The city council has had several unpeasant tasks to perform in connection with re-pairing the ravages of the recent floods. In the western part of the city are many va-cant lots owned by out of town residents. Property around them has been improved and the lots brought to grade, leaving the vacant lots as so many great basins to vacant lots as so many great basins to be filled with water by the heavy rains. Public necessity requires these lots to be either filled or drained, or they will become a menace to health. The council has been compelled to dec'are them nuisances and order their abatement by filling or draining at the expense of the owners. Some eastern investors have written rather sharp letters to city officers, complaining of the cost of the enforced improvements.

DR. ENGEL'S ANTAGONIST IS INDICTED Presented by the Grand Jury for As-

snult with Intent to Do Great Budily Harm-Other True Bills Returned.

Adolph Ehlers was arrested at Minden vesterday by Sheriff Morgan and brought to this city to answer to an indictment found by the grand jury charging him with assault with intent to do great bodily harm.

This indictment and arrest were the outcome of the fight that took place on the streets of Minden on April 21 between Eblers and Dr. Carl Engel. The two men had trouble over rent in the first place and then Eblere sued Engel for malicious destruction of property. Engel brought in a counter claim for professional services and the bad blood that had been stirred up led to a fight in the streets in which Dr. Engel was decidedly worsted. Ehlers was arrested and taken before Justice Remington at Neola and acquitted at the preliminary hearing. The grand jury took the matter up and returned an indictment. Ehlers gave bonds for his appearance for trial.

The prisoners who have been indicted

were arraigned to plead yesterday afternoon and those who were not able to employ counhad attorneys assigned to defend them P. Kerens, an old man who was arrested assault and has been released on his, own recognizance, will be defended by D. E. Stuart. Ed Hurlburt, indicted for larceny, will be defended by William Hendricks, Celly Hough, who tried to kill one of the Pardoo brothers, and Harry Langdon and F. Merritt, the boys who robbed Gallagher's grocery store, will be defended by Colonel Dailey. G. H. Gable will defend James and Covington, the men who were charged with having stolen clothing from Machan's dye house. Charles Perkins, who stole a watch from Jacquemin & Co., Richard Wallace, in-dicted for the murder of "Texas Baker, and J. J. Daley, charged with the shooting of a tramp at Neola, pleaded not guilty. They have employed counsel without asking aid from the county.

TO TEST THE FIRE HYDRANTS.

City Conneil and the Water Company to Settle a Disputed Point. For several weeks there has been a quiet fight between several members of the city council and the water company. The city is largely in debt to the company. The arrearage is now nearly \$40,000 and the reduced assessment this year will not yield anywhere near enough money to pay the current year's b.ll. The aldermen, or some of them, think that with the certainty of this deficiency growing each year until the expiration of the contract ten years hence, the ouncil should do something to cut down the annual rental rate. The water company will not relinguish its contract voluntarily, and the aldermen have concluded that a good thing to do would be to hold the company to the faithful performance of all the condi ons of its contract with the city. It was arranged yesterday that one of these con-ditions was to be inquired into. The contract calls for a fire pressure capable of throwing six full size streams simultaneously in business part of the city to a height of 100 feet and two streams in the residence por-tions to the same height. The test was to have been made yesterday, but at the last moment the company notified the committee of the council and the fire department, under

whose supervision the test was to have been made, that It was not ready for the trial. The test will probably be made today. But there is an important difference of opinion concerning the test. The company's charter and the contract with the city require the company to provide mains of sufficient capacity and pressure great enough to "throw six streams simultaneously in the business portion of the city to a height of 100 feet and two streams in the residence portion to the height of 100 feet." This is what the charter says, and the aldermen put one meaning upon it and the company another. To the aldermen it means that eight streams shall be thrown simultaneously to a height of 100 | contents. feet, six in the business portion, where the large mans are located, and two in the resi-dence districts, where the smaller pipes are laid. To the water company it plainly reads that it is required to throw six streams in the business part of the town at one time to the required height, and then take any two hydrants desired in the outlying district and give a pressure that will accomplish the same result. Until this point is settled the test will not be made. It would be much easier to throw six streams than eight, and extremely difficult to throw s x streams from

mlies away. the council is to demand a reduction from the water company's bills, if the company cannot give the required test.

CAPTURED A REAL GERMAN COUNT Carl Von Bulow Jailed at Des Moines

for Swindling. DES MOINES, May 26 .- (Special Tele gram.)-Carl Von Bulow, who says he is a real German count, and has been making the claim between his periods in jail for the past false pretenses. He came to Des Moines about two years ago and represented that he was the heir to a title and fortune in Germany. He forged papers from high officials there, and on them managed to borrow about \$4,000 from women in the city. Then he went to Chicago, where he was located a few weeks ago and brought here despite habeas corpus proceedings. The officers went from here and arrested him. Before they could get him away he secured habeas corpus papers. While the application was pending for the writ, the Des Moines officers took him to a room and hid him. The Cook county officers could not find him and he was driven to the outskirts of the town and put on a train and brought back to Iowa. He still

DIVORCE COURT BUSINESS

South Dakota's New Laws on the Subject Are Quite Easy.

LAWYERS NOTICE SOME IMPROVEMENT

Efforts of Legislators to Extend the Time in Which Decrees May Be Secured Prove Failures. 3

SIOUX PALLS, S. D., May 28 .- (Special.)-The decline which has been going on in the local divorce business here since the lengthening of the term of residence three years ago has been checked and within the past few weeks the eastern colony has been growing rapidly. Almost every train is bringing in at least one mistled unfortunate and the hotels and boarding houses are rapidly filling up. Within the past week several parties of wealthy New Yorkers have come and have established themselves sumptuously with servants and "friends." Under the law as now construed it takes only six months to obtain a decree after the residence is begun, though the statute was intended to make the time at least three months longer. In fact, the time required is only about a month longer than under the old statute This fact has become pretty generally known and accounts in some measure for the in-flux. Then the new federal law requiring a residence of one year in all the terri-tories has shut out the divorce seekers from Oklahoma and the great number of divorces granted there and afterward declared defec ive have frightened applicants. South Dakota now promises releases for wounded hearts on as short notice as any other state except North Dakota, and it requires only onmonth longer than in that favored place Besides this Sloux Falls has many attractions not possessed by the northern cities.

FOUGHT WITH AN INFURIATED BULL Exciting Experience of an Iowa Man

et Jefferson. JEFFERSON, Ia., May 26.—(Special.)—Ed Pulliam had an exciting experience with a cross Jersey bull yesterday. He had to pass through a pasture. He had proceeded but a short distance when he thought he heard : loise, and looking around, saw the bull rushing at him at a furious pace and not more than twenty feet away. Pulliam tried to dodge, but before he could hardly make a move the animal struck him squarely in the back and threw him two rods. The bull followed in the direction his victim had taken. and when the man was ready to get up the animal was there. Pulliam grappled with his antagonist and a fearful struggle ensued, the man finally breaking for a small tree near by. He grabbed the lowest branches and swung himself up, banging there, the bull reaching the tree as soon as he did. The man perched himself out of the way of his enraged antagonist and remained there or two hours, while the bull kept watch of him. Finally, wearying of the siege, the animal went off where the balance of the cattle were feeding, and Pulliam slid down from the tree and came home.
