The friends of Garret A. Hobart of New ersey claim that Quay is committed to GALLUP, N. M., June 12 .- Senator Stephen M. White of California passed through here today on his way from Washington to his home in Los Angeles. When asked about the rumors connecting his name with the democratic presidential and vice presidential nominations, he said he was not a candidate for either office. In discussing the platform to be adopted by the democratic na-tional convention, the senator said: "I would be heartily in favor of amending the

constitution so as to give congress the power to impose a tax upon all incomes. The de-cision of the supreme court on the income tax bill I regard as a great misfortune, not tax bill i regard as a great misjortune, hot only because of its direct bearing upon the problem of raising revenue, but because it reversed the precedents of a century and discredits the court itself. He has other of any sort that could be drawn in conform would not have voted for an income tax but of any sort that could be drawn in conformity with the doctrine laid down by the court. A just income tax is needed to provide reserve and I think the people generally are

in favor of such methods of raising money to meet the expenses of the government." On the Cuban question the senator said "It is not likely anything decisive can be ione at present to assist Cuba. 'I am of the opinion the convention will declare unequivocally for sound money, should not be at all surprised to see i adopt the financial plank of the Indiana platform." 'With the ratio clause left in?"

"No. I rather expect to see the ratio clause stricken out if the convention adopts the plank. As it stands now the plank pronounces emphatically against the free coinage of silver at a ratio of 16 to 1. My opinion is that if the convention sees fit to adopt that plank, it will simply obliterate the words 'at a ratio of 16 to 1.' That will place it squarely against the free colnage of silver at any and every ratio. Whether the Indiana plank is adopted or not, you can rest assured the convention is going to pronounce in no uncertain manner on the financial question. There will be

no straddle, nor anything approaching a straddle. It will be a plain statement, one which he who runs may read, in favor of money "Will the tariff or the money question be
