

SENATE IS NOT SATISFIED

Ministry's Explanations Not Sufficient to Command Confidence.

AGAIN IN CONFLICT WITH THE CHAMBER

In View of the Successive Votes of Confidence in the Chamber the Ministry Decides Not to Resign Office.

PARIS, April 3.—In anticipation of a lively debate upon the foreign policy of the government, the Senate was crowded today and many deputies, as well as most of the ministers, were present.

General Ando, commanding in Santa Clara province, has been blamed for allowing Gomez to get through that province. I do not know whether the rebels were in the hands of the troops at his disposal.

In spite of this appeal a motion to defer the interpellations was defeated, whereupon M. Bourgeois declined to reply to them.

M. Millard stated that the explanations of M. Bourgeois were inadequate in the Chamber as well as in the Senate. He added that the resignation of M. Berthelot, the former minister for foreign affairs, had received no one.

All the world, he asserted, understood that M. Berthelot's retirement was an admission of blunders committed. Continuing, Millard said that he would not attempt to approve the position which France had been reduced during the last five months.

The interpellations were not calculated to increase the prestige of France abroad. Thereupon M. Millard introduced the following resolution:

The Senate, noting the declaration of the government that it cannot add to its explanations of Tuesday on the Egyptian question, and that it will not continue in office unless it receives a vote of confidence, has decided to postpone the interpellations until the resumption of Parliament.

All the ministers left the Senate after the passage of the vote of non-confidence and the Senate, almost immediately after adjourned until April 10.

After leaving the Senate chamber the ministers met at the Quai d'Orsay in order to discuss the situation. They separated at 10 o'clock, but met again at 11 o'clock for the session.

At the close of the session, however, M. Bourgeois went to the Elysee palace in order to see the president.

Later it became known that the cabinet had decided that the successive votes of confidence of the Chamber of Deputies made it the duty of the government to continue in office and M. Bourgeois announced the president.

SENATORS GREATLY AGITATED. LONDON, April 3.—The Times will publish tomorrow the resignation of M. Berthelot, the former minister for foreign affairs, which was refused to answer the question put to him in the Senate.

There was great agitation at several points in the Chamber during his interruptions. The Comte de Maille exclaimed: "We are dealing with the ministry of a man." Provost de Launay cried: "Vive le Comte!"

M. Bourgeois replied that he might ask the president to note the interruptions, but he was unwilling to do so.

The Paris correspondent of the Times claims to have the best authority for the following explanation of the resignation of M. Berthelot.

It appears, he says, "that after M. Berthelot's speech of March 19, which pledged in a definite way the policy of the government, the Chamber of Deputies, in a vote of confidence, refused to accept, and the conference closed."

Chamberlain Demands an Answer. LONDON, April 3.—A dispatch from Pretoria to the Times says: "An important dispatch from Mr. Chamberlain was presented to President Kruger on Wednesday."

Seventeen Prisoners Executed. TAMPA, Fla., April 3.—Letters received from Cuba today state that last Tuesday seventeen political prisoners were shot in the Fortes Cabanas, Havana.

Not Controlled by the Turks. CONSTANTINOPLE, April 3.—M. Clara Barton, president of the American Red Cross society, is much disturbed on account of the reports circulated in the United States to the effect that the Red Cross relief is being controlled by the Turks.

Criticizing the Venezuelans. LONDON, April 4.—The Daily News has a column article criticizing the methods of Venezuela regarding the boundary claim and asking: "Where is the Venezuelan claim to the British Guiana? Where is the evidence of most of the land referred to in the San Roque dispatch to Lord Aberdeen of February, 1881?"

General Weyer Goes to Church. HAVANA, April 3.—Captain General Weyer and his staff and the civil and military authorities took yesterday and today in the religious ceremonies in the cathedral, at which were also assembled all the elite of Havana.

CUBA'S INDUSTRY IS PARALYZED.

Crops Ruined and Business Dead as a Result of the War.

HAVANA, Cuba, April 3.—(New York World Cablegram—Special Telegram.)—The total amount of sugar made in Cuba this year, I have excellent authority for stating, will not exceed 2,000,000 tons.

The tobacco crop will be greatly diminished. The other products of the island—hides, mahogany and cedar—are practically not to be had.

Business is prostrated. Nothing is being done on the exchange, and the Produce exchange is closed. The market for salt cod fish, a staple article and usually in great demand, sold recently, I hear, for 1 1/2 cents a pound below cost.

Flour, potatoes and the commonest necessities of life cannot be had on business principles. There is no money.

Havana is like a tomb. Yesterday and today the calls were to the street in recognition of Holy Thursday and Good Friday.

General Ando, commanding in Santa Clara province, has been blamed for allowing Gomez to get through that province. I do not know whether the rebels were in the hands of the troops at his disposal.

Gomez is lying less than 200 miles from Havana. He has been in communication with Jose Maceo. The subsequent movements of the rebels are uncertain.

LONG LIST OF ATROCITIES

Terrible Stories Told by a New Orleans Newspaper Correspondent.

SPANISH SOLDIERS ARE SPARING NONE

Putting Down the Rebellion by Exterminating the Cuban People—Bloody Trophies Exhibited by the Soldiers.

NEW ORLEANS, La., April 3.—The Picayune's special Havana letter, dated March 27, gives the summary of events personally investigated by the writer, which is declared to be accurate in every respect.

In Batino, Dr. Vidal Solonago made an operation on a poor old man, and when he was convalescing he was one night arrested and taken to the army of the Guardia Civil, where they lashed him all over the body, and in spite of his cries they laughed and took him on the outside of the town, where they compelled him to make a grave, in which they buried him, after he died from the ill-treatment he had received.

The plantation Salvador, of the Count de Barreto, Lieutenant Benicourt, a Cuban by birth, belonging to the state, his condition is regarded as serious, and he will doubtless have to undergo amputation of one of his limbs.

While the house was surrounded by a posse, the desperadoes rushed from the building, and shooting rapidly in every direction broke through the crowd and made their escape in the darkness.

Two posers of several hundred men are reported to have been engaged in the city of Havana, and the leader, is surrounded in a swamp. He is shooting rapidly, but his ammunition has been given out, and he will be captured.

Poses are spreading out, looking for the other members of the gang, who will meet a like fate if caught.

CAPTURED A NOTORIOUS SWINDLER. Gotham Police Accidentally Arrest a Well-Known Criminal.

NEW YORK, April 3.—George Johnson, who has a notable record as a criminal, and who is alleged to be one of the gang of letter-box robbers who have operated in most of the large cities of the United States, is a prisoner here with a bullet wound in his wrist.

The butchery of the peaceful inhabitants of Guatao still remains unexplained, and there is no likelihood that the small Guatao incident will meet with justice.

BLOODY BATTLE WITH OUTLAWS.

Georgia Desperadoes Do Terrible Work on the Georgia River.

CONCORD, Ga., April 3.—A tragedy occurred here last night, in which two men were fatally shot. About 7 o'clock Sheriff Gynn and a posse went to the house of Taylor Deik, a notorious desperado, to arrest him on a warrant for robbery with assault to murder.

As the sheriff arrived at the door he was fired at through a window with a rifle. The ball passed through his left side. About 10 o'clock Sheriff Gynn was lying on the porch being carried to the house to come and get him, when Mr. John P. Madden attempted to drag him off. He was shot on the hip, but he passed through both thighs, breaking both legs.

A crowd of enraged citizens, thirsting for the blood of the desperado, surrounded the house and broke through the door, and the two men were killed.

While the house was surrounded by a posse, the desperadoes rushed from the building, and shooting rapidly in every direction broke through the crowd and made their escape in the darkness.

HAS BETRAYED HIS FRIENDS

Russian Exiles Searching the Country for One of Their Number.

HAD KEPT HIM IN MONEY FOR YEARS

PHILADELPHIA, April 3.—Agents of a Russian patriotic society are in the east hunting for Gregory Krasnow, who was implicated in the plot that resulted in the assassination of Czar Alexander II of Russia in 1881.

Krasnow, who was then about 18 years old, was arrested at the time and secured his release on bail through powerful influence. He fled to Switzerland and soon after came to America, living in Chicago until recently.

On March 16 a story was printed to the effect that he had, after receiving the bounty of Russia, returned to a number of years, turned traitor and applied to the Russian government for a pardon, offering to enter the secret service at St. Petersburg and give the government valuable information.

The principal motive for this action is said to be Krasnow's desire to obtain a portion of the fortune of 6,000,000 rubles left by his father, who died soon after his daughter, who was also implicated in the assassination, was executed.

A brother of Krasnow and three other Russian patriots, who were engaged in the clothing manufacturing business in this city, in order to deceive the Russian police, a circumstantial story of his past life was printed in a paper published at Geneva by the Russian refugees.

In 1883 the Russian authorities learned that he was still alive, and one of the most famous detectives in St. Petersburg came to this country in search of the refugee, stimulated by an offer of a reward of the Cross of Honor and 25,000 rubles for Krasnow, dead or alive.

This detective, in the nature of an accident, last night officers discovered three men trying to force an entrance to a house on East Eighty-fourth street. The men were arrested, and one of them was identified as Krasnow.

Other Forecast for Nebraska—Probably Fair; Variable Winds; Warmer.

DROWNED IN A CLOUD BURST

Details of the Late Storm Just Beginning to Be Received.

NINE PERSONS SWEEPED AWAY BY THE FLOOD

CLAY AND OWLEY COUNTIES IN KENTUCKY DEVASTATED BY A SUDDEN AVANCHED OF WATER, IRREVERSIBLE IN ITS WEIGHT.

LEXINGTON, Ky., April 3.—The recent cloudburst in Clay and Owley counties was more disastrous than at first reported. Buffalo creek, which is across the south fork of the Kentucky river, suffered more than Sixton creek by the unusual rainfall.

The stream is as crooked as a worm fence and is closely hedged about by steep hills, so that the water rose more rapidly than it did on Sixton creek. The water away every house on the bank of the stream. Miss Mary Garrett was drowned while trying to escape the flood. George Capson's wife and three children, two children of Will Burns, and two others whose names are not given, were also drowned.

Mr. John Crane, a logger, rescued his wife and small child when they were drifting down the stream on some upland. The water was so high that it was impossible to get to the top of the hills. The water was so high that it was impossible to get to the top of the hills.

The south fork of the Kentucky river rose rapidly, and is higher than it has been for many years. Thousands of logs are going down the stream. The large sawmills at Booneville are clogged with logs, and it is feared the booms and all will be carried away by the water. Part of the town is inundated, and the water is so high that it is impossible to get to the top of the hills.

Last night military instructor Bull of the Jackson institute was drowned while riding on a raft. CINCINNATI, April 3.—The Ohio river continued to rise through the night, and has now risen five inches in two hours since 8 o'clock this morning, making the height forty-six feet eleven inches. Reports from the river indicate that the water is almost here, and that it will begin to recede some time today.

The cold weather and high winds favor this tendency. At the time the water was at its highest, the river was almost here, and that it will begin to recede some time today. The cold weather and high winds favor this tendency.

CINCINNATI, Ky., April 3.—A special from Booneville, Ky., says: The cloudburst on the south fork of the Kentucky river, which is almost here, and that it will begin to recede some time today. The cold weather and high winds favor this tendency.

The cloudburst occurred up in the gorge, the water gathered in a narrow, shallow channel, and was hurled down in a solid wall, carrying death and destruction in its path. Five people were drowned by the Little Sixton. Buffalo creek is so crooked that the water rises so rapidly or was capable of gathering such a volume of water.
