Hood was a witness last Friday in the Walton divorce case, and swore that during fair time Mrs. Walton came into Within the last week seventy carloads of the store one evening evidently looking for cattle and four carloads of hogs have been some one. After that she came in again and held a brief consultation with Fulleron, following which she went out of the ton, following which she went out of the heaviest snow of the season fell yesterday front door. Fullerton then came back and and the farmers are feeling much pleased. putting on his coat left by a rear door. The two met in an alley between N and O streets and went away together. Hood said that Fullerton returned in about an hour. In his affidavit filed with County Judge Cochran, Fullerton swears that Mrs. Walton war not in the store on the date mentioned, and that each and every statement made by Hood is false. The court has continued the case until March 39, releasing Hood on \$1,000 bail, furnished by himself and F. T. Walton, son of Thomas Walton, one of the principals in the divorce suit. The latter, who is defendant in the case, was on the witness stand this morning, and swore that he was afraid his wife would poison him and that at one time he was quite ill and had yomited soon after having eaten food cooked by Mrs. Walton, Believing that his life was not safe, he had subsequently taken his meals down He also accused his wife of being adlicted to the use of morphine. Walton felated circumstances in which he had discovered his wife in company with other nen, but declined to give their names. Charles W. DAMAGING BLAZE AT FREMONT.

Two Stories of the Biles Block Burned. FREMONT, March 23 .- (Special.) - The fire department was called out last night by a bad fire in the Biles block, corner of Sixth and Main streets. The fire caught in the north and of the second story of the block and when the department arrived was burning fiercely. It soon spread through the second nolds block, joining it on the north, was considerably damaged. The lower story of the Biles block was occupied by John Knechtel, dealer in general merchandise. He carried an insurance of \$12,500 and estimates his stock at \$16,000. His loss, which is principally by emike and water, is difficult to estimate, but it is probably about \$4,000 or \$5,000. The Biles block is owned by the Green estate of New York, loss is estimated at \$2.000; fully insured. W. D. Reynolds estimates the loss on his block at \$500; insurance, \$6,000. DEAVER MAKES SOME SUGGESTIONS.

Another two inches of snow fell here this elected president or Thurston appointed to Changes in the city charter ought to be, and probably will, the leading legislative issue in Douglas county. Let me further suggest in Douglas county. Let me further suggests some of the changes that seem to me would result in good. I am certain these suggestions will meet with adverse criticism from all manner of political roustabouts, but nevertheless a reduction of city expenses must come in some way, from the looks of the delinquent list, and we must meet the issue. It is all well enough to say, "We must live or six inches.

The working man may say, "I must have three meals a day, or I must have coal to burn, or I must have clothing for my children," but the inevitable recult is that he "must have" the city as with individuals, and it is evident that taxes "must" be reduced or many more people will be driven into bankruptcy

and the city's credit impaired. With our present standing army of city officials everyone knows that it is next to impossible to locate responsibility in any department, and any corporation, whether it be public or private, that follows such a policy "must" inevitably come to bank-

This city has no more need of eighteen councilmen than a railroad has for eighteen general managers. It has no need whatever for a Board of Public Works. There are no public works, nor is there liable to be soon. It is true our pavement is largely worn out, but it is not paid for. The very idea of paying \$7,500 per annum for three bosses when a good part of the time they have not a man each to boss is simply ridiculous. We could live through it without a meat and vegetable inspector or an inspector of weights and measures. I want some living human being pointed out to me that will or has eaten decomposed meat or rotten vegetables and didn't know it. If any dealer sells decomposed meats or rotten vegetables at short weight you may bet that the newspapers will show him up in such a light that it will be a lesson to others. Then what need have we for sanitary inspectors when every police officer is in himself : man as a Board of Health, unless it be to issue annual reports, interspered with clerical errors? And so on through. I might name all kinds of inspectors of various kinds and qualities. It is all very well to put on these frills when we can afford it, but when such frills threaten to bankrupt the community and compel us to shorten the school year it is time to look out for a

change. I would suggest that the city be divided into two wards and that we have

two ward councilmen and one councilman-atsay about \$5,000 per annum, and the council men, say about \$2,000 per annum each, and they should give their entire time to the city's service. The councilman-at-large should be chairman of the Board of Public Works. The work of street commissioner, sewer commissioner and other necessary work could be divided between the two

ward councilmen. I would suggest that the governor ap-point one man as a fire and police commisloner, the mayor, the governor's appointe: stitute the fire board, and the mayor, the governor's appointee and the chief of police to constitute the police and license board, the mayor and the governor's appointed having power to discipline or remove the cilef of either department for just cause, as should be provided by law.

The clerk to the chief of the fire depart-

meat could be clerk of the fire board, the clerk of the chief of police could be clerk of the police and license beard. The chief of the fire department could in person or by deputizing one of the men in the depart-ment fill the office of building inspector. The chief of police could be license in spector, inspector of weights and measures rotten meat or anything else that needed inspection. There are good men in both departments who could be assigned to all kinds of inspection, plumbing inspection included, and of course with such a small council there would be no need of a sergeant-at-arms, much less two. The office of comptroller and city clerk could be merged into would prevent the need of so much copying, doing the same work over and over again. Quite a number of useless offices could be dropped entirely and in a city government like this there would be no difficulty in locating responsibility, which is the prin-cipal guard against all misgovernment. There being more responsibility placed on city officers, the people would be more care-ful who were elected to fill the positions.

I offer these suggestions for the consideration of the voters of Douglas county, as at the coming session of the legislature there will be a better opportunity to consider charter changes than we are liable to have for some years. the amendment carried, which provides for

the consolidation of the county and city treasuries, we might be able to conduct our

city government on a basis commensurate

with the ability of the people to pay taxes.

Two Men Overcome When They At-

tempted to Enter. PUNXSUTAWNEY, Pa., March 23.-The gas in mine No. 1 at Adrian, operated by the Buffalo, Rochester and Pittsburg Coal and Iron company, exploded last night and the mine is on fire. It is impossible to get into the mine any distance, although the explosion occurred two miles back. Shortly after 12 o'clock last night the fire boss heard an explosion, and this morning the men going in to work were overcome. Some escaped and the slarm was given. Eleven men have been brought out, with two dead. The dead are: Isaac Jones, married, with three children; Joe Lawrence, widower, with eleven children. Both these men were res-cuers. How many more there may be in the mine cannot be stated.

Much excitement prevails about the mine, but nothing definite will be known until morning. We heard a mechanic say that he would not be without Salvation Oil. It kills pain.

It is supposed that some miners went in

last night to work and ignited the gas.
