KOLB GOES TO BRYAN.

At the night meeting of the Bryan fol-lowers the large parlors which they make their headquarters was crowded to suffo-cation. Reports made by those in attend-ance indicated a gradual growth of Bryan sentiment and reports were made to the effect that the solid delegations from North and South Dakota and New Mexico, aggregating thirty-three votes, could be counted upon for the endorsement of the democratic nominee. Claims were also made of the South Carolina delegation, and it was represented that rapid progress was being made in Illinois, California and Pennsylvania. There was considerable discussion of the effect which the endorsement of Mr. Bryan or the failure to endorse him would have upon the populist vote. The opin-ion expressed by the representa-tives of the northwestern states was to the effect that if Mr. Bryan was not endorsed the party would lose from 25 to 50 per cent of its votes in that section. Captain Kolb and Colonel Brown, who were ing, gave the same opinion as to the consequences in the state of Alabama of such a course. The presence of Captain Kolb gave nces in the state of Alabama of such a much encouragement to the Bryan people, as he had formerly been noncommittal. He presided at the evening meeting. When the

of mourning visitors thronged to this city to pay their last tribute of respect to Massachusetts' dead statesman, ex-Governor William E. Russell. On every side sombre decorations were to be seen upon buildings and in windows, while upon thousands of coat lapels the picture of the dead ex-governor, framed in black were worn as an evidence of the great desire to join in expression of henor to the memory of the late chief executive of the commonwealth. to Deposit Gold to Get Paper.

WASHINGTON, July 20 .- The gold reserve wont below the \$90,000,000 mark today for the first time in many months, and at the loss of husiness the actual figure was \$89 -761.336, a reduction of \$3,706,200 for the day. Of the withdrawals \$3,033,000 was for export. Treasury officials look upon this heavy gold decline as entirely abnormal and are confident that it will not continue, at least so heavily. They say that there is nothing in trade conditions to warrant the exports, adding that although exchange is almost a point above the shipping point in normal times the conditions are such in their judgment as to make it uncertain whether it can be profitable at present. In the absence of Secretary Carlisle, who will not return to

the city from his jaunt down the bay until tonight or tomorrow morning, no one can speak authoratively respecting the probabillity of another issue of bonds to replenish the reserve in the near future, but the general trend of opinion was that such a thing was not to be expected. The rumor reached the treasury late in the day that the New York banks had decided to come to the relief of the department and pledge themselves to maintain the reserve at the \$100,-000,000 point. There was no official backing

to this report, but officials profess to see other hopeful signs even if this promise fails of realization. Among them is the prospect that the demand for money in the west will oblige the New York banks to deposit gold with the treasury in order to obtain the necessary paper. This would add materially to the protection of the gold reserve.

The department has already accumulated a general balance of \$261,618,393, no less than \$84,286,016 of old legal tender notes and \$35,113,019 in Sherman notes. This leaves the whole amount of legal tender notes out

NEW YORK, July 20 .- The withdrawals of gold from the subtreasury today for export tomorrow to Germany aggregated \$3,030,000, of which amount \$1,550,000 was in fine gold bars and \$1,480,000 in coin. The aggregate withdrawals amounted to about \$3,700,000, in-The cluding \$350,000 taken by Canadian banks, and reduced the treasury free gold to about \$90,000,000.

It was admitted that the conference has taken place but

the report of actual signatures to any specific amount was denied. President H. W. Cannon, who with President Tappan and J. Edwards Simmons of the Fourth National has been especially active in the movement, said today: "It can be said today that if the treasury should need gold the New York banks would be prepared to furnish a very considerable amo Nothing has been signed, however, and undua excitement should be deprecated as the treasury holds now \$99,000,000 of gold. reasury holds now \$99,009,000 of Money is easy and there is no just reason
