Threats of a Mob Cause Him to Use Strong Language. CHAMBERLAIN, S. D., March 14 .- (Special.)-The situation is becoming squally in Aurora county over the sacking and burning of the Mitchell Mail office, and the regulars may have to be called out. After the destruction of his office Editor MacBride went to Plankinton, twenty miles from Mitchell, and two of the newspapers there promptly took up his fight, the Standard, in its regular edition, being particularly butter in its attacks upon the participants. Later a Standard extra was issued by Mac-Bride, with the permission of the editor, and another attack was made on the former's Mitchell enemies. It having been in-timated by some one in Mitchell that the next bonfire would occur at Plankinton, Captain Andrews of the Standard, going upon the supposition that the alleged threat was intended for him, in this week's issue of his paper refers to the matter and says that the local undertaker has on hand a good supply of coffins, and that if an at-tempt is made to carry out the alleged tempt is made to carry out the anegotherest of burning him out, those who attempt it need not carry coffins with them expense of interment is as cheap in Plankinton as in Mitchell.

The price for shearing sheep was established at 7 cents per head for all classes of sheep, and shearers to board themselves. Edward Crapon was awarded the boarding house at Cas-per creek pens, and Mrs. L. B. Johnson, the Platte river pers. John McClure was awarded the wool hauling from all the pens. Hon. N. H. Schreiner reports sheep on the range in good condition, and says that the quality of wool produced in this section this year will be the longest fiber of any wool that has ever been produced here, and that range wethers are mutton fat. A great many shearers are on the grounds, and it is expected that shearing will start in full blast March 25. A proposition to erect a wool warehouse is under consideration. Commission men on the ground are offering to advance 5 cents per pound.

Tribune, one of the Russian nihilists concerned in the assassination of Czar Alexander II. of Russia has applied for a pardon to the and give the government valuable information. The Tribune says the name of the applicant is Gregor Krasnow, who for twelve years has lived in Chicago under an assumed name, carefully protected by his countrymen. After the assassination of the czar, Krasnow was arrested, but secured his release on bonds through influential friends and fled to America. For years the Russian police thought him dead. A prominent local Russian is quoted as saying that Krasnow has cost the exiles of his native land over \$30,000. They regarded the money well spent until now. Krasnow, it is said, was in Chicago a week ago, but has now disappeared.

Merritt, et al., has returned a verdict of \$193,000 for the defendants after being out twenty-four shours. Stratton sued on a note for \$4,100, endorsed for accommodation by the Merritts. The defendants pleaded that they were entitled to \$375,000 damages on the ground of fraud. The suit grew out of a Kentucky coal and Mesaba iron ore deal, it being alleged that Stratter stated he owned 50,000 acres of coal lands when he owned none. Shortly after the verdlet was rendered a warrant for grand larceny against Stratton, which was sworn out several days ago, was put in the hands of a detective, and Stratton was arrested at the Spaiding house. He was terribly surprised. Stratton is well-to-do.

Narrow Squeeze for a Chiengo Man. NORTHPORT, Wash., March 14.-Harry Finnich, a Chicago traveling salesman, had a narrow escape from death last night. Finnich won \$350 playing craps in Timothy Vogel's gambling place. This broke Vogel, who persuaded Finnich to enter a disreputable place. As soon as they were inside Vogel drew his revolver and told Finnich that if the money was not returned he would kill him. Finnich grabbed Vogel turk to kill him. Finnich grabbed Vogel just in time to prevent a bullet entering his heart. The ball passed through his hand and plowed a furrow in his cheek. Finnich drew his revolver and several shots were exchanged without effect. Vogel was arrested and lodged in jail. There is strong talk of lynching him, but the jail is being carefully guarded. Finnich has the reputation of being an all-round athlete, better known in east as the "Arkansas Kid."

President Zelaya's Forces Capture Three of the Leonist's Strongholds.

TWO HUNDRED OF THE REBELS KILLED

For Once in the History of Central American Revolutions the Combut Takes on the Semblance of Rent War.

(Copyright, 1896, by the Associated Press.) MANAGUA, Nicaragua, March 14.-(Via Galreason.)-The Nicaragua government troops won another important victory over the forces of the rebellious Leonists, and there is great rejoicing here in consequence. The battle took place at Pital, not far

from Momotombo. Between 2,000 and 3,000 nen were engaged, the fighting was severe and the troops from Leon, Chichegalpa and Chinandega, the three strongholds of the Leonists, numbering about 1,500 men, were ompletely routed, with the loss of about 200 killed and wounded. Only about fifty of the government troops, which numbered about 1,200 men, were killed or wounded. The rebels were commanded by General Ortiz, the commander-in-chief of the Leon forces; but Bacca, the rebel president, was at Leon, it is believed, supervising the work f putting that city in as complete a state of defense as possible previous to the arrival before it of the government army and the army which the government of Honduras has to the support of the troops of Presi-Zelaya. The government troops were dent Zelaya. ommanded by Generals Paiz and Bodan. Pital is a small town near Lake Managua. Of the 300 or so buildings which compose the town, many are of wood and others of coarse mud-like bricks with red clay tiles. But outside the town is a high ridge of ground which forms an admirable point of vantage

against any fee.

The government troops began the advance from Nagrole on Wednesday after the skir-mish with the enemy, which resulted in the Leonists being driven back with the loss of fifty killed and wounded. The government forces approached Pital yesterday morning. The firing upon the part of the rebels com-menced as soon as the troops were within range; but the government forces, acting under explicit orders, reserved their fire and largest merchants in Mitchell, committed suicide this morning. His general otore was all the inequalities of the ground in order closed by a chattel mortgage, held by the which, as a rule, either fell short or flew high above the heads of the troops. The result was that President Zelaya's troops were able to get within good striking distance of Pital, with the loss of only three men killed and seven wounded. The Leonists, however, kept up the firing throughout

MOVED IN FOUR COLUMNS. The government forces moved on Pital in four columns, each of about 300 men, and took up positions in a half-circle before the town. The first and third columns opened a hot fire on the rebel positions and under its cover columns two and four pushed forward at the charge until they reached much better positions, half sheltered by an inequality in the ground. From there they opened fire on the Laconists, combling columns one and three to push onward. During this advance, thanks to the well-directed fire of the government roops, the less of the latter was trifling.

All four columns then concentrated their fire on the ridge occupied by the Leonista and then began a series of short rushes forward and eventually there was a charge up the ridge, a short bayonet fight, when the summit was attained, and then the Leonists broke and ran for Pital, pursued by the triops of President Zelaya.

When the Leonists reached the shelter of the town they made a stand, but by this Would Turn Informer.

Russian government, offering, if the pardon defended the place stubbornly, but the troops pushed on and eventually entered the town driving the Leonists before them at the point of the bayonet. The enemy afterward scattered and in small bodies fled toward on, after making a short stand outside Pital and firing at long range. A few shots from the artillery, however, completely routed the Leonistz, who left about 200 killed and wounded on the field, besides taking away with them a large number of men who were slightly wounded.
The government troops also captured over

fifty prisoners in the houses of Pital, the rebels in nearly every instance throwing down their arms as soon as the soldiers broke in the doors of the buildings.

REJOICING OVER THE VICTORY. There is much rejoicing here today at this further success of the president's soldiers. and he is receiving congratulations on all sides. The church bells have been kept continually ringing ever since the glad news already fired three presidential salutes. The blue and white colors of Nicaragua are floating from every building of any importance, and even the smallest mud hovele have dis-played some kind of decoration in honor of he victory of the Nicaraguan troops.

The success of the government troops at Pital is all the more pleasing to the in-habitants of this city, as many of the men engaged were Managuans, and General Paiz

is a great favorite here.

Although no official announcement has been made on the subject, it is understood that the troops from Honduras will soon be in touch with those of Nicaragua, and as both republics suffer from the machinations of the clericals, who are the mainsprings of he rebellion, they will practically be fighting for a common cause and the result should not be long in doubt, although it is understood that Leon and its neighborhood has been very strongly fortified and well provisioned.

The garrison of Managua was paraded this morning in marching order, and the com-manding officers read to the troops the president's message announcing the victory, news was enthusiastically received. soldiers then marched through the capital, heering for the government and President Zelaya.

The government troops are now being con-centrated for the advance upon Leon, which, it is expected, will commence in a few days

NO TROUBLE WITH THE INDIANA.

Hullders and Department Deny Some Reports.
PHILADELPHIA, March 14.—"If you will refer to the Navy department reports at Kentucky Legislature Subsides from Its Washington you will find a direct refutation of the statements," said Henry W. Cramp. a member of the firm of William Cramp & Sons, shipbuilders, today, referring to a published story to the effect that the armament of the battleship, Indiana, was entirely too heavy for the vescel. He said that official records show that the guns of the Indiana had been fired, and that the results had been class d as successful.
"We do not know on what authority the

statements were published today, and have no desire to engage in a controversy of any kind regarding the subject," added Mr. Cramp. "We will simply refer all persons in search of information to the departments at Washngton. I will state, however, that informa-ion furnished to the firm has always been to he effect that the armament was well adapted to the ship, and that the guns worked all right during official trials."

There was no blame attached to the uilders in the statement published today. The responsibility for the alleged unsatisfac ory results was placed on the shoulders of hose who designed the ship, and it was adshoulders of mitted that the plans had been followed in every particular by the builders of the vessels. The Massachusetts, a sister ship of the Indiana, will leave Cramp's on Tuesday for the builders' trial trip. About three weeks after the ship returns to the yards it will be placed in readiness for the official trip.

WASHINGTON, March 14.-Private advices received here from Port Royal are to the effect that the Indiana touched the bottom on the harbor yesterday while coming in. As no official report has been made to the Navy department yet, it is assumed that no damage was sustained, as the bottom is soft mud inside the harbor, and the vessel vas undoubtedly proceeding very slowly.

The officials at the Navy department rid-

cule the story that there is anything wrong with the battery of the ship, and the report of the inspection board, which went to sea with it, and fired every gun on the ship under all possible serv-ice conditions. As for the secondary battery as re-ported at the time of the trial, all worked well except that the eight-inch guns could not be fired safely directly over the turrets of the thirteen-inch guns without first caus-ing the men in the sighting hoods to vacate. This also was expected, and indeed, the plans for the double-story turrets, which are to go on the two new battleships, Kearsarge and Kentucky, were evolved as the result of experiments made at the proving grounds, which showed that it would not be possible safely to fire the eight-inch guns directly over the main turrets. In the case of the Indiana, the inspection board recommended that to guard against accidental ranging of the smaller guns over the big turrets, chocked be placed in the gear, and this has already been ordered.

JACKSON AND WALLING IN COURT. Will Learn Their Fate from the Judge CINCINNATI, March 14.-This was the

day set for the hearing by the circuit court of the appeal from Judge Buckwalter's decision, remanding Scott Jackson and A. M. Walling to Kentucky to answer for the murder of Pearl Bryan.

The father of Pearl Bryan, her two brothers, and ten men, friends of the family, are here and were in the court room an hour before the time set for the hearing. Much disappointment was felt when the hearing was delayed, because the record had not been properly certified to the court, and the attorneys set themselves to work with Judge When the Leonists reached the shelter of the town they made a stand, but by this time the two guns with the government columns had been brought into action and the Loenists were cannonaded very cleverly considering the lack of training of the government gunners.

CINCINNATI, March 14.—The Commercial Gazette's special from Frankfort, Ky., says: Governor Bradley this evening issued his first official order, commanding the sheriff of this county to preserve order in the capital building and if necessary to enter the joint assembly at the request of the president. The order commands the sheriff hereafter to clear the rotunda and keep persons out of it and out of the cloak rooms of the senate and the house while the joint assembly is in session, except Senator Blackburn, members of the assembly and constitutional officers. It also orders the sheriff not to let any perons enter either house, except members such other persons as the president of the senate and speaker of the house may indi-cate. A resolution introduced in the senate to allow only; members and constitutiona officers on the floor will be adopted Monday As the rules of the senate are the rules of the joint assembly, this would exclude James and Walton, the expelled members, from the floor. This seems likely to cause trouble or Monday.

Governor Bradley says he will not call an extra session. The house passed the necessary financial measures some time ago and the senate has failed to pass them. He says he will leave the responsibility with the senate, if it does not pass them.

BENEFITS OMAHA VERY LITTLE Wabash Puts On a Fast Train Eas

ST. LOUIS, March 14.-On Sunday, March 22, the Wabash will place in effect a new schedule, under which the passenger and mail service of the rad will be greatly improved. The change will materially shorten the time from Kansas City and western points to the east, and effect a paving of from twelve to fifteen hours fr the transmission of the mails. The most important innovation is the establishment of an early morning fast mail train from St. Louis to Chicago and Toledo. This Louis to Chicago and Toledo. rain will leave St. Louis at 3:45 a. riving at Chicago at 11:30 a. m., and Toledo at 2:35 p. m. At Toledo, close connections will be made with the Lake Shore & Michigan Southern for the east, and in addition the train will carry through cars between St. Louis and New York. The train will leave Kansas City at 6:30 p. m., and ar-rive at St. Louis at 2:35 a. m. The run from Teledo to this city will be made in ten hours and twenty-five minutes. Other changes in the schedule now in force, affecting other trains, will be made.

Inquiry at the local offices of the Wabash oad showed that there would be no change in trains in or out of Omaha. St. Louis and Chicago receive the greatest amount of tention from the Wabash road, and it is the traffic between those two cities that is most carefully looked after. The change in the running schedules of trains cut of St. Louis Chicago and Kansas City will, of course, afford better service indirectly to this city.

GRAIN RATES ARE BEING SHADED. All the Roads from Chicago East In oliented.

CHICAGO, March 14.- The officials of the Joint Traffic association have sent out strong denials that grain rates from Chicago to the Atlantic seaboard are being cut. They are being cut, notwithstanding the denials, and they have been cut for the last two weeks and over. Some of the roads are shading the agreed grain tariff to the extent of 2 or 3 cents. The chances are, moreover, that they will be cut deeper yet before the opening of navigation. The agreement of the Joint Traffic association has not been strong enough to keep the roads within bounds, al-

though it has done far better than the old Central Traffic association. Every line doing business between Chicago and St. Paul has now given in on the proposition to extend the tickets to the thirty day limit demanded by the members of the Grand Army for their September encamp-ment. All the roads have applied to Chairman Caldwell for permission to make the extension and no matter what his decision may be, they will make the extension. Under he association agreement the roads can make any rates they please and grant any limit on their tickets that suits them, provided they give to the chairman of the association

GREAT NORTHERN CUTS WAGES. Strikes Operators, Station Agents and

Engine Wipers.
SEATTLE, Wash., March 14.—The Great Northern railroad has made another reduction in the wages of its employes, the mer affected being agents, telegraph operators, cashiers and engine wipers. The scaling down dates from March 1, although the circular letter making the change is dated March 8. The change is not called a cut, but an equalization, because some salaries have been raised. But the increases are very few, and the amount in any instance does not exceed \$2.50 per month, while the reductions amount to as high as \$12.50. The entire coast line in Washington suffers from the change. Employes say the cut is in di-rect violation of the agreement made with the president and the St. Paul arbitration board in April, 1893. Telegraph operators suffer the most, and some of them intend to esign. There is yet no zign of a strike.

HAVANA, Cuba, March 14.-Quite a com notion in army circles was caused today by the arrival of a ship load of bicycles for the insurgents. The wheels in question are the "Nationals," and were selected because they are generally conceded to be strongest nd fastest made.
A. L. Deane & Co., the agents for the

National in Omaha, when shown the above, said that this was the outcome of a series of tests, in which the best wheel won, and expressed themselves as highly satisfied with the outcome.

CHRISTENED HIS NEW ARMY

Ballington Booth Decides on a Name for the New Organization.

CALLS IT "GOD'S AMERICAN VOLUNTEERS"

Banner Selected is White with Forty-Five Stars in a Blue Field in the Upper Corner-Plan of Organization.

NEW YORK, March 14.-Ballington Booth onight furnished an official description of the standard of his new movement. He eald the standard would be distinctly American. It will consist of a white flag, emblematical of purity. In the center will be a large, blue star, typical of hope; in the middle of this star, a white cross, emblematic of sacrifice for others. In the corner of the standard, or flag, nearest the top of the staff will be forty-five white stara, in the field of blue, representing the states of the union. Over the central large blue star will read the motto: "The Lord, My Banner," and underneath the words designating the number of the post to which the standard is presented. It is to be carried by a color sergeant at the head of the parade along with the national flag. Following this description, the commander said: "God Almighty grapt that the principles and truth represented by this standard may be preserved by the American people for all time."

Mr. Booth said an official communication between himself and his father was at an

The World tomorrow will publish the fol-owing: "Ballington Booth has named his ew religious organization "God's American

Volunteers."
"Eureka," he exclaimed. "I have found The new movement has at last a name which we have been seeking for weeks. God's American Volunteers. Three cheers, gentlemen, for the success of the glorious cause." The old bible house, usually quiet and gloomy, echoed with the cheers that answered the call. Booth stood in the center of the group and waved his long arms with enthusiasm. "The American Volunteers, all for men and all for God," he added, "Patriotism for our country and faith in the Lord will lead us to victory."

The volunteers will be governed by a mili-tary constitution, with Mr. and Mrs. Booth as joint presidents. The local branches will be called posts and the various grades of officers will have rank and titles like those of the American army. COLONEL NICOL GOES TO LONDON

General Booth Wishes Information

Concerning the Army. NEW YORK, March 14.-Colonel Alexander Nicol, the special representative o the international headquarters of the Sal vation army in the United States, sailed for England in the Lucania today.

The colonel arrived from the west yes terday afternoon and was scheduled to speak at the big meeting in Fourteenth stree tomorrow. At the national headquarters nothing could be ascertained as to the nature of the colonel's leave-taking. It was said, however, that Commissioner Ev Eve Booth, Commissioner Carleton and Colone Eadle were busily engaged with Colone Nicol during the greater part of the night it is stated that Colonel Nicol found the affairs of the army out Chicago way to be in a turbulent condition; that the London office had been so informed and that General Booth had decided to summon his spe-cial agent home that the exact situation might be made clear to him

ST. LOUIS, March 14.-Brigadier General French, who is the chief officer for the Salvation army for six western eintes, just returned home from New York, whither he was called on army business. He says the withdrawal of Ballington Booth will have no perceptible effect on the army, which will remain loyal almost to a man to General Booth. Every soldier in St. Louis, he says, will remain loyal to the army and to the old general. So far only one corps, that of Sea Cliff, N. J., and only one officer, Major Glenn, has joined the new

Mrs. Stanley Jewett, who is visiting friends in South Omaha at 433 North Twen ty-third street, reported to the police las evening that a purse containing \$23 in money and other articles of value was either lost or stolen while she was shoping in the city yesterday afternoon.

John Saunders has been arrested on a charge of assaulting Mrs. William Young at 416 South Fifteenth street. Mrs. Young alleges that Saunders called at her residence while her husband was absent and after a short conversation he caught her by the throat in the hall and choked her crueily. A riot call was turned into the police sta

tion from Kessler's hall last evening, bu when the officers arrived the belligerents had dispersed. They found, however, D. Fisus a conductor of the Union Pacific, in a badly battered condition. He said that he had been assaulted by two men named Collins and Daley. They escaped. Fisue was taken to his home, near Fourth and Bancroft streets. The usual orchestral recital and informa

reception at the rooms of the Young Men's Christian association were varied last night by the rendition of a very pleasing program, arranged by Prof. Williams. Griffiths, tenor, was especially good in the song, "The Time Will Come When You'll Remember," by James Fairfield of Omaha. Little Miss Virginia Merges captivated the nudlence with her character song.

The use of the surgeon's knife is becoming so general, resulting fatally in such a large number of cases, as to occasion general alarm. The press al-most daily announces the death of some unfortunate whose system could not withstand the shock of an operation. and whose life was cruelly sacrificed to the keen blade of the surgeon.

Of course, in some instances an operation is necessary, and is the only means of saving life, but such cases are exceedingly rare. So many deaths occur under these conditions, however, that the public is beginning to realize that the doctors are too hasty in resorting to the knife, and if such a state of affairs continues, there will before long be a general uprising against such measures. It is but reasonable to believe that the majority of operations are unnecessary, but when the fatal mistake is discovered too late, only the doctors ever know of their error, and though a precious life is given up, the public is assured that death would have resulted in spite of the operation, and who is ever the wiser?

The folly of resorting to the knife in cases of cancer, is demonstrated every time it is undertaken. The disease is in the blood and the cancer or sore is but the outward manifestation of a terrible condition of the entire circulation. To cut out this sore, therefore, does not in any way effect the disease, and it can easily be seen that the only correct treatment is to get at the seat of the disease, and purify the blood; the sore will then heal up naturally. 6.S.S. is the most powerful blood remedy made, and is the only cure for cancer.

MR. WILLIAM WALPOLE.

To submit to an operation, is to voluntarily endanger one's life, without the

slightest hope of being benefitted.
Mr. William Walpole, is a wealthy planter residing at Walshtown, South Dakota, and is well known all over the state. Under date of January 20th, 1896, he writes; "About three years ago, there came under my left eye a little blotch about the size of a small pea. It grew rapidly, and for the past year, shooting pains ran in every direction. I became alarmed and consulted a good doctor, who pronounced it cancer, and said that it must be cut out. This I would not consent to, having little faith in the indiscriminate use of the knife, though I was alarmed at my condition. Reading of the many cures made by S.S.S., determined to give that medicine a trial and after I had taken it a few days, cancer became irritated and began to dis-charge. This after awhile ceased, leaving a small scab, which finally dropped off and only a healthy looking little scar remained to mark the place where the destroyer had held full sway . Words are inadequate to express my gratitude to the great blood purifier, S. S. S., and I write this hoping that it may be the means

of leading other sufferers to a cure." Cancer is not incurable, but the only means of curing it is to rid the blood of the disease. S.S.S. never fails to do this, but it is the only remedy to be relied upon. It is guaranteed purely vegetable, and cures Cancer, Scrofula, Eczema, Catarrh, Rheumatism and any other disease of the blood. Other blood diseases often develop into such alarm-ing conditions that the doctors think an operation necessary. Scrofula, for instance, often diseases the glands of the neck to such an extent that an operation is looked upon as absolutely the only relief. This is also a grave error, as the disease is in the blood and a real blood

remedy is the only cure. An operation never did cure a blood disease. Beware of the knife! Send for our books on cancer and blood diseases, mailed free. Swift Specific Company, Atlanta, Georgia.
