Water-	Councilmen Following Up the Plans for Lower Broadway.	
n City ter sis- d, 1a.	WICKHAM'S PROMISE CAN BE MADE GOOD	

Material Sufficient to Pave the En- into the financial condition of F. C. Reed. tire City in Sight and There is No String Attached to the Proposition.

Mayor Carson and Aldermen Barstow. Greenshields, Pace and Shubert and City Engineer Tostevin accepted an invitation from E. A. Wickham yesterday to accompany. him to his new gravel pits north of Dig lake for the purpose of ascertaining whether

or not the offer he made to furnish the city free all the gravel required for making a new opvering for Broadway was worthy of consideration. What the aldermen found seemed to more than satisfy their expecta-

tions, and they put in all of the reminder of the day talking about the splendid offer Mr. Wichham had made to the city.

The bank lies alongside of the Northwestern railway tracks, and the gravel deposit D. O. Stuart has been appointed by the reaches to the railway grade. Overlying the gravel bed is a deposit of sand about forty

feet thick. This has been removed, until a space of more than an acre has been cleared off. The deposit is of unknown depth A two-inch prespecting augur was used some-times in an effort to ascertain the depth. It was sent down a distance of sixty feet

and was still encountering coarse sand and gravel. The surface of the bank now is about twenty feet above the level of the illway tracks. A switch could be put in on the grade level and an apron or trestle built to load the cars below by the use of

wheil scrapers. This would reduce the cost of the gravel very materially. Mr. Wick-ham's object in making the offer to the city to furnish all the gravel needed to make Broadway a permanent street is, according o his own statement, to secure trackage at plt and open up the gravel deposits. The offer is so important and generous that there is no question about its acceptance by the city. The more the aldermen consider

the fact the more they are entranced with the idea that in it is to be found the solution of the paving problem of the future. The belief is that with the proper mixture of gumbo earth a coating of several inches over of the old cedar blocks will make streets that will be more satisfactory for all kinds. of traffic than brick or granite pavement. The blocks will make a good under-drainage,

and ns they rot away the little inequalities left in the surface can be filled with more crevel. It will take several years to bring e streets into the best possible condition. will make a street covering that will be faultless for driving in all kinds of weather and yet firm enough to resist the wear of

the heaviest traffic. When packed and thed it will make a bicycle path supefor even to asphalt. The other committees appointed at the spe-cial meeting of the council on Monday night have taken up their work, and it is pertain that they will be ready to report at the next meeting of the council. The aldermen

are anxious to begin the work as soon as possible, to make it certain that the street will be in first class condition by the time the exposition opens.

Fun with Vagrant Electricity. During the rain storm last night an elec tric light wire in front of a clothing store sole agents, Council Bluffs, la.

Mrs. Heed is in the city gathering material to be is one of the parties interested in the case used in the preparation of a new book on the and owing to her illness the case was post-currence question. Etheris is the author of currency question. Echetts is the author of a reply to Coin, under the title "Coin at period until today. Suits have been commenced in the dis-trict court by J. J. Stewart, administra-tor of the estate of Colonel Addison Coch-ran, against a number of persons whose notes were held by Mr. Cochran at the time of his death. The defendants are J. I. Ferron. John Boneberger, J. A. Mur-the General L. Lawrence Cheller During School in Finance," which attracted much attention. His new book will be prepared as campaign literature, for consump especially in the agricultural states, and its design will be to prove that the free ellver argument about the increase in the phy, George A. Lawrence, Charles Durlin, William Stadelman and Brown & Unger. J. B. Matthews, Thomas Tostevin and value of gold, as measured by farm products. is false. The national committee has been Ferry Kerney have been appointed by Judge Smith to admeasure the widow's

interested in the publication, and will circulate R widely. Roberts is now looking up the market quotations given by lows newspapers since the civil way. He is going through the files of papers in the state historical col-lection, with the assistance of a corps of clerks. He says he will prove from these market quotations that the busbel of any staple product of the lows farm has had a remarkable stable value, measured in gold. His work will begin with 1861, before the war-time inflation and the demonstination of silver, and will be carried down to the present. He promises to entirely dis-prove the assertion that there has been a constant depression of the value of farm products, measured by gold, since the deopetization of 1873.

moneclization of 1855. "Taking the twelve years from 1801 to 1873." said Mr. Roberts, "we have a period in which, if ever, prices of farm products ought to be high. That period includes three great wars, our own civil struggle, and

three great wars, our own civil struggle, and the wars between Germany and Austria and Germany and France. And all this was before the demonstration of silver in 1873. Then taking a period of twelve years from 1879 to 1892, after the demonstration of silver, and without the conditions that had existed in the former period, calculated to increase prices artificially, and we find by comparison of the prices that were actually paid for farm products in lowa markets, as shown by the market reports of lows news-papers, that there was a remarkable uniformity of prices during the two periods would stay away from the city. He told the formity of prices during the two periods, court that he had concluded arrangements to go to the Fuget sound territory and would start at once if permitted. He was given permission to go through town for that purpose alone, and orders were given that if he was found upon the streets ar any time that he should be taken into cus-tory time that the should be taken into cus-tory time that the should be taken into cus-tory time that the should be taken into cus-tory the time time the taken into cus-tory time that the should be taken into cus-tory time that the should be taken into custhe foreign market. In 1861 it cost about \$1 to transport a bushel of wheat to one of those markets. Today it costs about 15

cents. The price there has been reduced in this proportion; but the share which the American raiser of wheat has in its value has not fallen in this degree. The fair way is to measure values by the markets of our own state, to which the farmer hauls his products. What does he care for prices in Liverpool, if those in his home market are all right. We will prove that in the markets of lows towns there has been no depreciation, taking the second period of twelve years and comparing it with the first. Since 1892 there has been a denext since issue here has been a be-pression, of course. The republican posi-tion is that it has been caused by the tariff and other matters foreign to the money question I shall not go into the tariff question in my work, however. It

will deal simply with the prices of farm products. While it will be shown that the prices received by the farmer have not depreciated, it is true, that the cost of things which the farmer buys have been going down constantly.

The city ordinance, passed some time ago, compelling the Omaha Street Railway company to replace all wooden poles in the city with ornamental iron ones, became a law yesterday. The company has sinty days within which to comply with the provisions of the ordinance. At a conference held between the street car officials and some of the city officials some time ago it was stated by the representatives of the company that they were willing to replace the wooden poles. were withing to replace the wooden poles rotted out. In that way iron poles would be substituted gradually and at less cost to the company. The council, however, pro-ceeded to force the matter in the boyes that such legislation would bring the com-

pany to time and compel the building of the loop around Thirty third street. An official of the city said yesterday in speaking about this ordinance. "There was

spearing bout this obtainance. There was no public claimor for iron poles and the patrons of the road will not receive a par-ticle of benefit from the change. The re-sult of such ordinances will be that the company will appeal to the courts and the matter will be tied up for two or three years. It is no increment systems to sak years. It is an unnecessary expense to ask the company to go to, especially at this time, when we are asking the company to the compary to go to, especially at this time, when we are asking the company to build the loop and also to extend its line to Fort Crook. I fear now that the building of either line is out of the question. Not long ago representatives of the street car company called at the mayor's office to talk the matter over. At that meeting the com-pany appeared willing to construct the loop if the people wanted it, and suggested a meeting between the members of the coun-cil, the managers of the packing houses in-terested, and representatives of the com-pany. Such a meeting has been postponed until Mr. Cudahy returned from the east. He came home Monday, but now since this ordinance, here been solitowed to get into afordinance has been allowed to go into ef-fect, it is doubtful if such a meeting will ever be heid. The company thought disvorably toward the Fort Crook line. Such a road would have brought this city in hun-dreds of dollars in the course of a year, but with the opposition to the company manifested by the city council, the chances are that the southsiders will get the line out Thirteenth street and South Omaha will hardly know that there is a carrison

Andrew Spence returned yesterday from a trip through the Black Hills country, where he went in the interest of the stock yards company.

It is currently reported that several large outfits in the west have quit the roundup and have turned back to the range the cattle already gathered, because of the prevalling low prices. How generally this has been done cannot be told at this time, but it is certain to affect the receipts at the principal markets to some extent

MATCHES MADE OF PAPER.

The Days of the Wooden Match Said to Be Numbered.

The time-honored scheme of rolling up a plece of paper and using it for a lighter has been utilized by an inventor in the manufacture of matches, says the Philadelphia Record. The invention promises to revolutionize European match manufacturing and is particularly timely, because the wood for this purpose is constantly growing scarcer and more costly. The new mitches are considerably cheaper than wooden matches and weigh much less, a fact which counts for much in the exportation. The sticks of these matches consist of paper rolled together on the bins. The paper is rather strong and porous, and when im rather strong and porous, and when him-mersed in a solution of wax, stearine and similar substances will easily stick to-gether and burn with a bright, suck cleas and oboriess frame. Strips of half an inch in width are first drawn through the combusible mass spoken of above and then turned by machinery into long thin tubes, pieces of the ordinary length of wood or wax matches being cut off automatically by the machine. When the sticks are cut to size they are dipped into the phosphorus mass, also by the machine, and the dried head easily ignites by friction on any surface

Back to Kansas City. vicious kick which caught Mr. Lamb on DES MOINES, July 28 .- (Special Tele-

gram)-George E. Stadden and Mrs. Frances E. Stoll, who were arrested here yester

day on complaint of Mrs. Stoll's hushand were taken to Kansas City today by an ofheer from there. The effort to secure their release by habeas corpus proceedings was given over, as it was found the papers for them were correct in every particular. came with the officer this morning, and de-clares he will send both his wife and Stadden to the penitentiary. He says his wife has squardered \$30,000 for him, and when his money was all gone deserted him. Mrs. Stoll says that her husband has never supported her, and when she could stand it no oncer she sued for a divorce in Kansas City. out the maiter was settled and the suit

withdrawn, Stoll signing an agreement to support her. This he has failed to do. secured a position in Kansas City and lost of trouble her husband made her.

Then Stadden offered to bring her here and secure her a position, and she came with him. She denies any impropriety in their relations, and her story is generally be

lieved by those who have heard her tell it. She is a very handsome little brunette and devoted to her 3-year-old son, who has been with her all through the trouble.

Preacher and Editor End a Word Way JEFFERSON, Ia., July 28.-(Special.)-The

church row at Lohrville, that has been in progress for some weeks between the editor of the local paper, who is a member of the Christian church, and the pastor of the Methodist church, has finally been declared

The preacher conducted a department in the paper and roasted the editor, and the editor replied in kind. Now the minister says in print that he is convinced the department has done more harm than good that it has stirred up strife and discord widened the breach that existed in a small and that it has accomplished no good whatever. The trouble was inrgely over what the preacher termed proselyting on the part of the editor, the former asserting that proselyting was as had as stealing

Rockwell City's New Electric Plant JEFFERSON, Ia., July 18 -- (Special.)-The new electric light plant at Rockwell City is about completed and it is expected the lights will be turned on the latter part of the week. The plant consists of a cor-liss engine of seventy-fice-horse power and a combination dyname of the alternating type, with a capacity of 155 lights. There are to be but four arc lamig, on the business streets, incandescent light of fifty candle power furnishing light in the residence por on of the town. Arrangements are being made to celebrate the turning on of the current the first time if an appropriate manner and with ceremonies of a public nature. Mr. Folsom, formaniy at Eldora, is in charge of the plant.

Iowa Pythians WIR Picnic. JEFFERSON, Ia., July "I&+-(Special.)-KANSAS CITY, July 28 .- Judge Scarritt of The Knights of Pythins spinnic, an event the circuit court decided today that special that has come to be an established feature tax bills issued against property to pay for in northern Dailas and Guilirie counties. street sprinkling or cleaning were void bein northern ballas and Guilfrie countins, will occur Thursday, July 20, at Jamaica, under the auspices of the Pythians of Pan-ora. Yale and Jamacia. The principal ad-dresses will be made by Hon. Edmund Nichols of Petry, Hon. W. M. Narvis of Muscathe and M. T. Finley of Jamaica. Dinner is to be served in the woods ad-joining town, followed by hase ball and other sports in the aftermore. Great crawds city to issue tax bills for that work. He held that the cleaning and sprinkling of streets should be paid for by the city out of the The other sports in the afternoon. Great crowds are expected from all the surrounding towns.

Woman Drowned at Sloux City. SIGUX CITY, July 28 - (Special Telegram.) -With her feet entangled in the weeds at the bottom of McCook lafe, near here, and the upper part of her face actually above the surface, the body of Mrs. Mary Tripp of this place was found late just night. She had been drinking, and is supposed to have attempted to swim the lake, and entangling her feet in the weeds, been held until she succumbed to exhaustion succumbed to exhaustion.

Took Her Friend's Advice. WATERLOO, In. July 28.-(Special Telegram.)-J. C. Cornwall of Jonesborough.

Ark., was in Waterloo today in search of his wife, who, he says, has eloped with John

bell's money was declared forfeited and was turned into the city treasury.

Anticipate a Veto.

In response to urgent petitions the city council at its last meeting ordered electric street lights placed at Eighteenth and W and Seventeenth and M streets. There is no money in the lighting fund to pay for the forty odd lights now in service and not long ago the mayor gave it out that there would be no more electric lights ordered until there was money in the fund to pay for the same. These two lights which were ordered Monday night, were not considered when the yearly apportionment of the levy was made and as the mayor says he is earnest about vetoing such resolutions chances for the lights being put in are slim.

Nothing New in Postal Matters.

Nothing new in regard to the discontinu ance of the street car mail service is known here. Postmaster McMillan expects a telegram from the department today in regard to a temporary contract with the street car people. It seems as though the business men here had done all they possibly could to have the present service continued, and will be a hard_blow to the business interests if the old system of wagon service goes into effect again. South Omaha mer-chants had hopes that Congressman Mercer could do something to prevent the change but it appears that he has not been able to make any satisfactory arrangements.

Put Up the Price of Coal.

The local coal dealers, who have an organ ization of their own, are preparing to fall into line and adopt the schedule of prices adopted by the Omaha coal dealers. There are eleven dealers in the city and their organization is considered quite strong. Only about 500 tons of hard coal was left over from last winter and is now in stock. This was purchased for about \$7 a ton, towards the last of the season, but will be put on the market with fresh coal at the price of It is predicted \$10 a ton. price of anthracite will go higher before the season is upon us.

Locating the Hydrants. The work of the committee appointed by the mayor to visit the fire hydrants in the Third and Fourth wards with a view of hav-

ing the location of some of them changed is blocked by the absence of the contract The water works company kindly of fered to loan the city its copy of the contract, but the offer was not accepted. The city clerk has looked through nearly all of the papers in his office and has not yet found the missing document.

Untagged Dogs to Be Shot.

It is expected that within a few days the mayor will order the policemen to shoot all untagged dogs. There is no money in the dog fund to pay the poundmaster for such work, and the city cannot affor appropriate money from any other fund for that purpose. The mayor thinks the police can do the work without interfering with their other duties and with little or to the city.

Improving South Twenty-Fourth. The commissioners of Douglas county have appropriated \$550 to be expended on South Twenty-fourth street from Q street to the Sarpy county line. It is expected that with

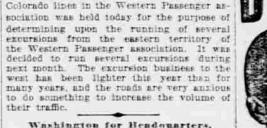

this amount of money the road can be leveled and placed in first class condition. Work with the graders will commence as soon as the telegraph poles, which are now planted in the middle of the road, are removed.

Dressed Meat Business Good

The fresh beef and mutton business at the packing houses has picked up considerably in the inst week or so. Large custern orders are coming in almost daily, which is re-markable considering the hot weather. Export orders are far shead of what they were last year at this time and the government microscopists have orders enough on hand now to keep them busy for a month more.

Magie City Gossip

E. H. VanKirk of Sliver City, In., was at

WASHINGTON, July 28-It is regarded warmington, buy as it is regarded quite likely that the democratic national committee will select Washington for its committee will select Washington for its principal headquarters and have a branch in the west. Senator Dubois of Idaho, it is expected, will be a member of the national executive committee and will have charge of the western end of the campaign will endeavor to keep the money question

to the front and will put an immense force of speakers in the field. All the bolting re-publicans intend to take the stump. Orders a Cut in Local Rates.

ATLANTA, Ga., July 28 .- The Georgia state railroad commission today ordered a general reduction in local rates to conform to the 6 per cent cut on freight from eastern points to Atlanta recently declared by the Southern States Preight association.

Nevada Paper for McKinley,

RENO, Nev., July 28 .- The Reno Gazette, one of the leading papers of Nevada, has

declared its intention to support McKinley and Hobart on the ground that protection instead of allver is the paramount issue of the campulan.

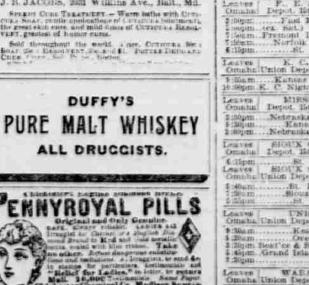

Ex-Governor Anthony's Condition. TOPEKA, July 28 .- The condition of ex-Governor George T. Anthony, who has been ill at Sheidon's hospital for some time past. very weak. He suffered a sinking spell last evening, but later railied.

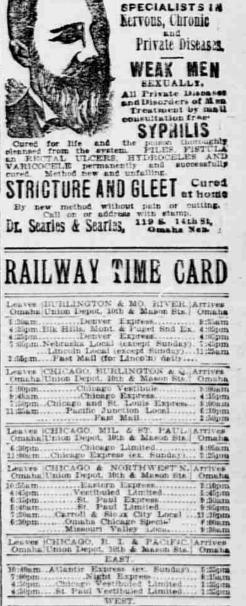

> ON ECZEMIA BABY Grew Worse under Treatment of Physicians. Tried CUTICURA REMEDIES

Great Change in Five Days and To-day is Entirely Cured.

My haby had Eczema in its worst form My huby had Eccent in its worst form, One of the best physicfus in the city attended her, but the continued to get worse all the small. I then got CUTTOTIAN Elevatoria, and in a fee days unlined a great change in her ren-dring. The continued to improve and to-day is ensirely cover, has nice band of huir, and is lively and hearty. I spent considerable money for drugs and mostor's bills, which was useless, J. B. JACODS, 2011 Wilkins Ave., Balt, Md. SPIRIT COR TERATION - Warm baths with Com-
