It will take considerable time and labor to permanently fix the damage done to the canal or irrigation company have carefully gone over and estimated the damage to their canal or ditch and find that about \$500 will repair the same in first-class shape. The canal was bank full the entire distance from Arcadia to Loup City and only on account of the excellent engineering of that city was it possible to pull through such a flood with so small an amount of damage. The Roller Mill company has also been making repairs. The damage sustained by the city is now about six inches in height and farmers are again beginning to feel greatly encouraged over the prospect of yet realizing a fine crop from the season.

A splendid rain measuring 55 fell here Thursday morning and everything is brightening up. The hail only extended one and a half miles south of this point and crops never looked finer or promised better than they now do over three-quarters of Sheridan county.

Fourth of July Celebration.

Plans for the Fourth of July celebration are developing rapidly. A considerable sum of money has been pledged, and some of the business men have instructed the committee to call again if they do not succeed in raising enough at other places. What was one of the principal features of the day, the competitive drill between civic societies, has been abandoned. It was found that the members of such societies did not want to participate in the parade and the drill, and then drill an hour or so in the hot sun. Other amusements, however, will be provided to take the place of the drills. Greased pig races will be held, and a greased pig will be loosed every hour. President Admits the Importance of the Omaha Exposition.

Sees ITS POSSIBILITY FOR GREAT GOOD

Tells Dave Mercer that He Knows the Whole West Will Be Benefited by the Show Projected by the Measure.

WASHINGTON, June 13.—(Special Telegram.)—President Cleveland, in an interview had with Congressman Mercer today, said as to the Transmississippi and International exposition: "Since the Chicago Exposition, I have been opposed to these exhibitions, but I believe the Omaha Exposition will be of great service to that great section of country lying west of the Mississippi river. That section has suffered greatly through drought and the tide of emigration has been toward the south rather than to the west. It will have a tendency to revive interest not only in agriculture, but in mines as well, and I signed the bill, believing it would be of vast benefit to a wonderful section of our country."

To the Bee correspondent, who saw the president immediately after his reception this afternoon, and who asked him for an expression on the exposition, Mr. Cleveland said, after a moment's reflection, that the bill is of great importance to that section of the country. When you see a stronger expression, then I shall be pleased to say something for the benefit of the west.

Mr. Mercer today received from Private Secretary Thurber the pen with which the president signed the exposition bill. It is an old steel stub pen, with a wooden handle, cork tipped. With the pen is the following certificate:

EXECUTIVE MANSION, June 12, 1896.—I hereby certify that the undersigned holder hereto attached is the identical one used by the president of the United States to sign the Transmississippi and International exposition act.

HENRY T. THURBER, Private Secretary.

With this certificate there will also be greetings from the president, vice president and speaker of the house. Mr. Mercer will carry this to the west, and a bitter fight to Omaha next week.

CARELESSNESS.

Often Causes No End of Suffering. Probably half the people who see the article suffer from piles. It is one of the commonest diseases and one of the most obstinate. People have it for years and just because it is not immediately fatal they neglect it. Carelessness causes no end of suffering. It often causes death. Hemorrhages occur from the apparent cause and loss of blood, the worst stages, without pain or loss of blood, quickly, surely and completely. There is only one remedy that will do it—Tyrant Pile Cure.

It cures the inflammation immediately, heals the irritated surface and with continued treatment reduces the swelling and puts the membranes into good, sound, healthy condition. The cure is thorough and permanent. Druggists sell the Tyrant Pile Cure at 50 cents. Send for free book on cause and cure of Piles.

High Priesthood Degree Conferred Upon a Number of Candidates and the Terrestrial Character Revived. HURON, S. D., June 13.—(Special.)—The seventh annual meeting of the grand chapter Royal Arch Masons, jurisdiction of South Dakota, closed here Thursday night. The report of George A. Pettigrew of Flaudreau, grand secretary, indicated that but little work is being done by chapters within this jurisdiction. His report also shows the number of members admitted during the year to be 191; number expelled, thirteen; number reinstated, three; number dismissed, fifty-four; number suspended, fifty-seven; number died, seventeen. The amount of dues owing the several chapters is \$4,171.46; cash on hand, \$7,998.32, making the total assets \$12,070.77, while the liabilities amount to \$2,029.08. During the last year the secretary has been compiling an historical record of the members of each chapter. This list is completed with the exception of one chapter.

In the evening the Huron chapter exemplified the work by conferring the royal arch degree upon three candidates. The work was well done and highly complimented by all who witnessed it. Then came a banquet, of which over 100 Royal Arch Masons partook.

Thursday afternoon a chapter of the order of High Priests was instituted. With the following officers: Henry S. Williams of Aberdeen, excellent president; Louis G. When the territory was divided and statehood accomplished it was found that nearly all the officers were in North Dakota as before, and no effort was made to hold meetings. Since then some have died and others have removed from the jurisdiction. On Thursday, therefore, the old organization was declared dissolved and a new institution for South Dakota. The first annual meeting will be held in Mitchell next June, in connection with the other Masonic bodies.
