LONDON, Aug. 3 .- The first day in Enged of Li Hung Chang was quiet and his upation was confined to a drive around de park and Pall Mall. He stayed at he for the remainder of the time.

The Times this morning has an article egarding Li Hung Chang's views and the bject of his mission to England. The Chinese statesman considers, this article says, that England could, if she had chosen, ave prevented China's disastrous war with Japan. He, therefore, reproaches England with waning friendship and contends that China was taken by surprise when entirely unprepared for war. He now desires as an vidence of sympathy that England should oncede to China the right to make a substantial addition to the duties charged under the treaty between them upon goods enter-ing Chinese ports. The fall of silver, Li Hung Chang contends, has rendered the rev-enue derived from these duties of half of its original value Japan has already se cured a similar relaxation of the old re-

Li Hung Chang hints, according to the Times' article, that this increase in China's revenues will be devoted to the purchase of warlike stores in Europe.

STATE AID FOR IRISH INDUSTRY Generous Proposal of the Unionist

Commission of Inquiry. LONDON, Aug. 4.-The Chronicle gives a summary this morning of the report of the commission appointed last year, through the instrumentality of Rt. Hon. D. R. The Mc Carthyltes refused to join this commission. which was formed of unionists and Par-nellites, including Dr. Kane, John Redmond. Dr. Joseph R. Kenney and Mr. Gill. The report favors the creation of a departo Parliament for the urtherance of Irish industry, agricultural or otherwise, with a consultative council of the members representative of Ireland's various commercial and industrial interests. The scheme would involve state aid and the Chronicle learns that the government is seriously inclined to take some action in the direction suggested. The department would give bounties to promote agricultural experiments and encourage co-operation in dairy and other industries.

TERRIBLE CRIME OF A MANIAC. Butchers His Entire Family at Mid-

night with an Ax. PROVIDENCE, Ky., Aug. 3.-News reached here at daylight this morning of a horrible family butchery near Clay, eight

Tow Brown, an insane husband, 30 years old, and a farmer, terribly butchered his family, consisting of wife, mother-in-law and baby, last night about 12 o'clock, using an ax. His mother-in-law, Mrs. Cash, was beaten with the poll of the axe, while his wife was chopped with the blade. The baby was beaten in the face and head, presumably with the clenched fist of the in-furiated madman and father.

After the terrible atrocity had been com-mitted Brown went to the house of Mr. Muir his nearest neighbor, and told him what he had done and asked Mr. Muir to shoot him that he desired to die.

While the victims of this madman's rage were not killed outright, no hope is enter-tained of their recovery. Messengers were dispatched to this place for additional surgi cal assistance, who left for the scene of the

BIRMINGHAM, Aug. 3.- The state election today passed off very quietly. A heavy storm swept over northern Alabama at daylight, but when the polls were opened the weather was fair and pleasant and a large vote was polled. The negroes and republicans generally voted for Goodwin, but many of them scratched other fusion candidates and cast a split ticket, Many populists voted the democratic ticket because they regard Johnson as a better silver advocate than Goodwin.

At Il o'clock tonight William Vaughan, chairman of the republican state central committee, made the following statement: The news of the election in this state is meager and nothing like an accurate estimate can be made. But it is evident that the returns will give Joseph F. Johnson, democratic candidate for governor, a ma-jority of some 20,000. Chambers county, with 400 majority for Kolb in 1894, is in the democratic column. Talapoosa county, with 600 majority for Kolb at the last election, is close and may be democratic. Fayette, another populist county, is in the doubtful column, as are also Coosa and DeKalb. In the counties which Governor Oates carried two years ago there have been increased majorities in all so far heard from except two. In the black belt every county will roll up its usual large democratic maority, ranging from 3,000 to 6,000 each. Jefferson, which gave Oates less than 100 majority, will give Johnson probably 500 majority. Green county increases in nearly every northern Alabama county. Chairman Jones busied himself at all spare moments with the mass of mail. An official connected with the committee says that the correspondence is unprecedented.
