## LOW WEGES ON THE FARM.

Analysis of Boles' Appenl for Chenp and Abundant Money, New York Bun.

Hon. Horace Boles of Iowa is a prominent candidate for the nomination for the established in decisions rendered by Assistpresidency, on a free silver platform, by the ant Secretary Reynolds of the Interior deapproaching Chicago democratic convention. partment. All the cases came up on appeal Governor Boles professes that his advocacy of silver is based upon the sufferings, under the present gold standard, of the farmers of his section of the country, and in a recently published interview he expresses himself

The condition of the farmers in the north. western states is absolutely unendurable. I. say this, knowing the facts. I have myself in this state two farms paid for largely with money I have carned as a lawyer. One is a farm of 2.500 acres of land, and the other One is a ontains 1,000 acres. With the present price of labor and the present price paid for farm products, no man in the world could take either of these farms, even if I should present him with the ground, and make a dollar I mean, of course, that he could not equip the farm and pay interest on the money invested in the equipment and wages for labor out of the income he would get by selling the products. A farmer who works himself, and is assisted by the labor of sons and daughters, could make a small farm pay But no farm is profitable when conducted on the basis of a manufacturing business. Cheap and abundant money is the only remedy for this intolerable state of things. Governor Boics here makes some

damaging admissions. He describes himself as the owner of 3,509 acres of land, or about wenty times as much as any one man can ultivate properly. He has to hire his labor, and he complains that the wages he has to pay for it are so high that they consume all the products of his land, which is in direct onflut with the repeated declarations of men like Altgeld, that the price of labor of

yest has been reduced by the gold standard o a starvation point. He also concedes that the farmer who works himself, and is assisted by his family, can make a living even now off a small farm, and that it is only a farm conducted "as a manufacturing bushness" that does not pay. It will be interesting to our eastern workngmen to hear from one of the chief apostles of free silver that it is "an intolerable

state of things," in which a great land owner like Governor Boles cannot make money by ultivating with hired labor 3,500 acres of land, while at the same time a small farmer. working himself, can. Few of our working men do much more than make a living by working at their trades, and if the small western farmer does as much as Governor Boles concedes he does, he will not receive much pity from them.

Testimony corroborating that of Governor to the prolitableness totes as farms in his state is found in a letter, recently published in the London Economist, from an Englishman who has been speculating in land there. He says: Out of the first 50,000 acres bought in northwestern Iowa in 1881, nearly all are now sold. Last year in that locality there was a bumper crop, and lower prices, especially for cats and barley. Our return 869 acres still on hand and let cre, which is a record in our experience. lost of this was paid in kind, and seeing turn, exclusive of profits on live stock, was

per acre. Nine tenants, occupying among them 869 acres, make an average of 96 acres apiece, better than any other nation in the world and the return that each one got for his better than any other nation in the world able to pursue with perfect safety to ourselves a policy which will do more to build up our shipping interests than any toward supplying him with food. If there are any eastern workingmen doing better than this, we shduld like to hear from them. If, too, land in lowa brings in these times

THE GLORIOUS FOURTH.

New York Sun. Bang! I'm the Fourth of July! Born in a blaze of glory, I can tell the story. And not half try, Of how the Eagle soared, When the big Lion roared, And then with a swoop, And a wild warwhoop. Came down like a wolf on the fold, And got a tail hold On Mr. Lion, and with a twist Of its clawey fist. It made that animal how!, Did our noble fow!. And I can say, How the Star Spangled Banner, Liberty's grand hosanna, Long may she wave O'er the land of the free and the home of the brave.
