Sherman Gets a Little Ronst for Championing the Dingley Bill -A Statue to Marquette.

WASHINGTON, April 29 .- Two notable speeches by Senators Teller and Sherman, representing opposing elements on the financial question, were heard in the senate today. Mr. Teller addressed himself particularly 1 the Ohio senator, controverting the views held by him and maintaining that no honest effort had been made in the present congress to pass a taria bill. The climax of Mr. Teiler's speech was reached when he announced that he would wote as he spoke and that he would not hesitate to separate himself from the party if it pronounced for the gold standard.

Mr. Sherman answered Mr. Teller, arguing against a 50-cent silver dollar and announcing that the time had come for a decisive opinion from the people. He appealed the case, he said, to the tribunal of the American people at the coming election.

The early part of the day was given to speeches culogizing Pere Marquette, Mr. Palmer, domocrat of Illinois, presented a resolution expressing the thanks of congress to the state of Wisconsin, which had presented a statue of Marquette to the senate, and accepting the gift. The resolution was adopted without division.

Mr. Teller was recognized for some general remarks on the financial issues involved, de-voting himself in particular to answering Mr. voting himself in particular to answering Mr. Sherman's remarks yesterday. He declared that the castigation of the senate by the sen-ator from Ohio for declining to pass a rev-enue law was unwarranted. The Dingley bill was not presented with any purpose of pass-ing it. He said that if a sincere effort had been made to raise revenue it could have been avoided the conflict created by the Dingley bill. A tay on hear and numerous other methods of raising revenue would have accomplished the end without precipitating the issue of protection, but certain people feared it might shatter the prospects of some presidential candidate. Referring to the hoarding of vast sums

Referring to the hoarding of vast sums in the treasury, Mr. Teller said if there was a country on the globe ruled by im-beelles, it was this. He did not propose, he said, to let the Ohio senator (Sherman) feel the people by telling them that if the Mc-Kinley hill was re-enacted it would bring prosperity. The McKinley bill would never be re-enacted, said Mr. Teller, and if it was, it would not bring prosperity. Mr. Teller paid a glowing tribute to the repub-lican party and its achievements, but, he Teller paid a glowing tribute to the repub-lican party and its achievements, but, he added, it looked as though the great party had reached the point where it would drop the interest of the masses and become the dupe and agent of those who have no sym-mathy with the masses of those who have no sym-

When the last county was called and the chairman had an opportunity to announce the rest, Mr. Hamilton moved to make Tanner's nomination unanimous. This was quickly followed by seconds from Colonel Bryan, John Daly and a delegate from Kane county and the motion was carried amid en-thusiastic cheering. There was a noticeable stir in the gallertes when Mr. Teller closed, which was quickly checked.

Mr. Sherman followed, answering Mr. Teller. He said he respected the honesty and intense earnestness of the Colorado senator. What had been said was not new. The Celorado senator believed in the free coinage of silver-meaning a dollar worth 50 ccets as the salvation of the country. Mr. Sherman said there should be no blind fad presented to the people. He himself believed in the largest possible use of silver consistent with the maintenance of a gold standard. The first squabble arose as to whether o not a new executive committee should be named. The point raised was that the last committee was selected for four years and the opposition held that each convention elects a new executive committee. An excited howl was raised for a call of He the counties, but was ruled down by the chairman. A resolution was then introduced to allow the delegates from the respective congressional districts to retire and name ielegates to the national convention and was amended so as to allow the naming of a new executive committee. A motion to table the amendment was voted down and a resolution nassed. The discussion was heated and became so

confused that it was impossible to distinguish the speakers. Amid terrible confusion the speaker counted the standing vote on the proposition to table the motion to endorse the present executive committee for three years longer, declaring the result to be in favor of tabling the motion. It was then moved and adopted that the chair appoint two delegates from each dis-trict and four from the state at large as a committee on resolutions. RETURNING TO WESTERN FARMS

Agriculturists Who Went South Are Now Dissatisfied.

SIOUX FALLS, S. D., April 29.-(Special.) -A large immigration is coming into the state just new. Almost daily prairie schooners are seen passing through the city to the farm lands to the west and north. Many of the occupants are those who left the state during the past few years to seek an eldorado in the south. So far as known nearly all of these are already back and the rest are only waiting to secure the necessary cash. But a very large share of the new settlers coming from the farming districts of Illinois and Eastern Iowa. They have heard of the big rains which the state is experiencing and are after the cheap lands Similar reports come from all sections of the state. The heaviest immigration naturally stops in the eastern and southern parts, but state. all portions are getting a share.

This wave is having a decided affect on farm values. For example a real estate firm of this city last week bought 240 acres within ten miles of the city at \$20 an acre. Today they sold the same to a man from castern Iowa for \$35 an acre, thus netting \$3,600. A Flandreau man during the past week has sold eight quarter sections. Five families which left that town a year ago for Alabama have returned and report that others are on the way. They state that the south is no place for a northern farmer or for any one raised in the north. A man who keeps himself well posted estimates that fully 3,000 settlers have come into the state this spring and that the wave has only

begun.

made almost a hero of Mr. Hatrity, besieging him with their attentions whenever he ap-peared in public. The platform adopted and speeches uttered by the democrate today showed no indications of despair. The spirit of harmony prevailed to a greater degree than for several years and everybody seemed to think the name of Pattison will work worders in the state this fail if his candi dacy for the presidential nomination is endorsed at Chicago.

Prior to the assembling of the con-ention at noon today the delegates and leaders were busy caucusing and arranging the details of the convention work. Conferences for the selection of district delegates and electors to the national convention at Chicago were held during the night.

Although the convention elects the dele-gates and electors for the entire state in addition to the delegates and electors-atlarge, the work of selecting the district delegates devolves upon the group of men representing each congressional district. The most notable contest was that in the Ninth district, comprising Lehigh and Berks coun ties. The Berks county men had a majority in the conference, and they insisted upon naming both delegates. Herman L. Kreis, superintendent of the Philadelphia mint, who is from Berks county, was bitterly opposed by the Lehigh people, but he won, his as-sociate being W. Oscar Miller of Berks. The Lehigh delegates bolted the conference and threatened to make a fight before the convention. The congressional slate arranged last night was changed today and B. F. Potts of Media and John M. Braden

of Washington, representing respectively the eastern and western extremes of the state, will head the ticket next fall as candidates for congressmen-at-large. State Chairman Robert White called the convention to order at 12:15 p. m. At that hour the hall was well filled with spectators. and all the delegates were in their seats. William E. Given of Columbia was chosen temporary chairman. In his speech he said "The democracy of Pennsylvania is opposed to tariff laws enacted solely for the protection and enrichment of favored classes and for the oppression of the great body of peo-ple, and denouncing such laws, we believe that the necessary expenditures of the gov-eroment should be provided for by the imposition of either excise or import taxes. "The party which we represent is opposed to any charges in the existing gold stand
