NEW MEXICO KNOCKS AT THE DOOR.

President Effort to Gain Admission to the Union Before Adjournment.

WASHINGTON, June 9.—Delegate Catron of New Mexico has reported to the house from the territories committee the bill for the admission of that territory to the sisterhood of states.

Accompanying the bill is a long report submitted by the committee on the admission of that territory to the union.

The report reviews the financial condition of the territory, speaks of its resources, based on the figures of the last census, assumes that the population at this time not less than 200,000, and recalls that as far back as the Forty-third congress a bill for admission was passed by the house.

The report declares that the people desire to join the union, and that they have repeatedly demanded it, says the passage of the bill is urged by both the political parties in the territory, and argues that there appears the prospect that congress should longer delay the admission.

Under the most adverse circumstances subjected to the incursions of hostile Indians, the territory has made progress, and has advanced much faster than the average rate of progress in the United States in every material particular since annexation.

The report also states that the territory has the resources sufficient to guarantee a stable and substantial state. Five members of the committee have united in a minority report to the passage of the bill.

HOW SILVER AFFECTS JAPAN

Chairman Dingley Makes a Report on Oriental Labor.

SENATE TO AMERICAN MANUFACTURE

Depreciated Currency Shows to Be Operating to the Disadvantage of Eastern Countries—Value of Yen at Home and Abroad.

WASHINGTON, June 9.—Chairman Dingley of the house yesterday made a report on the menace to American manufacture by the invasion of cheap products of Oriental labor, and upon the effects of the difference of exchange between the gold standard and silver standard countries upon United States manufactures and agriculture, these questions having been investigated by the committee.

The report says the sudden weakening of Japan from the Oriental slumber of centuries is being followed by an equally rapid westernizing of her methods of industry; that while the Japanese do not have the inventive faculty of Americans, or even of Europeans, their imitative faculties are wonderful.

Their standard of living would be regarded as practical starvation by the workmen of the United States, and their hours of labor average twelve a day. Such skilled workmen as blacksmiths, carpenters, masons, compositors, tailors and plasterers receive in Japanese cities only from 26 to 30 cents per day.

1892-95 per cent more silver and 15 per cent less in gold for the products of gold standard countries than they did in 1873.

The advantages in foreign trade of an identical monetary standard are shown and in considering the problem of immediate solving the manufacturing countries of Europe in an international agreement for a fixed coinage ratio between gold and silver, it is said that through Europe, especially Germany and Great Britain, must be thrust to feel the competition of Japan and other Oriental countries.

SENATE IS BUSY OVER A STATUTE.

Final Conference Reports on Naval and Indian Bills Are Adopted.

WASHINGTON, June 9.—The senate today approved the final conference reports on the naval and Indian appropriation bills, leaving only the sundry civil and the District of Columbia conference reports outstanding.

A night session had been agreed to in anticipation of delays and opposition to the naval and Indian conference reports, but they were abandoned. The resolution for an inquiry into the circumstances of the award of the status of General William T. Sherman was finally defeated.

The bill to amend the law respecting punishment for contempt of court was discussed by Mr. Hill of Ohio, Mr. Stewart of California, Mr. Francis E. Povey pension bill, recently vetoed by the president, failed through the absence of a quorum.

THINKS THEY ACHIEVED THEIR PURPOSE

Secretary Further Expresses the Opinion that the Sales Were Made in Every Case at the Highest Possible Price.

WASHINGTON, June 9.—Secretary Carlisle's reply to the senate committee, charged with the investigation of the sale of United States bonds during the years 1894, 1895 and 1896, was made public today.

The secretary says: "My opinion is that the prices received by the government for bonds in 1894, 1895 and 1896 were as high as it was possible to obtain under the circumstances existing at the times when the sales were made."
