A report came from the Pierce street school one of them had filled the eyes of the other with red peper and then carved him up with a jack knife. The story could not be verified hast evening any further than ascertaining that two of the pupils had been punished for applying some red pepper pods to the face of a little boy named Paul Bradshaw.

Residents of the western part of the city made an appeal to the police last evening to drive out a gang of gypsies who were encamped near Broadway and Thirty-fourth streets. The residents claimed that they were stealing everything in sight and were hunting diligently for property that the owners had protected by lock and key. One large gang was ordered out of town by the police during the forenoon, and the second outfit took its place within a few hours.

The second performance of J. Edgar Owens "Fairies' Carnival" last evening was ser-lously interfered with by the weather. The play was presented in the same faultless manner that characterized its first presenta tion, but the audience was much smaller. At the matinee this afternoon the management has decided to reduce the prices of admission and make it 10 cents for children and 25 cents for adults to all parts of the house. It is hoped that this reduction in prices will be the means of bringing out a full house.

Wagon Experts in Court. day was busy all day hearing the case of Austin Tomlinson & Co. against David Bradley in a suit to recover nearly \$3,000 for wagons furnished to the Council Bluffs wholesalers and which were rejected on the grounds that they were defectively con yesterday afternoon that two of the boys had structed. The court room was filled nearly become engaged in a serious affray, and that all day by wagon makets from home and abroad. The defendants had subpoenced a large number of them as expert witnesses to show that the wagons were defective. Among the number were: T. G. Fish of Clinton, ia.; Martin Conrad of Chicago, the for-mer of the Fish Wagon company and the latter of the Shuttler Wagon company, and

Frank Parks of Lincoln, Neb.; C. J. Bock of Henley, S. D.; W. H. Bentley of Shelton, Neb.; E. E. Frisbie of Elgin, Neb., and W. D. McCord of Marshalltown, Ia.

Their evidence strongly supported the claim of David Bradley & Co. The plaintiffs showed that a number of their wareness had showed that a number of their wagons had been sold by the defendants and proved to be all right. By agreement the court finally took the case from the jury and ren-dered a verdict in favor of the plaintiffs for about \$800, or sufficient to cover the value of the wagons that proved to be all

Babies Eat Strychnia Pills. The twin girl babies of Mr. and Mrs. Paul G. Schneider had a terribly narrow escape from a fearful death a few days ago. They obtained a box of compound strychnia pills cach pill containing one-sixtieth of a grain of the deadly poison, and before they were discovered had eaten a large number of them. Mrs. Schneider had been taking the them. Mrs. Schneider had been taking the pills, and knowing their dangerous nature placed them on one of the upper shelves in the pantry, supposed to be far beyond the reach of little meddlers. The bright eyes had discovered where the box was hidden, and while the mother was in an adjoining room the children piled one chair on another, and with this aid and their ability to climb up the pantry shelves reached the box. As near as could be determined there were between twenty and thirty of the pellets in the box when the youngsters got hold of it. When the mother found them a few moments later contentedly sitting upon the pantry floor eating "mamma's medicine," less than a dozen remained. Mrs. Schneider acted promptly and wisely, and a combinaless than a dozen remained. Mrs. Schneider acted promptly and wisely, and a combination of fortunate circumstances enabled the father and Dr. Macrae to reach the house a few moments later provided with a couple of stomach pumps. The little stomachs of the children were filled with warm water and mustard and the pumps vigorously operated. Many of the nills were hrought up. ated. Many of the pills were brought up whole without the coating having been diswhose without the coating having been dis-solved, and the fragments of the remainder recovered still in a solid form. Each child had taken enough of the poison to have killed half a dozen men, but the prompt ac-tion permitted it all to be recovered before any of it had been assimilated. After the unpleasant effects of the earnest application of the stomach pumps had passed away the bables were as bright as ever.

Charged with a Serious Offense. S. V. McQuinn will have a serious account to settle with Judge McGee this morning when the daily police court session opens. McQuinn is a painter, employed with a gang engaged in painting totacco signs. He gang engaged in painting totacco signs. He has been in the city for zeveral days, stopping with his comrades at the Grand hotel. Yesterday he stopped painting the dead walls and began painting the town, and succeeded in getting himself into a scrape that will make him plenty of grief. During the afternoon he called at a residence at 522 Mynster street, where he claimed to have a slight acquaintance with the hirsd girl His conduct was very offensive, and he was ordered off the place. But before going he grossly off the place. But before going he grossly insulted the women of the bouse. Last night he returned and entered the house by the kitemen door, without stopping to knock, and attempted to make a criminal assault upon the girl. It happened that there were only the women of the household present, and the follow make the meat indeed to the following the f the fellow made the most indecent exposure of his person, and terrorized them to ar of his person, and terrorized them to an alarming degree. He finally left, and word was sent to the police station. Officers Clear, Murphy and Alberti were sent after him. He had left the neighborhoot before they reached the house, but they caught him near the Bohany theater. He was locked up on the dual charge of intox cation and indecent conduct, but a more serious charge was lodged against him shortly after 11 of clock.

Burgiars Overhauled a House but Miss Much Valuable Booty The residence of C. W. McDonald, manager. of the Sandwich Manufacturing company, was robbed at an early hour yesterday morning, and a fine gold watch taken from the

vest pocket of the head of the house.

When Mr. McDonald arose yesterday-morning he had ample evidence that his home had been raided by thieves while he siept. Affair Occurred at South Puchlo His wearing apparel, which he had carefully and neatly laid away on a chair at the side of his bed when he retired, was scattered around the room, pockets were turned inside out and papers that had evidently been examined were lying on the floor. Other rooms gave equally unmistakable evidence of having been visited. Two rooms upstairs, occupied by a couple of traveling men emman's pocket the burglars overlooked \$60 in cash and \$120 in the pantaleons of the other. Trunks had been opened and their contents thrown out upon the floor, and bureau and dresser drawers had been thoroughly over-hauled. Before the search was completed they had evidently been frightened away. The only article of value that was missed was the gold watch and chain belonging to Mr. McDonald, valued at \$75, and which was taken from his vest in the bed room where he was peacefully sleeping. They had evidently just begun the search in this room when they were scared away, for a fine gold watch and chain belonging to Mrs. McDonald and other jewelry was lying on the dresser in plain sight and was left unrouched.

Entrance had been effected through a rear pantry window. From the kitchen they had reached the other parts of the house without trouble until they came to the parlor, and they did not hesitate to break open the door When the members of the family arose in the morning they found the front door open and carefully propped back to give the thiever a chance to make a hasty exit if necessity should require it. The police were notified, but could discover no clue after making a thorough exami-

Eastern Iowa Authorities Preparing to Make Many Arrests. CEDAR RAPIDS, Ia., May 15 .- (Special Telegram.)-For some time past numerous burglaries have been committed in this and neighboring counties and farmers have lost large numbers of chickens through the depredation of thieves. Recently two chicken thieves were captured in Cedar county and later a fellow was captured in Cedar county by a young farmer shortly after he had gon-through his house. These three fellows es caped from the jail at Tipton last Sunday, but were soon recaptured. While being taken back to jail one of the fellows "squealed" and as a result a large quantity of the stolen goods has been recovered, be-ing in possession of the pumper and operator at the Northwestern road at Beverly, a junction point a few miles south of here. To night officers are going to Fairfax, where they expect to recover more of the stolen goods. Altogether several thousand dollars worth of goods have been stolen by the gang which it is believed numbers ten or a dozen.

Worth County People Excited. MASON CITY, Ia., May 15 .- (Special Tele gram.)-There is great indignation in Worth county over the action of John Young. He has figured conspicuously in the courts for aeveral years as a bootlegger. Wednesday he enticed the 12-year-old daughter of Herman Meyers, a prominent citizen, into his barn and debauched her. He was arrested and has been bound over to the grand jury. The Grafton people were at fever heat and for a time it looked as if he would not es cape the rope. Their ardor has cooled some-what and the law will doubtless be allowed to take its course.

PRIMITIVE METHODS OF MEASUREMENTS

CHAMBERLAIN, S. D., May 15 .- (Sperial.)-Turner township, Turner county, continues to be the ecene of bitter strife over a new curvey that was made in the town-Other ship. The first settlers were Germans, while a number of Scandinavians came later. Some time ago the Scandinavians secured a maployed by the firm, had been visited, and the clothing of the men examined. The examination, however, was not careful, for in one war of no mean proportions has been been that war of no mean proportions has been in progress. Part of the corner stones that marked the new survey have been stolen from time to time. Quarrels and fights innumerable have occurred, until it has be come a common caying that every corner stone of the new survey is a monument to a fight between the Germans and Scanding-

On one occasion over forty arrests were made, among those arrested being twenty-three Scandinavians on the charge of unlawful assemblage and disturbing of the peace. For a time mafters ran along smoothly, but during the past ten days the strife has been renewed with greater vigor than before. A few days ago members of the faction favoring the new survey removed a bridge from one of the old roads, filled up the depression with rock, plowed up the road and did other things. A constable, who is also roal ever-seer, went to investigate the matter and was attacked and severely handled. Each faction continues to destroy what the other faction does, and a new bridge over the Vermillion river, which flows through the township, was burned a few nights ago. The strife nam resulted in endless litigation and has saused hard feeling between neighbors who

have heretofore been the best of friends. The state's attorney was called on, jut ecided not to make any arrests, preferring that the parties settle their disputes by civil action. The whole difficulty is the re-sult of carelesaness on the part of the government surveyors who years ago surveyed that part of the state. In these days the surveying contracts were awarded as payment for political services regardless of whether or not the contractors vere experienced surveyors. To carefully neasure the distance on a level with a chain was altogether too much work for these political surveyors. They hit upon an ingen-ious method by which the work could be done with rapidity and case. They were ac-customed to mark the wheel of a wagon by wrapping a bit of red flannel around it, and while one man drove another would count the revolutions made by the marked wheel. That some quarter sections thus measured contained as high as 240 acres, and others only eighty acres did not trouble these early surveyors. One consequence of this was that the first settlers were careful to select the large quarters, while the settlers arriving later were compelled to take what was left. Therefore the first settlers refuse to permi the lines to be changed to conform to the new survey, for the reason that they would lose quantities of hind by the transaction.

Pollock Divorce Suit Settled. SIOUX FALLS, S. D., May 15 .- (Special.) The famous Pollock divorce case has at ast been decided finally. Four years ago last been decided finally. Four years ago
this case attracted attention throughout the
country. Pollock, the gay son of a New York
millionaire, married his mother's servant,
and after two years of married life, during
which time two children were born, the
parents persuaded him to leave his wife and
apply here for divorce. The wife learned of
the action a few days before the trial and
arrived here with her children penniless arrived here with her children penniless, ill-clad and careworn, in sharp contrast with the opulent condition of her husband. The trial attracted great attention and the courroom was crowded. The decree was granted coupled with a stipulation that the plaintiff pay his wife fifty dollars per month until the children became of age. On appeal this

Patients at a distance may consult Dr. Mosner by letter, giving a carefully written history of their cases, describing their symptoms minutely as possible, which will enable him to make correct diagnosis, and judge very accurately of the curability of the disease, and to apply proper remedies. Medicine forwarded either by mail or express, and all medicine prescribed by Dr. Mosher is prepared under his own personal supervision. He treats all diseases without mercury or other poisons, which create disease of themselves.

The dector by his new RESTORATIVE TREATMENT cures all curable diseases, and treats with success all affections of the Liver. Throat and Lungs, Catarrh, Epilepsy, Dyspepsia, Heart Disease, Rheumatism, Neuralgia, and all Nervous Diseases caused by overwork, the indiscretion of youth, or the excesses of riper years, and whatever may tend to lower the latent force or the tone of life's vitality, causing physical debility, nervous exhaustion, insanity, and premature decay.

Consult personally, or by Letter, free and strictly confidential. Address,

Dr. S. Mosher.
