The lecture of Rev. H. W. Kuhns, D. D. John's English Lutheran church on his late trip to the Holy Land was an exceedingly interesting and instructive one. He took the audience in mind with him to the various points of interest that he visited and described things so plainly that he heid their undivided attention for two hours. He dwelt particularly upon scenes in Egypt and the Holy Land and stirred up a new intereet in the minds of all to know more about those historic places.

At schools where there are no trees in the yards the teachers have been urged to have the children plant trees. For several years the efforts at tree planting have not met with much suc-cess, owing to the drouth, but the superintendent has urged the teachers to try again this year, and to keep on trying until their efforts are successful efforts are successful.

error that has escaped attention and may prove of interest to at least one property owner. Measuring eastward from the cor-Second street, from Vine street to the bridge over Indian creek, was shown to be forty feet, but upon measurement the street was found to be over fifty-one feet in with, or nearly enough to take up the overlap.
