The regular session of the city council last evening was a very brief affair. But it lasted long enough to give the famous "retrenchment" ordinance, which had its birth just previous to the last election, a very gorgeous optic. An ordinance was introduced last night which provides that the salary of the deputy city treasurer shall be increased from \$125 to \$150 per month, that of the head clerk from \$83.33 to \$125, and those of other employes of the office in the

Burkley, Kment and Taylor voting no on the ground that the appointment conflicted with the charter. The official bonds were presented and approved in each case. The resignation of John Lemly as council-

man-at-large was transmitted by the mayor. Allan offered a resolution that the resignation be accepted. Both documents were re-ferred to the committee on judiciary. The bill of the Barber Asphalt company

The Omaha Modicial society held a meeting at the Commercial club rooms last evening at which a mumber of papers on special subjects were read. The first speaker was Dr. Eleanor S. GOVERNOR BOYD ENTERS DENIAL.

Says that There is No Truth in Re-ported Theater Deals.

During the past day or two it has been rumored that James E. Boyd was about to add the Crawford theater of St. Joe to his theatrical possessions. Then the rumor was reversed and it was stated that L. M. Crawford was to lease the Boyd theater in this city and run it in connection with his St. Joe house. Governor Boyd says that both of these statements are equally remote from the truth. The only basis for the rumors was that he happened to be in St. Joe for a

couple of hours the other day and called on Mr. Crawford. He had never seen the thea-ter and on Mr. Crawford's invitation he spent an hour in looking it over. There was no suggestion of any business deal and the first that he had heard of it was in the more recent reports.

"T.ere is absolutely no truth in the stories," said Governor Boyd, "My call on Manager Crawford was of a purely social character and I inspected his theater for no other reason than ordinary curiosity."

Our new crop of 1896 Spring Overcoats is now on tap. This crop comprises cassimeres, meltons, worsteds, cheviots, homespuns, diagonals and "West of England Covert Cloth," whatever that may mean.

The colors vary from a light fawn color to a black black, and between those you will find light and dark grays, light and dark browns and some shades that are neither light nor dark, nor gray nor brown.

The prices run from \$4.00 for a good, substantial, every-day and Sunday coat, well made and well lined, to \$12.00 for a very swell affair that is good enough to get married in, and almost too nice to wear for every day.

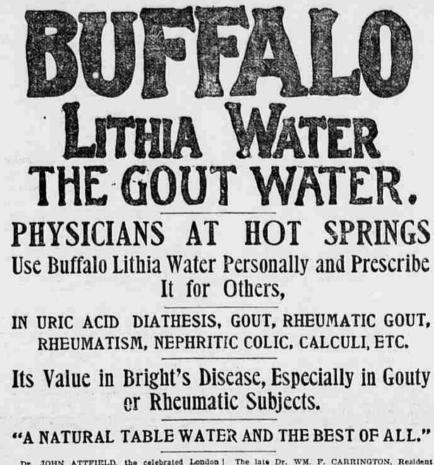

These coats differ from all others in two very important points; First, in price: For instance, the coat that is marked \$7.50 is different

from any \$7.50 coat you ever saw by about \$2.50; and the \$12.00 coat is about \$6.00 to \$8.00 different from the \$12.00 coat you buy in any other store.

Second, in wear: If you ever bought a Spring Overcoat at The Nebraska you know that it wore well. That's a way "Nebraska" clothes have, and these overcoats will keep up the reputation of those we sold in former years. Many a man is today wearing a "Nebraska" Spring Overcoat of the vintage of '28, and many a man who buys from this year's crop won't have to buy a new one when he fixes up for the Trans-Mississippi Exposition of '98.

AN OPEN WINTER FOR HEALTH.

Commissioner Blythin Gives Bis Views Upon This Subject. Commissioner Blythin of the health department says that there is an unusual prevalence of stomach disorder existing in the city at this time. The disease is a sort of winter cheleta, the main symptoms of which are

frequent purging and vomiting. Nearly 300 cases have come under his own observation during the past month. They usually yield to treatment and are seldom serious. In spite of the general impression that an open winter is unhealthful, Dr. Blythin in-

clines to the contrary opinion. He points to the city's unusual freedom from disease. He says that while a certain class may have better health in colder weather, an open winter is conducive to healthfulness among the poorer people. There are many fam-illes, he says, where five or six persons live together in a very small house, or in one or two rooms. When the weather is very cold they shut themselves up in order to keep warm and the fact that they are thus depilved of sufficient air makes them pe-culiarly susceptible to disease. With warm weather they can open the windows and the result is a decided improvement in their

physical condition. MORE THAN GEORGE COULD STAND.

He Tells the Court Why He Wants a Divorce. George Lang has applied to the courts for a divorce from his wife, Martha. According to the story that George tells in his peti-tion, she has been guilty of extreme crueity and has made life a burden for him.
