MONEY NOT TO BE HELD FOR ASSESSMENT

If Necessary the Receiver May Bring Suits for Their Liability-Decision in the Case of Judge Keysor.

Judge Keysor handed down several deislons yesterday, the most important of which was one covering a number of cases in which the receiver of the Nebraska Savings and Exchange bank was the defend-

Several stockholders in the bank applied to the court for orders on the receiver to give them certificates of deposit representing money they had on deposit in the bank at the time the bank failed. It was represented to the court that a number of the stockholders had deposits of this nature and that the receiver had refused to issue certificates of deposit to stockholders, saying that he would hold their deposits to make good all or part of the liability against the stockholders on account of the claims of ther creditors. It was also represented that the receiver had issued certificates of deposit to depositors who were not stockholders,

In giving his decision in this matter Judge Keysor said that the receiver had no right to bring suits against stockholders, except as the statutes provided. He then read from the statutes to show that the receiver had a right to bring suits against stockholders, as soon as he was satisfied that the bank was insolvent, for their statutory liability, but e must first file with the court a report to e effect that the assets of the bank were ot sufficient to meet the liabilities. The judge said that no such report had been filed and the receiver could not bring suit until that was done. For the same reason, the court held, the receiver could not hold the noney of the stockholders. Such action would be discrimination against such stockholders as had deposits. All depositors must be treated alike, whether stockholders or not. On the other had, the court said, i was not right that deposits should be re turned to insolvent stockholders. In the case of the John L. Miles estate the court said this estate might be found to be liable for several thousand dollars, yet it was well known that the estate is insolvent, and it semed like paying out the money of the creditors of the bank to issue a certificate of leposit to this estate. The court suggested that the receiver might issue non-negotiable ertificates of deposits until he could properly ring suits against the stockholders for their

Another suit, in which the receiver of the ame bank was defendant, was a suit brought ame bank was defendant, was a suit brought by Andrew L. Miles, as executor of the estate of John L. Miles. It was represented hat Andrew Miles had deposited in the ank the sum of \$2,000, to be used for the urpose of paying for masses, to be said or the repose of the soul of John L. Miles, for the repose of the soul of John L. Miles, in accordance to the terms of the latter's will. This money had been partially drawn out at the time of the failure of the bank and the receiver had refused to issue a certificate of deposit, on the ground that the estate of John L. Miles was liable for stock of the bank, gird that the estate was insolvent. The court found that the deposit was made by Andrew L. Miles, as executor, and could not be held for the indebtedness on the stock of John L. Miles.

In another suit brought by Andrew L.

on the stock of John L. Miles.

In another suit brought by Andrew L. Miles against the receiver, it appeared that Andrew Miles, in behalf of the minor heirs of John L. Miles, applied for an order on the receiver for a certificate of deposit for certain money deposited in the bank by the said minors, and for which the receiver had refused to issue certificates on the ground that it should be held to apply on unpaid subscriptions for stock held by said minors. scriptions for stock held by said minors, The court said that the weight of authorities was to the effect that minors cannot be held for unpaid subscriptions. The bank had no right, the court held, to accept subscriptions of stock from minors, and the aplication was granted, requ to issue the certificates asked for.

Not for a Court of Equity. Judge Keysor passed on one phase of the suit brought by the First National bank against Charles F. Goodman and others. The case came up on a motion to consolidate this case with a case brought by Mrs. Goodman against the bank to recover \$30,000 insurance on the life of Mr. Goodman which, it was alleged, the bank holds without authority. The court stated the case briefly, to the effect that Goodman, during his lifetime, borrowed \$50,000 from the bank, giving as ecurity collateral in the snape of mortgages tock in his brickyard, and several life insurance policies, payable to his wife and duly assigned by her to the bank. Payment on the notes for the \$50,000 defaulted and a party to the suit. The life insurance money not being available, Mr. Goodman being still in the case it is alleged that Ames is not a resident of this city, but has removed all of this time Goodman and then the bank attempted to carry out an agreement which was claimed to have been made with Goodman during his lifetime, to the effect that, if the insurance money was used by the bank to apply on the notes, the stocks and mortgages should be returned to Mrs. Goodman. Mrs. Goodman was not a party to this arrangement, but she could have claimed the stocks and bonds at this time, according to the statement of the court, but she elected to commence suit for the recovery of the in-surance money from the bank. The insurance money had been collected by the bank and had been applied on the notes. The motion to consolidate the two cases was over

HOW YOU MAY OBTAIN A LASTING CURE FROM PILES.

There are some people who have piles as frequently and regularly as other people

have colde. rectal disease.

In long standing cases the Pyramid Pile Cure has proven to be the only certain cure except a surgical operation, and its advan tages over an operation are many, as it is painless, causes no delay or interference with daily occupation and, last, but, not least, is cheaper than any surgical opera-tion could possibly be, costing but a dollar a package at any drug store.

The cases that the Pyramid Pile Cure will

not reach are so few that physicians are do-ing away with operations for piles and de-pending on this cheap but effective remedy to accomplish a complete cure, and it never disappoints except in cases beyond the reach of medical skill. The Pyramid Pile Cure is prepared by the Pyramid Drug Co. of Albion. Mich., and for sale by druggists everywhere at 50 cents per package. Each package contains a treatise on cause and cure of piles, together with commended them to friends who were public. President S. H. H. ENTITLED TO CERTIFICATES should not be compelled to bring ber case HARD ON THE WEAK TROUPES

Frozen Oranges the Issue. Waxenberg & Mueller, two fruit jobbers who supply the street peddlers about town with fruit, recovered a judgment against Rocco Bros. in Judge Fawcett's court in the sum of \$200, together with the cancellation of a note for \$200. The case grew out of the purchase of a carload of frozen oranges rom Rocco Bros. There were about 500 noxes of the fruit and the sum of \$500 was the consideration for which the frosted fruit changed hands. The sum of \$300 was paid in cash and a note for \$200 covered the balance of the purchase price. The evidence on the part of the Roccos showed that they told the buyers that the fruit was frosted and that if they did not dispose of it within a few days it would spoil on their hands. The other side produced evidence to the effect that they did not know the fruit was frozen and kept it in the house of Waxenberg about twelve days, sorting it over and arranging it in the boxes again. Some of the boxes were gold, about \$100 being realized in this way. When they attempted to sell the fruit on the streets the meat inspector condemned the whole lot and it was hauled to the dump and destroyed. Then Rocco brought suit on the note in a justice court

A rather unusual proceeding was commenced in the criminal court yesterday afternoon, being the trial of a fact in support of a plea of abatement. Jacob Blum has been in the county jail for several months on the charge of stealing forty-three head of cattle. Old Woman Behind in Her Rent is Pushed Into the Street. The charge of larceny preferred against David Lipschitz was dismissed when the case was called in police court yesterday. The complaining witness was an old colored widow, Mrs. Ella Thomas, who lived in a cramped room in a house at 702 South Thirteenth street, owned by Lipschitz. She had been sick, very frequently being confined

to her bed, and had been unable to pay No Surgical Operation, No Pain, Trining Expense—A Simple, Harmless

Hereafter Theatrical People Must Pay Standard Railroad Fare.

RATE OF 2 CENTS PER MILE ABOLISH D

Result of a Decision by the Interstate Commerce Commission-Local Agents Glad the Season is Ending.

"It's a mighty good thing the theatrical eason is drawing so near to a close," said a prominent railroad man to a Bee reporter vesterday. "If there were many more months of the season the hair of every agent who makes a specialty of going after theatrical susiness would turn gray; as it is now they aren't able to sleep a wink. "This remarkable condition of affairs in

railway circles has been brought about by the recent Brown decision in the United States supreme court and the understanding that the Interstate Commerce commission has detectives all over the country. An agent who goes to solicit the trade of a theatrical or opera manager now-a-days is so scared that he jumps at his own shadow, fearing that every strange man he sees may represent the commission, which has just had nlimited authority conferred upon it. From the days when the original "Uncle Tom's Cabin" company was on the road, rail-

roads have granted theatrical troupes a rate of 2 cents a mile. Other favors and concessions may have been sometimes given in addition to the 2 cent rate, but the latter has while operating a "dough roller." The always been readily extended to the traveling plaintiff alleges he was not hired to operate Thesplans.

The stand the Interstate Commerce com mission has taken against every form of discrimination, coupled with its unexpected enlargement of authority, has practically tween the iron rollers of the machine and enlargement of authority, has practically crushed in such a way that it is alleged knocked the 2 cent rate according to the he will be deprived of the use of it for the atrical companies higher than Mr. Gilroy's balance of his life.

A few months ago all the western lines withdrew their party rates.

-2 cents a mile. This is the way things have been going along for the past few months. None of the roads admit that they have made any discriminations in favor of theatrical companies, but it is generally understood that the old erierday Judge Baker passed upon the rate of 2 cents per mile continued for the emurrer of the county attorney to the plea | Thespians after it was withdrawn from the traveling public. The reason party were abolished was because of the the court sustained the profits that were steadily pouring into the point that there had been no preliminary scalpers' offices by the smooth manipulation of party tickets. In selling party tickets to theatrical troops no danger of the scalpers securing the tickets and manipulating them to their advantage was feared by the railway men, and accordingly the favor of 2 sults following the employment of this syscents a mile was not withdrawn from the tinerant bands of actors.

Now the Interstate Commerce commission has decreed that either the party rate of 2 cents per mile must be extended to every company of ten that may ask for it or must be withdrawn from the actors. The latter is the course that has been pursued by the railroads, though it is strongly suspected by some railroaders that recourse to the former line of action will soon follow. All the local lines have received orders, warning the accoptance of any theatrical business by any

For a company of twenty people traveling fifty niles a day the total fare at the old rate would be \$20, while at the regular rate of 3 cents per mile the fare for the same distance will be \$30, or a difference of \$10 a day to a company of twenty people making a fifty-mile "jump" a day.

"I believe that this will prove to be a good thing," said Manager Burgess of the Creighton theater yesterday afternoon, in speaking of the abolition of the 2-cent per mile rate heretofore accorded theatrical companies. 'I believe the result of the decision to make theatrical companies pay 3 cents per mile will be to force out of business the lowest grade shows. The first-class com-panies can easily afford to pay the rate of 3 cents per mile. The only ones to be affected by the action will be the companies without which we would be better off. I have not heard that the action has caused any com-panies to disband. In fact, I have not heard of the matter in a theatrical way at all."
