CITY COUNCIL PROCEEDINGS

Eeveral Proposals Submitted for the Erection of a City Jail.

Comptroller Westberg Reports the Amount of Cash in the City Treasury_Lively Contest for the Location of Are Lights.

Three bids on city jall were submitted to the city council ast night, and referred for investigation. Irving Allison, who put in the Harney street proposition, offered to erect a building on the northeast corner of Sixteenth and Leavenworth streets, the proposed inilding to be sixty-six by sixty-six feet, two stories high, and a basement, to be constructed of brick, the city to furnish the fron and steel and to pay a rental of \$250

Barker Bres, offered to lease the Garfield block, on Howard street, for five or ten years, at a rental of \$300 a month, or they would lease the east forty-four feet of the building for \$200 a month,

James Hasse t, as agent or hear Clark, of James Hasse t, as sgint or head Clark, offered to build a \$15,000 building at Fourteenth and Howard streets, and reni it for
\$3,000 a year, the city to pay all city taxes.

The mayor's veto of the resolution suspending the enforcement of the hack ordinance was sustained. The veto was then
referred to the committee ca judiciary and
the license inspector, with instructions to
draft an amendatory ordinance.

The structure when erected will have a south and east front. The lots are 150 feet the death. The corner lot 60,9150, is owned.

Plumbing Inspector Lichtenburger reported that most of the watering troughs around the city were out of repair. It would cost from \$1 to \$20 each to repair them. He was in-structed to make the necessary repairs, the

total expenditures not to exceed \$53.
T. J. Lund stated in a communication that the opposition of Councilman Taylor to the appointment of an examiner in the building inspector's office was due to the fact that he had compelled the councilmen to observe the building regulations in a building on Capitol avenue, which he had put up as agent. After the communication had been tabled Taylor explained that he had never had anything to do with the construction of a building at the point named, and was evidently barking up the

wrong tree.
The Barber Asphalt company called attention to the fact that no profision had been made in the annual levy for the payment of their bills for street repairs, which amounted to \$35,637.85 up to 1896. The 1896 repairs would probably add \$18,000 to this amount, and they wanted to know when they would get their money. The question was referred to the finance committee for solution.

It seems that the property owners at Twenty-ninth and Hamilton streets concluded that the light would be a good thing to have on their corner, and they sent in a petition with over fifty signatures. The contention was brought into the council and debated as stubbornly as though each councilman's changes of re-election depended on which corner this light was placed. The resolution was finally adopted, and a resolution locating the light at Twenty-ninth street was introduced and referred to the committee on gas and electric lights.

This was followed by another lengthy

Yesterday a letter was received by Chief Sigwart from S. L. Wiley of the electric power house at the foot of Jones street that he had seen a numher of these men sneaking along the river front with sacks upon their backs. It was late in the evening and they acted in a mys-terious manner, which led him to believe they were trying to conceal their move-ments. The police succeeded in locating seven men during the afternion at Schroth's aloon at Fourth and Pine streets who at swered the descriptions given. It was learned that the goods had been stolen from the general merchandise store of Edwards Brothers, Louisville, Neb., on the night of April 29. The amount recovered to but a small portion of the goods taken, which were valued at \$75. The authorities at Louisville were telegraphed during the after-moon and Sheriff Holloway arrived last evening and took the men back for trial. It is thought they have disposed of nearly all the stolen property in Omaha.

SOUTH OMAHA NEWS

South Omaha people generally were pleased resterday when the news was posted that the government had at last selected a postoffice site. Many had begun to think that the Magic City would never have a public building of its own. It is just fourteen months since congress passed the bill authorizing the erection of a public building at this place and nearly ten months since bids for a site were asked for by the Treasury department.

Of course the site selected does not please everybody, because so many of the business men were interested in sites of their own. In all thirty-five bids were submitted to the department. A great many residents and property holders signed the Glasgow petition, which was sent to Washington some time ago, and it was thought in some circles that the petition would have some weight with the officials, but it appears that it did

depth. The corner lot, 60x150, is owned Mrs. Acna M. Geary, the next is owned L. D. Fowler of Omaha and the next ten feet by Din Hannon. A part of Fire hall No. 1 stands on the Hannon property, the other part being owned by Mr. Fowler. When the building is commenced it is thought that the Fire hall will be moved ten or fif-teen feet to the north and no change of building or location will be necessary.

The corner selected is one of the most de

sirable in the city, and almost in the heart of the business portion.

The next thing done now will be to urge the officials at Washington to make haste with the plans in order to get the work started as soon as possible.

take the value of the stock of provisions on hand as reported to the Omaha Board of The council spent over an hour in debat- Trade at the close of business, March 31, ing the momentous question contained in a 1896. This amounts to a little over \$2,600, resolution ordering the suspension of a 000. These figures are arrived at by figreturns of hides were made to the Board of Trade. A man who is posted says that this runs up into the hundred thousands and will

e included in the assessment this year. The total assessment on the four packing ouses last year amounted to \$35,300 toperty alone will amount to \$433,000. Last year the real estate owned by the ofporations was assessed at a ridiculously

low figure, as the following figures taken from the records show: Cudahy & Co. 17 and 25-190 acres, \$42,000; Hammond & Co. 5 and 24-100 acres, \$25,500; Swift & Co., 21 and 24-100 acres, \$39,610; Omaha Packing ompany, 9 and 65-100 acres, \$20,000.

To show the discrimination between assess nents on corporation property and that of

private individuals the following lillustration is given: Swift & Co. purchased twenty-one lots in Boyd & Sharpe's addition, in which one tots in Boyd & Sharpe's addition, in which the streets and alleys have been vacated, throwing it back into acre property, making in all two and sixty-five one hundredths acres. This tract is assessed at \$250, some-thing less than \$100 per acre. The lots im-mediately across the street from this property are assessed at \$80 each, there being five lots to the acre. lots to the acre. It will be seen that private individuals are paying at the rate of \$400 per acre.

If the corporations are assessed this year at even one-half the valuation that other property is listed in the city, the funds will be such that all running expenses can be paid, which has never been done in the his-tory of the city, there being an overlap at the end of each fiscal year, August 1, of from \$10,000 to \$20,000.

\$10,000 to \$20,000.

As it cannot be ascertained from the Omaha
Board of Trade just what proportion of the
stock of provisions on hand April 1 was
owned by each of the packing houses, it has
been decided to average the total. Thus
Cudahy and Hammond will be asserted 25
per cent each and Swift and the Omaha
Packing commany 15 per cent each. Packing company 15 per cent each.

FARMERS ARE HELPING THE FERRY Will Be a Great Saving in Getting Their Stock to Market.

Plans for the ferry boat to be used by the Bellevue Transfer company will be submitted to the directors of the company today and if the plans and price are right the boat will be ordered at once. Farmers on the Iowa side of the river as well as in the vicinity of Bellevue are taking a great deal of interest in the new company. A meeting of farmers was held at Henton on meeting of farmers was held at Henton on the lowa side a few evenings ago, at which it was arranged to open and grade roads, to build an approach to the ferry and creet a suitable landing. The Bellevue people have promised to do their share in helping the project along. W. S. King, the secretary and treasurer of the company, said yesterday that the stockholders did not expenses.

Rate for June Meet. A prominent railway official said yesterday norning that he felt quite confident that the ne-half rate asked for by the Omaha Fair and Speed association for all points within a radius of 200 miles of Omaha on the occasion of the June races would be granted. After the railroad men and the representatives of the Fair and Speed association had lunched together Monday afternoon the matter was taken up. The resolutions of the Fair and Speed association, requesting such a rate, were presented to the railway men. The latter, after a brief deliberation, unanimously decided to send the resolutions on to Chairman Caldwell of the Western Passenger association, who has jurisdiction in all mat ters of this nature, with their endorsement, it is thought that Chairman Caldwell will act upon the matter favorably. LIBRARY TO BE CLOSED EVENINGS.

Directors Take This Step in the Interest of Economy. The directors of the public library held a neeting last evening to discuss methods of retreschment made necessary by the small amount of money at their disposal for the current year.

There were two plans proposed, one of them providing for the closing of the library every evening except Saturday, at 6 o'clock, a temporary suspension of book purchas a and the dismissal of three of the employex. The advocates of this plan urged that the suspension of book purchases would lessen the work in the library, and with the short-ening of the hours would enable the board to dispense with three of the employes without detriment to the library. The evening closing will also effect a considerable saving

The other plan was proposed by Victor Resewater, who objected to the closing of the library proper, evenings, as it would deprive many of the laboring class of the oppor-tunity to avail themseives of its privileges. He objected also to dispensing with any of the present force. In life thereof, he pro-posed that each one of the present force be laid off in rotation for one month without pay, which could easily be done without greatly impairing the service to the public. This would effect a saving, he was of the opinion, sufficient to enable the directors to keep within their means and not deprive any portion of the community of the oppor-tunity to avail itself to the fullest extent f the privileges of the library.

After a lengthy discussion the first plan was adopted, three employes to be dropped and the library to be closed at 6 o'clock p m., except Saturdays, when it will remain

Special Sale of Fine Millinery.

We have just received from a large east-ern milliner 50 imported pattern hats. His work room had copied them and gained many ideas that brought him many times the importing cost. He was very glad to close them out at a cominal figure to us. These are the very fluest and most stylish hats of the season. They have the fashionable soft crown and are ornamented with the very newest and best trimmings. The prices are \$4.00 and \$5.00. The importing cost was \$12.00 to \$25.00. First comers are surest of a becoming selection.
