BOARD SELECTS TEACHERS

Recommendation of the Committee Adopted Without Amendment.

DISPOSED OF WITHOUT A CONTEST

Only Amendments Offered Voted Down with Such Scant Ceremony as to Discourage the Introduction of Others.

The main feature of the adjourned meeting of the Board of Education last night was the lobby. It was expected that the annual election of teachers would occur and the friends of those whose positions were felt to be inscure were out in force. They buttonholed the members in the lobby and wayloid them in the corridors. The result of these attentions was that it was nearly 5 o'clock before the board was called to order.

The committee on High school submitted the first report. It recommended that the High school teachers be engaged at stated salaries, these salaries to be for ten months school with the understanding that they should teach for at least nine and one-half months.

Anderson objected to any action that ob igated the board to run the High school nine and one-half months when it was very possible that it would not be able to run the for more than nine months. thought this was legislating in favor of the High school as against the grades. He moved that the report be amended to read nine months. The amendment was lost and the report as submitted by the committee was adopted.

On recommendation of the committee the following teachers were elected for the High school at the salaries placed opposite

GIVEN A HEARTY RECEPTION. It was a splendid gathering that greeted the soldier boys on their arrival at the grounds. There had been much hearig mere demonstrative reception was accorded the soldiers as they marched into the grounds. On the south side of the park were several hundred High school boys, their friends and their predecessors. They cheered lustily when their favorites appeared. Immediately opposite them, in the north stand, were seated several hundred of the fairest young women of Council Bluffs. They had journeyed across the river to see their brothers and other girls' brothers drill and to help them along with their cultivated voices. There must have been 200 of them and there was not a one who did not wave aloft a bunch of red ribbon to designate the Council Bluffs High school as the institution whose honor she was proud to champion. The Thurston Rifles, as usual, had many friends, and the waving of handkerchiefs that greeted the Rifles was like unto that at Christian Endeavor convention. The Omaha Guarda were cordially received and the various lodges were not without sup-

within the high board fences that enclose the park. The women, especially the young women, had a good working majority, and any of youths who couldn't dril inspire them to their best efforts couldn't win a leather medal. It was an enthusiastic ot of spectators and when the Council Bluffo hoys paraded in front of the stand with open ranks, their guns across their shoulders, and again when the Thurston Rifles showed how champions could drill the cheerng that was evoked would have done credit 'ouncil Bluffs boys were most cordially received and the welcome accorded them went far toward obliterating the memory of last year's chilling reception. GUARDS OPEN THE PROGRAM

The Omaha Guards opened the program with a very clever drill. Captain Mulford put his men through a number of interesting naneuvers and the accurate manner in which they carried out the commands witnessed that they had carefully trained for the event. In the most entertaining part of the com-pany drill, however, rain began to fall and a few moments it was descending in such pius quantities that everyone sought shel-

ter.

After the rain had ceased, the four companies of the Omaha High school cadets competed for the honor of carrying the battalien flag for the ensuing year. The contest was a close one, and the request that "he audience preserve absolute allence during competitive dills," was altogether ignored. A high degree of proficiency was shown in the work of all four companies, which fact reflects considerable credit on Lieutenant Penn, U. S. A. who has had charge of the drilling of the High school boys for the past two years. Captain Weboys for the past two years. Captain Web-ter and Lieutenants McArthur and Hu ton cted as judges for this competitive drill. After they counted up all the points the honor was awarded to Company C, which company was credited with 86.7 points; Company A came second with a score of 82.7; Company D was third, with 82.4 points, and Company B stood fourth in the contest, receiving \$2 points even.

An individual competitive drill among

owed. After several competitions that had taken place before last evening five members of each of the five companies had been selected to appear for the contest last even-ing. The prize was a handsome gold medal, presented by the Thurston Rifles. It was won by W. Storts Bowen, first sergeant of company C. Among those who stood up the longest were Sergeant Sweet of company C Sergeant Getz of company B, and Sergean Tukey of company E. T'e medal, was pre-cented by General Copplinger, who, in a few brief words, congratulated the winner of the prize and spoke of the importance of such an event in a young soldier's life.

BLUFFS CADETS DO WELL. The Council Bluffs High school cadeta then gave one of the most interesting numbers on the program. It was merely an ex-hibition drill, but the rounds of hearty ap-plause that greated Captain Green and his boys on almost every formation shows where the spectators would have placed medal had there been one in that class. The culcts seemed older and larger than the cal cadets, and their white leggings and more truly military appearance.

The Thurston Rifles, under command of Captain Foye, then gave one of their high class drills and evoked more applause? All the movements were carried out with the accuracy that usually characterizes the work Corporal Coverdale, with Private Thompson out the best for their markets.

a close second. The medal was presented by Colonel Bates, U. S. A. The judges were Captain Ulio and Eleutenants Rowell and Lutz, all of Fort Omeba.

vention's Work Stand. SIOUX FALLS, S. 2 To establish a cause of action based on negligence it is not sufficient for the plaintiff to show that negligence existed, but he must also show that the negligence pleaded and proved was the proximate cause of the injury complained of.

2 Where the record discloses an order of the district court sufficient in form, but omitting the name of the judge by whom it was made, the fact that the sole judge of the district named was at the date thereof disqualified to act in such proceeding, by reason of having been attorney for one of the parties, raises no presumption against the validity of such order, in view of the statute authorizing judges to interchange and hold court for each other.
