SILVER MEN URGED TO ORGANIZE.

Address to the Friends of the New

Party Issued from Headquarters.

WASHINGTON, May 31.-The national

silver party, through Chairman J. J. Mott,

today issued from its headquarters in this

city an address to the friends of silver.

This address recites that since the founding

of the national si'ver party on January 22

last the work for organizing has been stead-ily but quietly pursued, and the country

aroused to a pitch of excitement unknown

since the civil war. It declares the secret

in lining up for the battle, and that the convention of the party to be held in St. Louis July 22 will undoubtedly be one of the

most important conventions and notable gatherings that has ever assembled in this

country. Upon the wisdom of its acts and that of the people's party convention to be

held at the same place and time depends,

the address declares, "the vital question as to whether we can have a just settlement of

this money issue in our generation."
The friends of the party are urged to push

the work of organization with all possible

Some of the local papers have been severe in their denunciation of the mayor of the city for not being active in restoring order in the storm-swept district. In many locali-ties a foul stench arises from the ruins. Whether this is due to the fact that the ruins conceal the bodies of dead animals time alone can tell. The work of searching in the ruins of the old city hospital for victims of the etorm began today with a force of laborers. Superintendent of the Workhouse Carr, with a gang of fifty negro laborers and carts and the necessary implements for the prosecution of a search, arrived on the seene early in the morning. The laborers were divided into several squads, distributed over divided into several squads, distributed over the ground in the places that it was believed would be mose productive of results. A half dozen guards, armed with double-barreled guns, kept a close watch over the work-house prisoners to prevent any attempt at escape. The work of searching for the bodies was conducted in a thorough manner and with a pleasing absence of that slipshod matched and a thorough in the method so apparent in other locations in the south end. The cavalry cooks, stewards and camp men will do the work. The number of persons and families who are still without homes and without the means of getting them is great. In scores of instances families of day laborers had all their household goods destroyed and they have no means of replacing them. Among people of this class there has already been

GOVERNOR LIPPITT OF RHODE ISLAND

He Puts Forth His "Cinim of Long Descent" and Political and Social Popularity in Form of a Circular,

WASHINGTON, May 31 .- (Special Telegram.)-There is a new republican candidate for the vice presidential nomination in the field, Governor Charles Warren Lippitt of Rhode Island, who is now serving his second term in that position. Gubernatorial terms in Rhode Island are of a year's duration only. Governor Lippitt has adop ed the circular plan of campaign. He between the two county committees which SAMUEL OLIVER.

ST. LOUIS, May 31.—Reports of damage by storm to neighboring towns in Illinois and page circular, of modest dimensions, in promissouri continue to be received. Additional information received from New Baden, Mo., page bears the words, "For Vice President, page bears the words, "For Vice President, 1896." Another has the counterfeit pre-sentment of the governor, which shows that he parts his hair in the middle and wears he parts his hair in the middle and wears a monstache. Then follow two pages of biography. In this his recent election as governor is compared to that of Cleveland as governor of New York in 1882. Cleveland had but 60.98 per cent of the otal vote of New York, while Lippitt received 62.56 per cent of the total vote of Rhodo Island. If there were anything phenomenal about the one election, what's the matter. about the one election, what's the matter with the other? Governor Lippitt thinks that masmuch as the New York election of 1882 made a president that of Rhode Is-land in April, 1396, ought to make a vice president. The biography then carefully explains that the subject was born in Providence, R. I., in 1846, and that "he is a descendant in the eighth generation of John Lippitt, a town lot owner in Providence in 1636; in the ninth generation of Roger Williams, the founder of Rhode Island," and of other worthies in other generations as far back as the tenth and as recent as the seventh. Evidently Governor Lippitt is eligible to membership in all the patriotic societies which are the fad of the day, Sons of the Revolution, Colonial Dames, etc., etc. The rest of the brief biography is taken up with showing his education and business achievements; that he is a club man and a successful politician, and concludes by assuring us that he is a "genial and cul-tivated gentleman, and an orator."

GALLINGER TO BE CHAIRMAN. The most interesting gossip of the past eek about republican affairs in Washington of success in the pending conflict consists is that Senator Gallinger of New Hampshire is the choice of Major McKinley for the important position of chairman of the republican national committee. Instead of Senator Quay being anxious to fill that position again, he is credited with giving currency to the rumor about Gallinger. It may be that he has gleaned from Major McKinley's friends, or from that gentleman himself, the desire of the candidate that Gallinger manage the campaign as chairman of the national comttee. Senator Gallinger is 59 years old. looks ten years younger. He was born mittee. in Canada, became a printer, studied medi-cine in the hours off his case and engaged in his practice successfully. He is a strong political factor in New Hampshire, as he would naturally have to be to be able to hold his own against William E. Chandler, his associate from that state in the senate. He is regarded as one of the ablest men in New England, with a natural bent for politics, which has been cultivated by ten years service as chairman of the state committee of his party. He and Senator Chandler have been pitted against each other on many occa-sions. Wealth and ownership of the principai republican paper in his state were on Chandler's side. On Gallinger's were energy, courage and skill. Victory has rested with him. There was once a decided coldness be-tween Chandler and Gallinger, but this has been changed to pleasant friendship, and they are now battling together for the cause questions, combined with a marvelous fac-ulty for details. Back of him in his candidacy is the National Protective League. This mitted, combined with the warm support of ate, will also be elected. In many counties many of the leading men in the republican party, are mighty apt to land him in the chairmanship if he cares at all to undertake

HEAVY TRAINS COLLIDE FOR FUN.

Hend-End Collision at Columbus, O., to Entertain a Crowd. COLUMBUS, O., May 31.—The 10,000 pay-

ple who gathered at Buckeye park, on the Columbus, Hocking Valley & Toledo railroad, yesterday afternoon, have a pretty well defined idea of a railroad collision. Two forty-ton locomotives, to each of which were attached three coal cars and a caboose, were run together at a speed of forty miles an hour. As one of the engines was a little faster than the other preliminary trials of speed were made to be to bring the collsion at a certain point The engine, C. W. Fisher, was started 3,000 feet south of the point of meeting and the Al Streeter 3,000 feet north. The engines were started on the main track and ran together on a siding at the park. Both engines were started at the same time the engineers jumping after opening the throttles. The collision occurred at 4:10 pm., the engines meeting within about 10 feet of the calculated point. The immense crowd was silent with awe as the engines steamed into sight, each running at the rate of forty miles an hour. There was a terrific crash and a roar of escaping steam as the engines came together and they reared up in the air. The cars behind them were telescoped, but the cabooses were and steam obscured the wreck there was a tremendous shout; then when the escaping steam subsided the people clambered over the wreckage and every loose bit of fron that could be found was carried away as a relic. Both engines were a complete dan and Friel; Wahoo, 1. Charles (Kliment, Umpire: Bush.)

Spring Medicine

Your blood in Spring is almost certain to be full of impurities-the accumulation of the winter months. Bad ventilation of sleeping rooms, impure air in dwellings, factories and shops, overeating, heavy, improper foods, failure of the kidneys and liver properly to do extra work thus thrust upon them, are the prime causes of this condition. It is of the utmost importance that you

THOUSANDS OF WOMEN.

How Many Suffer in Silence and Misr Happiness They Might Ensily

Obtain.

There are thousands of women, married and unmarried, to whom life is full of sorrow and sadness. Instead of feeling lighthearted and happy, they find a dreary mototry in existence. Do you know why? It is because they suffer from cares that break down the health, and from tired, miscrable feelings, that steal away youth and brauty. No wonder they feel unhappy! But there is, fortunately, a way for these weak, sickly women to regain lost health and strength, as can be seen by the following opinions of some ladies who speak from personal experience. ersonal experience. Miss Anna Maxey of South Solon, O., says Miss Anna Maxey of South Solon, O., mays; "I suffered from nervous prostration, indiscation and siceplessness following a spell of sickness, until my life was despaired of. I took the best tonics my physician prescribed without receiving the least benefit. Finally he advised me to try a course of Duffy's pure ma't whiskey. I did so, and am now able to sleep well and am rapidly gaining strength."
