the Transmississippi Exposition.

The turkish bath temperature of the city building did not deter a large number of the committee of thirty-five from meeting last night and organizing the Council Bluffs end of the work to be done for the great Transmississippi Exposition. Nearly all of the members of the committee were present and sat around in negligee dress and fanned themselves while discussing the work in hand

Wright outlined the work that the committee would have to do, and if there were any of the members who had come there with an idea that they had been appointed to an honorary position that would give them free tickets to the big show and a chance to poise before the admiring multitude, the idea was quickly dis-Chairman Wright plainly told them strated. Chairman Wright plainly told them that they had work to do and plenty of it. Among other little things they were ex-pected to raise about \$100,000 in cash and interest all the whole state of Iowa in the exposition. They were to think of nothing else than the exposition, talk about it and even dream about it, if they got a chance

to slumber long enough to dream.

The permanent subcommittees were pro vided for by the appointment of the chair men, and each chairman was given two gen tlemen to assist in selecting his general committee. Lucius Wells was made chairman of the finance committee, and A. S. Hazelon chairman of the ways and means com mittee. Mr. Hazelton selected as the mem bers of his committee: George F. Wright W. W. the exposition subject, and the enthusiasm of the members rose with the length of the peeches. Mr. Randall spoke of the inesti-nable benefit that the Atlanta exposition mable benefit that the Atlanta exposition had conferred upon all of the southern states. The impetus given the south had been greater than if millions of dollars had een expended in permanent improvements and manufactures. The Omaha expositio would be greater than that, because greater and richer territory would be laid under tribute. The south only gathered the phiegmatic states at that, but the young giant of the west would call for the best in twenty-four states and three territories. Sale of Cigarettes Killed. Council Bluffs cigarette fiends will have to lay in their supply of smoking today or else go out of the state to buy their consolation hereafter. The anti-cigarette bill, passed by the Iowa legislature at its last session, goes into effect tomorrow. The bill prohibits the sale of eigarettes in the state under a penalty and allows wholesalers the privilege of shipping the goods out of state, but will not allow them to sell in lowa. The retail dealers of the city have been running low on the cigarette supply for some time and there is now but a very few boxes in stock in any of the stores and these will be closed out today or thrown in the sewer tonight, as none of the dealers have any desire to go against the law for the sake of making an eighth of a cent a box on cigarettes. One of the hig tobacco houses has put up a regular cigarette with a tobacco wrapper instead of the rice paper cover and has called it "little cigars" and has offered to protect any dealer that will put them on the market as a substitute for cigarettes, but none of the local houses have as yet decided to stand up and fight the law or make a test on the question as to the component parts of a cigarette. There are a great many cigarette smokers in Council Bluffs, men who will have this kind of a smoke law or no law. Omaha will profit by their adherence to the weed in

Ministers and Sunday Papers. At the regular weekly meeting of the Council Bluffs Ministerial association the question of Sunday papers was discussed to some extent. The subject has been called up for consideration at previous meetings of the association, and some of the ministers have placed themselves on record as opposing the issuance of the Sunday morning paper, but their opposition has not been ounced enough to make itself felt. the last meeting, however, when the matter was being talked over, something of a sensation was produced by one or two of the ministers calling attention of their brethren to what they styled the impropriety of encouraging their Sunday paper by using its columns for the publication of their church notices. They could not be altogether consistent when they condemned the Sunday issue and used it to induce people to attend their churches. This was a new phase of the subject and half an hour was devoted to its discussion. It was finally agreed to take a new departure, and while not condemning the Sunday paper, to unite in a request to all of the morning papers to publish the church notices in the Saturday

I lived with one family four years and never knew marshal and his deptuy are instructed to narshal and his deptay are instructed to all the duties of the office and to employ no field deputy at the marshal's headquarters, which are located at Des Moines. This will do away with Deputy

Marshal Richards' position.

The order is one of the results of the new order of things by which the marshal's force is placed on salary instead of having the office conducted on a fee system. Hereafter the marshal will receive a salary of \$4,50 a year. The order to remove the office to Des Moines is generally regretted, and an effort will be made to have it revoked.

SUSTAINS HIGH VATER RATES. District Court at Des Moines Renders

an Important Decision. DES MOINES, July 2 .- (Special Telegram.) -In the long drawn out litigation between the city of Des Moines and the Des Moines Water company, the city received a hard blow today. Several months ago the city "Give me this company of men who for passed a regulating or linance, making great reductions in rates. The company took the the sake of their families will deny them-selves and I will show a lot of fellows that matter into court and the supreme court of the state decided that the city had the right to regulate the rates, and that the new ordinance must be obeyed by the company till it should be able to prove that the rates specified were not remunerative.

The company at once went into the district court with a case in which it sought to enjoin the city from enforcing the new rates, representing that they were so low that they amounted to a confiscation of the property. The new rates were put into effect, pending the decision. The case to determine the reasonableness of the rates has been pending several mouths, and today Judge Spurrier handed down his decision. He sustains the company in every respect holding that the rates are go low that their continuation will cause bankruptcy. maintains that it is entitled to revenue of the valuation of about \$900,000, whereas the city held that the plant is not worth much more than half this. He also holds that the company is entitled to earn about \$10.00) a year as a sinking fund for its bonds. The city held that salaries and operating expenses, as scheduled by the company, were too high by about one-third. The court decides that the salaries and expenses are not unreasonably high. The conclusion is that the court grants the injunction and rates in the meantime salute; years more to decide it. the city will pay the high rates.

State Appeals a Criminal Case. DES MOINES, July 2 .- (Special Teleram.)-District Attorney Howe has apcaled the case in which J. Spaulding was charged with embezzlement from the state while acting as treasurer of the pharmacy commission. He stole \$14,000 of the state's money and on trial was found not guilty, under instructions of the court, on the ground that he had been indicted as a state officer but in fact was merely an employ of the commission and responsible to rather than to the state. The appeal will be taken to determine whether Spaulding was properly indicted. It will not be possiblo to get a new trial, as he has been one nequitted and that ends the matter. Syndicate Park. For some time past the police have sus pected that a gang of sneaks and petty thieves that infest the city had a rendezvous in Syndicate park, and yesterday afternoon Chief Brennan made a search. He hunted all over the park for the cave in which he had been told the thieves lived, but failed to find it. One cave was found, which is occupied by an old man, who has lived the life of a hermit for a number of years. The old man said that tramps frequently con-gregate in the park at night and sleep there, but as for their having a cave where they concealed stolen goods, he did no think they had one. The chief intends to take a number of officers some night and round up all of the tramps in the park and place them under arrest. Every day the police judge regrets that the city does not provide a rock pile upon which he could compel a number of worthless men to work, instead of the city paying for their board in the county jail.

Albert Saunders Taken to the Central Station Through a Howling Mob Who Wanted to Lynch Him-Riot Act Read.

CLEVELAND, O., July 2.- The strike at

the Brown hoisting company's works has reached a point where the authorities as well as the strikers are in no mood for triffing. When the nonunion men left the works at 5 o'clock this afternoon there was rioting. From the gates emerged 250 policemen guarding 500 workmen. An immense FIRST DIVISION.

Meanwhile a tragedy had taken place at the Brown works. Albert Saunders, a young student at the Case School of Applied Scionce whose father lives at 331 Prospec street, has been working for the Brown com pany during vacation for the practical knowledge it would give him. He did not leave with the nonunion men under police guard, but mounted his bievele and sought to reach home alone. As he turned up Hamilton street a knot of strikers saw him and shouted to him to stop. He did not obey and they began to throw stones and bricks at him. A brick struck him on the head and knocked him off his wheel, and he claims that after he was down they continued to stone him. Rising to his knees, he drew his revolver and fired. The ball missed his assailants, sped across a vacant lot and buried itself in the breast of William Rettger, one of the strikers who was walking through

and, rushing up, selzed young Saunders and nurried him into the office of the Bishop-Babcock company. In a wonderfully short space of time a furious crowd packed the streets as far as the eye could reach, and surged against the front of the office, Some one brought a rope, and the cry to lynch him was raised. A few began to pry at the windows of the office, when Patrolman Gibbons, who was once a union work man, addressed the mob and partly quiete it. Two patrol wagons of police arrived and since his arrival. On Monday he was employed by John Schoening, a farmer living east of the city, and went out to work. The next morning Drieckmier ran out into the court selsion the rafes would have orchard and told Mr. Schoening that the hay may was filled with tramps armed to the teeth and looking for blood. A search failed to produce the murderous vagrants and the matter was laughed off. A few hours later Drieckmier called attention to a herd of buffaloes that were going along the road. Then he saw flocks of wild geese wearing a guard was posted in front of the building Long before this Mayor McKisson, Police Competent committees will have charge of the different contests, for which cash prizes will be given. from streets cars a block away. Amid a frenzy of excitement on the part of the dense rowd, a patrol wagon was backed to the loor of the office, and Saunders was jerked into it and made to lie on the bottom. The guards formed around with bayonets at "charge" and they forced their way down Hamilton street, part of the howling mob-surging along with them. To heighten the excitament Detective Shrosty stood up in the patrol wagon and shot his revolver in the air. The wagen and the soldiers pro-ceeded rapidly until the crowd in front had thinned, when the guard opened ranks and the wagon sped on to the Central police sta-tion on a run. Saunders, whose head is badly cut and his body a mass of braises, is a prisoner, charged with the killing of Rettrer. Company F. in command of Major Liebich, marched to the center of the crowd that remained behind. The soldiers were menaced and feered. Major Liebich haited his men, drew his revolver and declared that upon the slightest attempt at violence he would give the command to fire. After tered, the company returning to quarters. The striking quarrymen at Berea have quieted down somewhat. Wednesday night some of them ture up some water pipe at Quarry No. 6, crippling it. Today work-men tried to repair it, but were beset by a crowd of Pelish women with clubs and stones, who compelled them to seek refuge in a shed. Two special officers went to their rescue and only succeeded in dispersing the women by drawing their revolvers and

PITTSRURG, July 2.—The Amalgamated association and the Manufacturers' association went into conference today to make an-other effort to settle the tin plate workers' wage scale for the year. After a long session the conference finally adjourned to-night, after the manufacturers had agreed to a scale which is practically that of last year. While the scale was agreed to, none of the manufacturers would sign as individuals, nor as a committee. This leaves the tin plate lockout still in force, and only modified by the agreement giving each man-ufacturer the option of signing or not, as
