### CARRIES CUBA WITHOUT TROUBLE. Government Candidates All Returned by the Inevitable Vote.

HAVANA, Cuba, April 14.-(New York World Cablegram-Special Telegram.)-The election in Cuba yesterday was quiet. The result was inevitable, as there was no opposition. In Havana the government candidates received from 6,547 votes down to The Marquis Apezteguia, elected a Wall street, New York. Out of the thirty government candidates, four are natives of island, including the redoubtable steguia. Thus ends the only bit of comedy that has enlivened the present year WILLIAM SHAW BOWEN.

tomorrow will print the following from its special correspondent:

HAVANA April 5.—The condition of affairs is continuing to draw to a crisis, and soon there will be a clash which will either reclound for the benefit of the Spanish or the Cubans. For the past four days, no official news has been given out at the captain general's office, and rumors are rife of a struggle in which the insurgents came out victorious. No details can be obtained, but there has been considerable hurrying and scurrying around the palace. The landing of the expedition under Colaggo. Garcia and Braulio Pena have caused a bad effect here, and particularly as the coast was supposed to be so well guarded. I am informed of the real details of the Colaggo expedition. It seems that while the expedition was landing its arms and ammunition a cruiser hove in sight and the vessel carrying the expedition put out to sea, being pursued by the cruiser, whose searchlight was used to discover the vessel. In the meantime the force of the coast patrol came up and captured a score of rifle boxes and carried them to the nearest town, which was Cardenas, and placed them in a warchouse on the outskirts of the town. During the night the Coban forces, which were to protect the landing of the expedition, and who had been informed of the capture of the arms, overpowered the guards at the warehouse and, before roinforcements arrived, recaptured the arms taken from the Cuban expedition and carried them away, while a detail of insurgents protected the retreat and held the Spanish troops in check.

There are two absorbing topics at present; one is the attitude of the United States, and the other the action that President Cleveland will take.

new Irish land bill in the House of Commons today. It is of much wider scope than that of Mr. John Morley, who was chief secretary for Ireland in the late liberal government, based upon the principle of purchase by the occupying tenant being the ultimate solution of the land question.

The bill provides for facilitating the purchase of holdings and prevents the lessee from having rent levied on his improvements. payment of two years' arrears, to be in just possession of his holding, leaving the landlord to recover the remainder of the arrears in the ordinary way. Continuing, Mr. Balfour said the government had decided to alter the statutory term of fifteen years for fixing

Purchase would not be compulsory, the chief secretary of Ireland proceeded, as such a scheme would require possibly £2,000,000, while the terms could not be so advantageous to the tenant. Also payment would be ex-tended from forty-nine to over seventy years, and r. lief would be given to the tenants toward the end of their tenancy, when they were more likely to need it, the payments decreasing with the length of the tenancy. The bill, he said, extended the powers of the congested districts board, enabling it to borrow to the extent of £1,500,000. Mr. Balfour con-cluded by saying that the bill was an honest endeavor to facilitate the substitution of peasant ownership for dual ownership.

RESULT OF WATTLES' WASHINGTON THE

President of the Association Call vasses the Situation Thoroughly Before Deciding on a Course of Action.

WASHINGTON, April 13.—(Special Telegram.)—Renewed impetus, if such a thing jail and demanded that Bill Taylor be turned were possible, was given today to the Transmississ ppi exposition bill by the presence tles, true to western instinct, allowed no grass to spring up under his feet upon his arrival, and at once called upon members of ing the house. Accompanied by Mr. Merit was the desire of his people to have an appropriation of \$500,000, one-fifth of which was to be spent upon the erection of a building and the remainder of the amount appropriated on a governmental exhibit and incidentals. This was in line with Repre-sentative Mercer's bil, which was reported to the full committee last week by Grosvenor's subcommittee.
Chairman Dingley remarked that had the

east asked for such an appropriation he would be bitterly opposed to any such legislation at the present session of congress. He recognized, however, that two-thirds of the area of the United States was included in the territory sought to be benefited; that one-third of the population lived west of the Mississippi river, and that a great deal of the wealth of the United States was to be found in the twenty-four states and ter-ritories moving for the exposition. Under these considerations he would not antagonize the bill, but would, within a few days, give it a hearing before the full committee. He stated that several amendments would have to be attached to the bill, one of which would be to the effect that \$250,000 be subscribed CITY OF MEXICO, April 13.—A telegram as capital stock and approved by the from Oaxaca City this afternoon stated that secretary of the treasury. ### DEVELOPING A GREAT SODA FIND.

Deep Well of the Green River Fuel Company Being Worked. GREEN RIVER, Wyo., April 13.—(Special Telegram.)-The deep well pump was put in operation in the well of the Green River tinue, President Wattles, speaking of his Fuel and Oil company this afternoon to impressions as gathered in a somewhat hasty view of the situation, said: is highly gratifying to the citizens of this city. The pump was operated for four hours with only fifty feet of pipe, yet at this depth a seemingly inexhaustible flow of water was maintained, amounting to a fraction over 200 gallons per hour. An analysis of the water from this well

recently made proved it to contain 91 per cent pure sodium carbonate, giving seven pounds of the sodium to the cubic foot of water. Besides this the water will yield 200 pounds of crystalized sodium carbonate (saleoda) to 1,000 pounds of water. In order to make a paying industry of this soda find, it is necessary that a good flow of water must be had, and today's test fully dispelled all doubts relative to this matter. upon the market. The net product of the well at present quotations would amount to

Mrs. Finnegan Refuses to Sign Papers Until Her Demands for a Farm Are Satisfied and the Shooting Follows.

SCHUYLER, Neb., April 13 .- (Special.)-James Nichols was handed a note this morning about 9 o'clock by Russell Woodworth, who has been working for Patrick Finnegan, Mr. Nichols' father-in-law. The note stated to Mr. Nichols that his wife would never see her father and mother alive again, and told him where certain valuable papers would be

Hastening at once to the home of Mr. Finnegan, one and one-half miles east of the city, Mr. Nichols found a horrible verification of the assertion made in the note. Mrs. Finnegan was found dead in a room where she evidently had been sitting sewing, as a thimble was upon her hand, with the track of a 45-cal ber rifle ball through her head, from the base of one ear to the upper part of the opposite side of her head.

Further investigation disclosed that Mr. Finnegan had ended his life with a ball from the same rifle, but had played the last act in the drama of his life in his barn. He tied a string to the trigger, passed it around a part of a cultivator beyond the rifle, sat upon the floor with his hat placed upon his knees and pulled the string. The ball passed through his head from temple to temple, and on out through the door.

The hired girl was locked in her room while the deed was committed. Mr. Finnegan often threatened to kill his wife; she would tell him to go ahead and do it. About three years ago he attempted to take his own life by taking poison, on which occasion he lay twenty-four hours in a manger under some hay, but was eventually found

and resuscitated. Mr. and Mrs. Finnegan were divorced over twelve years ago, but remarried within a year from the time the divorce was
