NEBRASKA TO BE PROMINENT

Populist Delegation to St. Louis to Be a Strong One.

ALLEN AND HOLCOMB AT THE HEAD

Exceeded in Numbers Only by the Delegations from Texas and Kansas and in Point of Importance Will Stand Easily First.

The Nebraska populist convention to select delegates to the national convention at Louis does not meet until July 15 at Grand Island, but already there is considerable talk as to who will be on the delegation. The arp rtionment in the populist convention differs from either of the old parties, being based primarily on the vote cast in the various states for the populist ticket, each state, however, being given three delegates-at-large. Nebraska will have fiftyseven delegates in the convention, being exceeded only by Texas and Kansas. In point of prominence, however, Nebraska is likely to outrank any of the states. It is generally conceded that Senator Allen, the

leader of the party in the United States senate, and Governor Holcomb will be two of the three delegates-at-large. It was origihally expected that Congressman Kem would be the third delegate-at-large, but owing to the fact that he and Governor Holcomb come from the same town it is announced that Mr. Kem has decided to withdraw. In that event the friends of D. Clem Deaver of this city have urged him to enter the race. He has been given assurances of support from many sources and has about made up his mind to

Nebraska will be the only state to have a governor and a senator on the delegation, and this, together with the standing of these two officials in the party councils, will make two officials in the party councils, will make the delegation from this state one of the most influential in the convention. Not all of the interest centers in the list of delegates-at-large, nor will all of the notable figures in Nebras'a populism find a

place on the mate delegation. There will be nine delegates from each of the six congressional districts. There delegates will be chosen at the state convention. They will be first selected by the delegates present fr m the respective districts, and then re-ported to the full convention for ratification. Among the men prominently mentioned for on the delegation from this, the Sec-district are Paul Vandervoort, John Jeffcoat, Albert Thomas, George Magney, F A. Konnedy, James Kenney, J. J. Points, J. M. Tayl r of Douglas county, G. D. Becker and Charles Nownes of Sarpy county, and C. A. Whitfield and C. D. Sprague of Wash

ington county. From other parts of the state come up the names of many who have been promi-nent in the campaigns of the past as being likely to find a place on the district dele-gations. Among these are J. H. Edmiston. John H. Powers, J. A. Edgerton, Judge Bul-lock of Rushville, George Abbott of Richardson county, Senator Stewart of Sioux county Ham Kautzman of O'Neill, Senator Dale of Alma, B. S. Littlefield of Nebracka City, Alma, B. S. Littleneid of Neuraesa City, Hon, J. N. Gaffin of Saunders county, J. V. Wolfe of Lancaster, C. D. Schrader of Logan county, Judge Start of Aurora, and W. H. Burns of Jefferson county. Many others scarcely, less prominent in the party are likely to be brought forward before the convention assembles.

Joe Hoffman, the boy who escaped from one of the jailers at the county jail Sunday morning by taking to his heels while he was carrying an ash bucket with another prisoner, was captured by Jailer George Shand at the home of his parents in Sarpy county yesterday morning.

Heffman had gone directly home and had been there all of the time. Shand went to the house Monday, but young Hoffman saw him coming and took refuge in a clump of timber. When Shand walked in on him sterday morning he offered no resistance, but went along without making any trouble. Shand promised Hoffman that he would not be punished if he went quietly, as it would have been necessary for Shand to have sworn out a warrant in Sarpy county and have secured the custody of his prisoner by legal process if he had made any resistance.

When asked why he had run away when he had but a few days more to serve, Hoff-man said: "Some of the other prisoners told me that a warrant had been issued from the poles court for my arrest on another charge and I thought I could avoid being arrested again by getting out of the way."

MR. HERRING GIVES HIS VIEWS. Makes a Plea for the Special Master

Commissioner. OMAHA, May 11 .- To the Editor of The the publicity that has been given the subject of "sales" under decree of foreclosure and especially as it relates to the appoint ment of special master commissioners, other than the sheriff, to conduct such sales, it does not seem out of place to endeavor to correct some popular misconceptions in regard to this matter and present the real situation, based upon the statutes, and the intention of the legislature.

It is a common opinion, even held by some lawyers, that a special master commissioner is an "interloper;" that every appointee as such crawls under the curtain and robs the sheriff of one of the legitimate functions of his office. Section 451 of chap 5, Revised Statutes, is as follows; property may be conveyed by master com-missioners as hereinafter provided. First— When, by an order or judgment in an action or proceeding, a pary is ordered to convey such property to another, and he shall neg-lect or refuse to comply with such order or judgment. Second—When specific real prop-erty is required to be sold under an order or judgment of the court." Section 452: "A sheriff may act as a master commissioner under the second subdivision of the precedng section. Sales made under the ing section. Sales made under the same shall conform in all respects to the laws regulating sales of and upon execution." Section 453: "The deed of a master commissioner shall contain the like recital, and shall be executed, acknowledged and re-corded as the deed of a sheriff, of real property, sold under execution."

It must be borne in mind that the word execution," used in the preceding sections, execution, is simply for guidance in making eale and deed, and emphasizes the distinction between a general execution and an order of sale under decree of fo eclosure, the latter coming under the provision of the second philyision of section 452.

auddivision of section 462.

The intention of the legislature as to the qualifications of a commissioner is found in section 41, chapter 19, which provides that a court commissioner must be a attorney at law, in good standing, and must have been engaged in practice as such attorney at least five years and have practiced in this state least two years. It will be seen that the sheriff, acting under the authority of an order of sale under decree of foreclosure directed to him, acts as a master commis-soner, and that his right to such appointment is permissive, by special grace. That he is not naurally the officer to conduct such sale, but the exception is made no doubt to meet an emergency that may arise. Moreover, in fact, a sheriff is not ordinarily qualified by training to conduct such sale. In determinng priority of liens, or whether liens apparent on the records are in fact liens, the com-missioner acts judicially, and questions inolving the nicest distinctions of law arise quiring the attention of an experienced lawyer. Errora by the commissioner can only be met after his work has been com-pleted, and result in heavy costs, loss of time, and the final setting aside of all his Errora by the commissioner can proceedings, with the work to be done all over again at immagness costs to litigants. It s urged that the county receives the benefits derived from fees in such cases if the duties are performed by the sheriff. I am not adwith reference to the practice in vogue with respect to turning these fees in as part of the fees of the sheriff's office, but the sheriff as master commissioner and the sheriff exercising the duties of the office for which he is elected and for which fees are provided is a separate and distinct person, and it is a voluntary act if he turns into the general fund fees carned as a commis-sioner. Further, it has been the custom of the deputy sheriffs to do the work of the theriff as master commissioner. It has been repeatedly held that the officer, in making appraisements, acts julicially and equally that a judicial function cannot be reised by a deputy.

A sale under decree of foreclosure made a deputy is illegal. If the sheriff at tended personally to the duties of a master commissioner, for all the cases carried through the courts, he would not have time for the performance of those duties alone he certainly could not be relied upon to be ready to meet the demands of a public nature imposed upon him, and we should have the spectacle of a man in whom the people reposed especial confidence, as evidencel by his election as sheriff, attending to matters ee them—nothing in this country like them for which he was not elected, and the duties —nearly as high as the Union depot, but not that the public has a right to demand of him devolving upon deputies. The practice long in vogue, of appointing a special master commissioner in each case, is one to which there never has been a reasonable objection It is authorized by statute and affirmed by the supreme court. An attorney is an offi-cer of the court, and, acting as a master ommissioner, he can be held to a strict accountability. So appointed, he takes up each case as an individual case, and not as a masto be harried through with in a wholesale fashion. Objection can be made to a proposed commissioner and a man selected in whom both parties have confidence. If the shorlif is appointed in each case, pertinent objections are practically unavailing, and theriff must have divine attributes if in come cases he is not prejudiced for or against some of the parties to a suit, to their detri-CARL E. HOLDS THE COMPANY RESPONSIBLE.

Suit by Peterson One of the Echoes of the Strike. The \$25,000 damage suit of John W. Peterson against the Swift Packing company of South Omaha was occupying the time of the United States court yesterday.

Peterson was a laborer in the employ of the Swift company in August, 1894. One day, in company with a couple of fellow laborers, he was on his way from this city to his work. At the point where the Union Pacific tracks cross Seventeenth street they were assaulted by a mob of men, and in the melee which followed, Peterson sustained serious injuries—which, it is alleged, have permanently incapacitated him for work. This happened at the time of the coopers' strike. Peterson alleges that his assailants were the strikers in the employ of the Swift company, and, therefore, he holds it responsible for his injuries.

SAYS ALFALFA IS A GREAT CROP.

Eli Barnes of the State Fair Board Talks of This Grass. Nebraska people who have been experi menting with alfalfa are more than ever conrinced this spring of the value of the plant for forage and of its adaptability to this section. Not only has it pr duced enormous crops of hay wherever it has been tried, but it has been demonstrated that it will furnish feed in the spring long before other grass i available. Eli A. Barnes, one of the board of managers of the state fair, reports having seen, on a recent trip from Beaver City to Arabahie, grass of that variety which was almost high enough to be cut. Hogs were being pastured in the field and large animals were just visible when wading around through the grass. Not only was the feed plentiful, but the owner stated that hogs did better on it than any other variety

Another report comes from Antelope ounty, where the experiments have been car ried on with great success for several years. On the farm of Huffman & Rollins, large stock raisers, over a week ago the gras was reported fully twenty inches high and thick on the ground. This firm is so well satisfied with the results obtained that it put in 200 acres of the grass this season.

Shoe Religion---

For the benefit of those who have not yet been converted we will say that our shoe religion is just the same as our clothing religion—more for your money than you can get anywhere else. This is the religion which helps us to sell Men's Genuine Calf Goodyear-Welt Shoes for TWO DOLLARS AND FIFTY CENTS while the regular orthodox shoe stores are getting \$3.00 and in most cases \$3.50 for the same thing. It also gives us strength enough to sell Men's Sewed Shoes of solid leather with solid counter and solid inner and outer soles for \$1.25 instead of getting \$1.75 for them as the unconverted shoe stores do. If it wasn't for this religion we couldn't sell those handsome Southern Ties for \$1.25, which are sold all over the country for \$1.50 and we couldn't sell youths the solid leather shoes for \$1.10 which other stores have no difficulty at all in selling for \$1.50. We want a few more converts to our shoe religion from amongst the best families and in order to interest them we will sell regular hand-welt, high grade shoes, worth \$6.00 to \$7.00, for exactly \$4.00 in cash. Will you help the good work along.

Five Men Engage in a Stree Figlit.

Pete Ward and Dan Kennedy, formerly members of the Omaha police force, went into trial before Judge Slabaugh for the past six Dick Burdish's saloon Monday night for the purpose of settling a debt owed by Kennedy. The men had been dracking and a very mitted to the jury, the plaintiff moving to few minutes sufficed to start a fight with Burdish, Pat Ford and another party who was present named Patterson.

All five men soon grew cramped for room in the saloon and adjourned to the street for a bigger field of action. Kennedy was soon down on the ground and received a number of hard kicks. Ward came in for his share of attention from the puglistic tri and in a few minutes he was placed beside his partner on the pavement. About this time Kennedy called for help and Officers Rainney and J. Thomas arrived upon the scene. Burdish and Patterson made their escape an F rd showed considerable ability in the sprinting line up a side street. He was overhauled after a long chase by Officer Thomas, who fired a couple of shots in the air to stop the fleeing scrapper. The men were taken to the station and charged with disturbing the peace by fight'es. Burdish and Patterson were later arrested on the

TWO MEN WANT THE REWARD

Both Brought About the Apprehen-sion of Minnie Pitzer. The reward of \$25 for the capture of Minale Pitzer, the demented school teacher who wandered from her home in Mills county, Iowa, and was located at Frem nt a couple of days ago, is small, but it is causing a heap of trouble, as there are two claimants

lives at Twentieth and Farnam streets. The

she be detained. One of the telegrams was sent to Fremont. The other claimant is named Jones, an employe of the Union dep t. He saw the graphed to Fremont. It is a question which one of these telegrams brought about the capture, but Huntley alleges that he was the first to give the desired information
