Yesterday at Manawa. The crowds were not so large at the Grand Plaza yesterday on account of the threatening weather and counter attractions, but those who were there thoroughly enjoyed the afternoon and evening. Ladies' orchestra members are still great favorites and make a hit in their mandolin and guitar playing, being encored, to which they responded with new and catchy airs. The orchestra this season is much better than last, as Mr. Munro has added some very fine musicians to his band this season

and keeping the best from last season's Messrs. Deming and Roth, the eccentric comelians and dancers, caused many a side to ache from laughing at their funny sayings and songs, and their dancing is some thing new in that line, which pleased every one. After they were impaneled they went to the hospital and viewed the body, and it was then turned over to the relatives of the dead man and taken to Oranha.

There are no new developments in the matter. Brown and Moore, two young men of this city, were driving in the rear of the carryall party. One of them heard the motor whistle, but the other was listening to the songs of the members of the carryparty and did not notice the motor

The next event was the men's roadster race, one mile. There were five entries and the winner's were Crow's Devanat first, Younkerman's Gold Dust second and Brown's gelding third. There were six entries in the half mile running race. Clint Myers' Blue Jay won and David Myers' Sorrel Dick was second.

A quarter of a mile free-for-all foot race was won by L. A. Woods, with S. Andrews second, in 1:02½. The killing and dressing matches came

BLOODY RIOT AT A PICNIC The judges were Larry Noonan and W. C. Keeline. John Miller was referee. The nien were dressed in gauze undershirts with new waterproof yellow overalls. At the call of time each man selzed a carcass and the motion of their knives and hands was so rapid that the eye could scarcely follow it. Baust finished his first sheep in 2:121/2 and had the other well under way before his adversary had finished his first. He would undoubtedly have won the contest if the second sheep had not slipped from the cambrel while he was working. Omaha and South Omaha sent out crowds that tested the carrying facilities of the motor lines. The trains were runt to the grand stand, and within one hours time deposited over 2,000 in the center of the attractions. It was an orderly crowd, and aithough nothing was omitted that would be conducive to the enjoyment of all classes of people, there was not a disturbance of any character. A squad of Council Bluffs police was on hand for the purpose of assisting the marshals appointed by the butchers, but they had nothing to do beyond assisting to keep the good natured crowd from pressing too closely upon the centers of interest.

The program originally devised was carried through without any serious breaks, and it was added to by special events until its length consumed the full afternoon. INSTRANCE MEN WILL RECALIATE, Threaten to Raise Rates if the Occapation Tax is Adopted.

The city council will meet this evening and it is expected that the hearing of the liquor license protests will be finished up. There is only one more case to hear, and that would have been taken up last Monday night, but was postponed on account of the illness of the applicant. The matter of assessing an occupation tax on insurance companies is liable to stir up quite a mess. The companies appeared willing do pay the proposed tax of \$2, but when the ordinance was referred hack to the committee to raise the tax to \$25 there was a howl from the insurance men. Inspector Hartman has stated that he will fight the payment of the tax in the courts and local representatives of companies have stated that their companies are really to increase the fitch insurance fates the moment the ordinance goes into effect. The rates charged at present are high enough without increasing them any and many of the business men do not feel as if they can pay any more. It places the council in a peculiar position. The city needs the money that would be derived from the tax, but the business men will fight against paying any more for lawrance. The ordinance relating to placing with any deep the derived from the tax, but the business men will fight against paying any more for lawrance. The ordinance relating to placing without successing the was against paying any more for lawrance. The ordinance relating to placing without success the successing the success of the successing the success of the successing the success of the success will fight against paying any more for in-surance. The ordinance relating to placing an occupation tax on all classes of business has not been drawn yet and so cannot be reported on tonight, as was expected. It is hinted that the telegraph, telephone and electric light companies will make a great fight to have the ordinance taxing their poles knocked out.
The assessor is to meet with the coun-

cil this evening for the purpose of going over his books and licaring complaints.
