would have to be resorted to to prevent heavy damage to the mine. Inside Super-

soon lowered into the workings. They made their way to Red Ash vein, 1,500 feet down

There is a general feeling here that the arrest and subsequent release of Crown Sur-veyor Harrison has advanced the Venezuelan question a stage as it has stimulated the negotiations between Sir Julian Pauncefote. British ambassador, and Senor Andrade the Venezuelan minister at Washington. In any case the affair has led Great Britain to make considerable concessions to the Foreign views of the United States by inviting Sec-retary Olney's good offices, and it is hoped that the recognition of the claims of the United States and Venezuela will aid the conclusion of a treaty.

American bleycles continue to make great headway here, and are gradually displacing the English machines. The Field this week publishes a long article on the wheels man-ufactured by some of the leading American manufacturers. Land and Water expresses regret at the fact that the English manu-facturers allowed foreign competition to step in adding: "For weeks past it has been impossible to get a bicycle or even civil treatment from any of the English dealers Some of the worst trash ever produced was put on the market. The Americans have opened a vigorous campaign and one new arrival advertises a consignment of 1,000 machines, offers to supply anything required within fourteen days, and promises that there shall be no more waiting for machines to be built. In price and finish the Amer-

Ican machines are quite on a par with our best, and in weight they cut us dreadfully." Great excitement has been caused by the action of the Amateur Athletic association in suspending Bradley, Bacon, Downer, Watkins and Crossland, who were all entered for the amateur championships on July 4. It is announced here that Mr. Edward Blake, member of Parliament for the south division of Longford, who was leader of the Canadian liberal party from 1880 to 1881, when he retired in opposition to the party's policy of unrestricted reciprocity with the United States, will probably accept office in the new Laurier ministry of Canada.

SENTENCE ON A PANAMA SWINDLER.

Emile Arton Gets Six Years' Imprison

ment at Hard Labor. PARIS, June 28.—Emile Arton, implicated with Dr. Herz, and the late Baron Von-Reinach in the frauds on the Panama Canal company, has been sentenced to six years at hard labor. M. Arton disappeared from Paris very soon after the Panama scandal promised to be made the subject of a judicial inquiry, and was extradited from England last year. Arton was supposed to be the go-between of those who paid and those who received bribes to influence legislation favorable to the company, and the knowledge he is supposed to possess involves the wel-fare of a large number of people in France. He managed to evade the police for a long time by his cleverness in disguise. He had long been popular in the salons of Paris as an amateur actor and the knowledge and skill gained in that way were made to make himself unrecognizable. H His sentence closes another chapter in the story of the Panama scandals.

Member of the Junia Captured. TAMPA, Fla., June 28 .- Among the prison ers captured on the Three Friends Friday by the Winona was Dr. Joaquin Castillo, of the Cuban Junta. When the Three Friends left Jacksonville last week, a large contingent of the Bermuda expedition that had failed to land, was taken on board There were many land was taken on board. There were many conflicting stories, some to the effect that they were unable to land, owing to the proximity of the Spanish war ships, and other versions that the visitors were not over sealous to land. Dr. Castillo accom-panied the first party from Jacksonville with the determination that he should say them the determination that he should see them landed or know the reason why.

PRESIDENT DIAZ SURE OF HIS JOB Preliminary Elections Throughout

the Republic of Mexico. CITY OF MEXICO, June 28 .- The liminary federal elections occurred to by all over the republic, and 16,000 electors were chosen in various electoral districts. The electors will meet in various districts next Sunday and vote for the president, magistrates and members of congress. There is no doubt of the election of General Diaz, whose candidacy has been welcomed in all parts of the republic. The polling booths

were opened all over the City of Mexic and the election officers were busy. Th The lower classes abstained from voting. Berlepsch Not Supple Enough. LONDON, June 29 .- The Berlin corre

Denmark is Ready to Sell LONDON, June 29 .- A Copenhagen dispatch to the Times says: "The allusion in the platform of the St. Louis republican convention to the expediency of the United States purchasing the Danish West Indies has created some sensation here. It is believed that St. Thomas is especially coveted as being likely to afford an excellant Amer ican naval station. The opinion prevails that Denmark is quite prepared to sell these small colonies at a suitable price."

Possibility of Canadian Free Trade LONDON, June 28 .- In an article on the recent Canadian elections the Times con siders the immediate introduction of free trade in Canada as outside the range of practical politics. legislative detail. The cardinal principles of democracy are unchanged and the party remains intact. Neither free silver nor the single gold standard can ever be called a principle of the democratic party. I am a democrat and would not sacrifice the prin ciples of the party merely because some legislative detail which it may endorse is in opposition to my opinion. If an anti-free silver democrat would bolt, where would he go? I could never vote with the republican with whose principles I am irrecor party, cilable, and will always be a democrat while the party sticks to its principles. By party principles 1 understand problems that emody theories of government, and not mere matters of policy in legislation."

Jacksonians Complete Arrangements

for Attending the Convention. The Jacksonian club held a largely attended meeting Saturday night to complete arrangements for attending the Chicago con vention. A suitable uniform was adopted. and from all appearances it is now evident that the excursion will be a pronounced success. A sufficient number of members have signified their intention of going to warrant the secretary in telegraphing the club's headquarters in Chicago, the Clifton house, to reserve accommodations for 200. The Iro-

will be accompanied to Chicago by a band of twenty pieces. While intensely democratic in politics, the club proposes to show its loyalty to Omaha and Nebraska by advertising the Transmississippl exposition. The outside of the train conveying the club to Chicago will be deco-rated with large banners inviting all democrats to visit the exposition in 1898. Sm.11 banners and transparencies with inscriptions

abcut the exposition will also be prepared and carried by the club when marching in Chicago. They will also be placed in conspicuous places in the Clifton house and taken into the convention hall during ses-sions of the convention. A committee consisting of J. C. Brennan, Louis J. Plattl and C. L. Smith has been appointed to see that these arrangements are carried out.

Denver Plans an Ovation for Teller. DENVER, June 28 .- Preparations for the vation to be given Senator Teller upon his return to Denver next Wednesday night are about complete and it is claimed that it will be the greatest demonstration ever seen in the city. The enthusiasm for the silver leader is felt in all parts of the state and excursion trains will bring thousands from towns within 200 miles in all directions. Mr. Teller will arrive here at

o'clock by special train from Cheyenne over the Union Pacific. A parade of mili-tary and civic societies will be given, after over the Union Pacific. "I don't look for a bolt. However, refuse to be governed by the twothirds rule, it may give the gold men a pretext to walk out. I am willing that the gold men should go if they can't line up for silver. That would draw the line more sharply. But I don't believe there will be the slightest pretext for a bolt. Governor Altgeld Says the Gold Stand

ard is Bleeding the Producers. SPRINGFIELD, 111., June 28.—Governor Altgeld was asked tonight what he thought of the interview given out by William C. Whitney. He replied: "Nothing. The American people are not yet ready to become the vassals of the English money lender and his American agent. The policy which the gov ernment has pursued for more than twenty years at the instance of those eastern specu lators compels the producers and consumers of this country, who bear all its burdens, to give the English money lenders \$2 worth of labor, \$2 worth of property and \$2 worth of their life's blood for sach dollar they ever get from those Englishmen. This is destroying our country and the democratic party intends to condemn this policy in mos emphatic terms, and, no matter how much those castern capitalists and speculators may be willing to spend, they are going to have vate estimate of his own strength, but these a very difficult time in frying to prevent the party from expressing its honest convictions on this subject. That's all I care to say about this matter at this time."

If the men received any warning they had time to run up the slope, but not to any distance. The falling rock and coal filled up the slope and the adjoining gang-ways, completely shutting off all avenuea of escape. As the work proceeded all hope that living men might still be behind the fall was given up. Even if they had escaped being crushed by the falling roof,

it would have been impossible for to have remained alive for any length of time in a gaseous mine. Up to 9 o'clock tonight no bodies had been found.
