ARRANGEMENTS ARE ALL COMPLETED

If Governor Holcomb Does Not Interfere, the Murderer of Sam Du-Bols Will Die ou August 7.

The death warrant for the execution o Claude Hoover, the murderer of his brother-In-law, Councilman-elect Sam Dubois, was by Sheriff McDonald yesreceived terday morning. The warrant recites the action of the supreme court in the case, refusing to grant new trial and fixing the day of execution. It directs the sheriff to proceed to carry out the mandate of the court by causing Hoover to be hanged August 7, between the hours of 10 a. m. and 2 p. m.

The attorney for Hoover presented a long pclition to Governor Holcomb about two weeks ago asking that Hoover's sentence be commuted to life imprisonment. The governor indicated that he would pass upon the petition in about ten days, but as yet no action has been taken. Hoover's attorney feels very sanguine as to the result. while those who have watched the case and are familiar with his sentiments are of the opinion that the governor will not interfere In the case. Sheriff McDonald has made all the neces

mary preparations for carrying out the man-date of the court. The scaffold has been in readiness for several months, having been ready for use since April 17, the date set by the lower court for Hoover's execu-tion. The noose which will launch the condemned murderer into another state of

existence has been in the sheriff's posses-sion for the same length of time, and all that remains to do is to erect the scaffold and the palisade which will hide the scene of the execution from the gaze of the curious. The scalfold will be erected in the ell at the southwest corner of the jail, the same point where all the recent executions in Douglas county have taken place, and will be hidden from view from the street by a high board fence enclosing a rectangular space, within which the execution will occur. Under the statutes of Nebraska the con-

demned man is allowed the privilege of inviting three persons to witness his execu-Hoover has not indicated whether he tion. Hoover has not indicated whether he will exercise his privilege and bas, in fact, been very chary of discussing the rather delicate subject. The sheriff is allowed, under the statutes, to invite not to exceed six persons, exclusive of his assistants and the clergyman, to witness the execution. Sheriff McDonald is in a quandary as to

how he is going to accommodate the 200 o more of the morbidly curious persons who have already made application for tickets of admission to the enclosure. Many of these are women and the question will be somewhat simplified by cutting them off the list entirely, but what to do with the other is the question which is puzzling the sheriff. The applications come from all kinds and conditions of men and many reasons are urged why each individual should be es-pecially favored. It will be necessary, however, for the sheriff to cut the number of admissions down to the number provided by law and the large majority of the curious aspirants will be disappointed. LINCOLN, July 27.—(Special.)—County Attorney H. H. Baldrige of Douglas county

held a prolonged consultation today with Governor Holcomb. The subject of dis-Governor Holcomb. The subject of dis-cussion was the application for commuta-tion of the death sentence of Claude Hoo-ver of Omaha, convicted of killing his brother-In-law, Sam Dubois, and sentenced to be hanged. The supreme court has refused to grant a rehearing of the case. On the 13th inst. Governor Holcomb granted a hearing of the application for a commu-tation and took the matter under advise-ment. Today he said he would announce his decision next Wednesday.

Little Prospect of Any Reduction During the Coming Season. MUST PAY FOR COMFORT NEXT WINTER

Dealers Say They Are Not in a Combine, Adding that They Are at the Mercy of the Eastern Trust.

Coal will be coal in Omaha this winter and the head of a family who expects to keep warm when the Arctic gales are doing their best to drive the mercury to the bottom of the tube will have to pay roundly for his

comfort. Last winter the fight between the railroads brought the price of hard coal down to \$7.59 a ton, but it is said that the war was so disastrous to the roads that there is no danger of a repetition this year. It is the opinion of the best informed coal men that the fall business will open at

an even \$10 and that the price will be more likely to go up than down. That there is any combination among the

local dealers to inflate the market is emphatically denied. The coal men declare that the price in Omaha is based on the price at Chicago, plus the freight rate from that point, which is \$3. They add the Chicago price to the freight rate, 50 cents Concago price to the freight rate, so cears for hauling, 15 cents for handling and 50 cents profit for the dealer, and the result is the price in Omaha. So an advance in the market is of no benefit and really injures their trade, as people are more economical in the use of their coal when they have

compelled to pay a top price to fill their bins. That there is a close combination east of Chicago is admitted by nearly all the deal-

ers. Last year the operators had a combina-tion, by which each man was assigned a limit to his output. But the railroads

furnished all the cars each operator wanted and the result was that they worked their mines to their full capacity, regardless of the combine. This year they have profited by their experience and it is said that the railroads cast of Chicago have been taken into the deal. By the present arrangement the roads are to furnish each operator with a certain number of cars per day and no more. If this arrangement is carried out it will effectually limit the output of each

mine and thus control the market. The price which the combine is now maintaining at Chicago is \$5.60 per ton on nard coal. This would make the cost to the Omaha dealer \$5.60, and, while \$9 will

buy a ton of hard coal now, the dealers assert that there is no profit for them a that figure. They say that as soon as the price is established at Chicago for the fall business they will make a price in Omaha.

based on the Chicago quotation. One of the leading dealers hazards the opinion that the combine will make the Chicago price an even \$6 and that the market will open in Omaha at \$10. It is said that there is no possibility of a breaking up of the eastern combination and that the only prospect for a price lower than the one quoted lies in the possibility of a cut in rates between Chicago and Omaha. This is regarded as extremely improbable, as the disposition of the roads so far is to maintain the rate throughout. One local firm has been work-

ing assiduously for some weeks to obtain a reduction between the two points, but its overtures have been so coldly met by the railroads that it has been practically de-cided that there is no hope of obtaining the slightest concession. The dealers declare that the rate of \$3 between Chicago and Omaha is excessive and some of them still contend that the railroads will find it im-possible to maintain it through the season.

GIVEN A RUN FOR THEIR MONEY. Two Alleged Brass Thieves Lend the

Officers allMerry Chase. Detectives Ames, Visard and Miller of the Union Pacific had a hot chase across the bottoms last night and made time that would have done credit to professional sprinters. They were after George Oliver

and Will Thompson, two brass thieves, and the men gave them a merry chase before they were captured. For some time past large quantities of expensive air brake brasses have been missing from the shops,

and although a close watch was kept noth-ing resulted until yesterday. The detec-tives had noticed these two well dressed young men make occasional trips through the yards, but as their appearance was highly respectable they were not suspected of any wrongdoing. Last evening about 7 c'clock the young men sauntered jauntily up the tracks, each with his coat thrown over his back. A pronounced sag in one of the garments carried, however, caught of the garments carried, however, caught the eye of Vizzard and he and his men made a wide circle around the suspects and made a wide circle around the suspects and

approached them from in front. No sooner had the officers appeared than Oliver and Thompson threw their coats to the ground and started at a breakneed pace toward the water works pumping station. Hitching up his trousers, Vizzard set the pace for his comrades and was doing quite well for a man out of practice, when the north Omaha sewer crossed his path. People : [amiliar with the detective's path. scherous proportions can imagine the mo-mentum produced by an eight-mile gait and know that it was impossible to stop on such short notice. By the time his friends had fished him out of the predica-ment into which his haste had thrown him. the fugitives had gained a lap on him and were legging it along the river bank in an endeavor to place the pumping station be tween themselves and the officers. Vizzard had his gun with him, so he shot a number of holes in the atmosphere in the direction of the fleeing men. The shots flew wide of

the mark, but were productive of good results by calling to the aid of the officers a number of the bottom dwellers, who joined in the chise. Hemmed in on all sides, Thompson and

Oliver at length took refuge in a mass of weeds, and the work of capturing them was a matter of easy accomplishment. They were lodged at the station and a charge of larceny placed opposite their names on the blotter. The amount of brass stolen from the shops is said to foot up about \$100, and blotter. Five-Venr Lease to the Property Signed Vesterday Morning.

A deal was closed yesterday morning whereby Boyd's theater passed into the hands of L. M. Crawford for the ensuing five years, the contract and all of the papers relating to the deal having been signed and delivered

Mr. Crawford has been endcavoring for the past year and a half to get a theater in Omaha, and has had several projects in view during that time as a means of ac-complishing that desire. Mr. Crawford's first experience as a theater manager in Omaha was*in the old Exposition building on Fifteenth street and Capitol avenue, which was fitted up as a theater and was run under the management of I. W. Miner, as the Grand opera house. Later, Mr. Crawford entered into a lease of the old Boyd theater at Fifteenth and Farnam streets and the Grand was closed. The old Boyd was destroyed by fire October 2. 1893, and W. J. Burgess, who was manager of the house, arranged for the occupancy of the old Grand, which was rechristened and was known to fame as the Fifteenth Street theater. December, 3, 1894, this was

also destroyed by fire, together with th entire Exposition building and the Baptist church Immediately adjoining. Since that time Mr. Crawford has been using every effort to get a theater in Omaha and has capitable and the idea of

There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condi-tion of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its bene-ficial effects, to note when you purchase, that you have the genuine arti ele, which is manufactured by the Cali-fornia Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative. one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

shirts somewhere else. We want to sell them one shirt. We want them to know it too.

HE average man knows almost as little about white shirts as the average woman does about "sixteen to one." It isn't his fault. Most shirt dealers place their orders here, there, everywhere, the lowest price getting the largest order and they can't inquire very closely as to what shirts are made of or how long they're going to wear. It's different here. A "Nebraska" shirt is as staple as the Fourth of July and you take no chances when you buy a "Nebraska" shirt. For years we have been selling the best white shirts in the market and selling 'em a good deal less than other stores get for the so-called best. Our prices are staple too-35c, 50c, 70c for the unlaundered, 50c, 75c and \$1.10 for the laundered styles. The best that your money can buy is in a "Nebraska' white shirt. Best muslin. Best linen. Applicants to Work on Tax Lists.

City Treasurer Edwards has more than forty applications on file from men who want to assist in making out the delinquent tax list at 40 cents an hour. None of the parties have been employed as yet. Mr. Edwards says that he finds it difficult to obtain enough men of whose competency he is assured, and he expects to have to put several of the applicants at work on trial and replace them if it develops that they are not adapted for the work. As the time remaining in which to complete the list is so short, it is important that the men who are employed should be first class accountants, and to some extent familiar with the tax lists.
