### SETTLEMENT NOT IN SIGHT

Difference Between the Otoe and Missouri Indians and the Settlers.

### DELEGATION OF RED MEN AT WASHINGTON

Expect to Meet Secretary Smith on Wednesday and the Latter Hopes to Win Assent to His Proposition.

WASHINGTON, May 16.—(Special Telegram.)—The delegation of Otoe Indians which is now on its way to Washington to consult Secretary Smith with regard to the differences between their tribe and the settlers on their ceded lands in Nebraska, will probably reach here Monday. They will probably not be afforded an opportunity for a conference with that official before Wednesday, and their business will hardly be concluded at one meeting, so that nothing definite will be done next week. It is understood that Secretary Smith is of the opinion that he can prevail upon the Indians to accept his proposition for a rebate of five years' interest and an extension of that length of time in which the settlers may pay their present indebtedness. He is believed to be laboring under the impression that undue influence has been brought to bear upon the tribe by interested parties, and is further of the opinion that without this influence being present he can secure the consent of the Indians to his proposition. It will be a hard matter to make him change his present stand, and there is a possibility that this conference may be productive of no good result, either for settlers or Indians.

### BODY FOUND BY A FISHERMAN

Identified as that of Mary Davis, who committed suicide May 5 by jumping into the river from the Jones street dump, was found yesterday afternoon on a sandbar two miles below the Union Pacific bridge. The body was discovered about noon by a fisherman named Charles Wittig. He towed it to the Nebraska side of the river, and notified the coroner. When the body had been taken to the morgue, a sister of the deceased, Mrs. Ella Barrows, living at 1313 DuPont street, fully identified the remains of the girl from the dress and the plain gold ring worn on the left hand. Mrs. Barrows stated that the last seen of her sister was at 2 o'clock Monday afternoon, May 5. Mary had visited her during Sunday and Sunday, and when they parted had said that she intended returning to the family for whom she worked as a domestic, on West Pacific street. An hour later she was seen to jump into the river by a number of bystanders. She is thought to have been insane from the effects of a tumor on the brain.

### MORGAN SPEAKS FOR CUBA

Alabama Senator Makes a Plea to Have the Insurgents Recognized.

### CALLS FOR SOME ACTION BY CONGRESS

His Resolution Requesting Information Concerning the Rights of Americans Under Treaties with Spain is Adopted.

WASHINGTON, May 16.—The Cuban question was revived in the senate today when Mr. Morgan of Alabama, who reported the original resolution, spoke in favor of further and more decisive action toward the recognition of the Cubans as belligerents. The senator declared it to be the duty of congress to adopt joint resolutions in favor of belligerency, which, unlike the previous current resolutions, would require the approval of the president and thus fix responsibility. At the close of Mr. Morgan's speech the senate adopted without debate the resolutions introduced by him directing the committee on foreign relations to inquire and report on the treaty relations between the United States and Spain relating to the Americans now under condemnation at Havana; also requesting the president for the receipt of diplomatic passports, granting a right of way to the Denver & Cripple Creek & Puma Creek reservation, Colorado, appropriating \$200,000 for a public building and site at McKeesport, Pa.

### MEETING OF THE PARK BOARD

When the meeting was called to order Mr. Kilpatrick introduced a resolution commending Judge Lake, which was adopted. On motion of Mr. Kilpatrick, Mr. Tukey was re-elected chairman of the board for the ensuing year. Mr. Kilpatrick was elected vice president; C. E. Bates, one of the members of the board, was elected secretary. An application from Henry Brewer, for the position of superintendent, was placed on file. Mr. Bates remarking that it had been understood that the board would dispense with a superintendent for the present, and until more funds could be obtained. A resolution was adopted, requesting the president to perform the duties of superintendent, as far as possible, under the circumstances. Five electric lights were ordered placed in Hancock park.

### LOCAL BREVITIES

The oratorical creation of Hayden will be given at Boyd's on June 3. One of the attaches of the Missouri Pacific office distinguished himself before a large crowd on Farnam street yesterday afternoon by stopping a runaway team. Ross Crone, the small boy who was arrested last Friday night for violating the curfew ordinance, was fined \$5 and costs in Judge Gordon's court yesterday. The money was paid by his mother. The firemen were called to 528 South Third street yesterday morning about 9:30 o'clock to answer to an alarm of fire, but before it arrived the occupants put out the blaze. The fire had been started by a gasoline stove explosion. The occupant of the premises is A. H. Findley. The mayor has received a letter from Ireland inquiring after the whereabouts of Andy Hogan. The letter is from Hogan's father and stated he had not heard from his son for several years, but that he was at one time on the police force here. Hogan is now a motorman in the employ of the street car company.

### Perfecting Plans for the Races

The time was not to extend to further negotiations should be considered. Until that trial is set aside.

### DOMINANT SEVENTHS

Charles Higgins, the talented young violinist, has just returned from Pittsburgh for a vacation. He has played all through the past season with the big Symphony orchestra of that place, and has done considerable solo work in a highly satisfactory manner, quite a number of out-of-town engagements having fallen to him. The press notices received were laudatory indeed, and such as any artist might be proud of. Mr. Higgins, or Charlie Higgins, as Omaha will always call him, has a bright, vigorous personality; a decided talent, and is a close student; with these qualities one is led to hope great things of him.

### Teacher of Music and Language Mr. Julius

Thorsson Wendergale, near Copenhagen, had on exposition in Berlin November 25, 1895, some very fine and genuine old violins of which several were awarded premiums, and judged to be worth as follows, by the music committee from Berlin: Paganini's violin, one valued at 2500 kroner; one valued at 1000 kroner; one valued at 500 kroner; one valued at 250 kroner. The audience which greeted the eminent Russian pianist last night at the Crompton theater was made up of the musical and social element of Omaha. It was not as large as might have been expected, when one considers the reputation which the great soloist had gained in eastern centers, but what it lacked in numbers it atoned for in enthusiasm and approbation. Leopold Godowsky is a great artist, a wonderful pianist, technically (may it be said) flawless. Doubtless, did the gentleman cater to the society element of the great western continent, he would rival, may perhaps, surpass the critical taste of the Parisian, but his only ignominy, but Paderewski is not here and Godowsky is—so, to Godowsky. What's in a name?

### Broke Into a Freight Car

Arthur Meyers was arrested last night as one of the parties who were implicated in the robbery of a Union Pacific freight car several weeks ago, while it was sidetracked at Richfield station. When taken into custody, Meyers had a pair of shoes in his possession which had been taken from a burglar's quarters. He was charged with burglary.
