EXPLAINED THE SILVER QUESTION.

Ardent Follower of Bryan Enlight-ens His Fellows.

The amount of ignorance prevailing among the mass of voters as to the meaning of the term, "Free silver at 16 to 1." is simply startling. The impression which prevails among a very great many of the peo ple who will cast votes for president this fall is well illustrated by an incident which was observed on one of the corners down town where idle workingmen congregate to dis-cusss politics and things generally. A few days ago the usual crowd had gathered corner in question and the discussion at the soon drifted around to the silver question. One or two of those in the pary admitted that they were ignorant of the meaning of the slogan of the silver men, "Free sil

ver, 16 to 1." The man who knows it all was there and he quickly volunteered to enlighten their ignorance. He evinced more or less pity for their benighted condition exclaimed, "Why, that's dead easy,

You fellows don't know where you're at. If we silver men elect Bryan he's goin' to order the government to give every man \$16 for every \$1 he's got now." "That's the stuff!" exclaimed the hear-

ers, and they commenced feeling in their the dollar that wasn't there and hadn't been there since the good democratic times commenced.
