The fight has taken on a distinctly railroad and anti-railroad character and the leading candidates have the endorsement of the railroad lobby, which seems supreme. Rolla J. Unless he is materially stronger by morning, which is not expected, Con-gressman William P. Hepburn, who had been slated for permanent chairman, will act as temporary chairman and will prob-ably be continued by the committee on permanent organization. There has been during the day considerable talk of attempting to secure a financial plank less outspoken in favor of the gold standard than that of the St. Louis platform, but the conclusion has ben reached that it would be suicidal politics to go counter to the party in the tion, so the St. Louis platform, financial plank and all, will be reaffirmed.
