOT SPRINGS, S. D., March 8 .- (Special.) -The case of E. G. Dudley and others against the Dakota Hot Springs company, F. T. Evans and others, in which the plain-tiffs ask for a full accounting of all business transacted by the company since its organization and the appointment of a receiver, has been on trial before Referee John F. Schröder of Rapid City during the past week. The case has attracted much attention. The plaintiffs allege gross mismanagement and fraud on the part of F. T. Evane, who owns a majority of the stock of the company, and who, it is alleged, has manipulated the affairs of the company to his own profit and to the great loss and detriment of the plaintiffs. Counsel and clients on both sides have been involved in an entanglement of figures and accounts of various kinds during the past week, and all seem to be of the opin-ion that the books of the company are ex-tremely difficult to unravel. It is alleged by the plaintiffs that items for personal ex-penses of F. T. Evans have been charged to the company; that transfers of the most tesirable property have been made by the company to members of Evans' family and to corporations controlled by him at ridicu-lcusly low prices; that all the valuable water rights, street car privileges and other franchises have been transferred to other corporations with little or no consideration, and that a debt of over \$200,000 has been incurred by the company by the fraudulent and illega manipulation. An adjournment has been taken until March 24.

Every one of the dozen or more large clubs in New York now have a kitchen where a dinner can be prepared for several hundred people with as much attention as the largest estaurant could give to it. Many large dinners have been given at the new Metropolitan club. During the winter the Lotos gives half a lozen dinners in its club house, each one of which is attended by 200 or more people as many as 275 persons have been dined there. The University and the Manhattan clubs give large dinners from time to time. Of course, such a dinner necossitates the service of extra waiters, but it does not strain the

kitchen service. CALIFORNIA'S SUFFRAGE CAMPAIGN.

Susan B. Anthony Enroute to Take Part in It. TOPEKA, Kan., March 8 .- Susan B. Anthony passed through Topeka yesterday on her way to California to advocate the cause of woman suffrage. She said she hoped the women of California would profit by the experience of the women of Kansas in 1894 and keep party politics out of their campaign. The legislature of California has submitted a constitutional amendment en-

franchising women as the legislature of Kan-sas did in 1893, and she believes that by good management the political parties can be induced to endorse the proposition in their respective platforms. In their work among the democrats the women expect have the active support of Governor Budd. who is an advocate of woman suffrage. It is not expected that any political party will put out a declaration of principles until after the national conventions shall have been ample time for a campaign of education. is proposed to circulate petitions asking the party conventions to endorse woman auf-frage, and Miss Anthony believes that the these will be the names of men, and as the total vote of the state is only about 250,000

Miss Anthony will be joined in a short time by Miss Yates and Anna Shaw, who will speak in every county in the state. It is proposed to hold two day conventions in

given the ballot she would feel it her duty and the duty of all women to take part in such meetings, but without the ballot her counsel would have no weight in deliberations of that character.
