There are two or three state conventions still to be held in Nebraska. Wonder if anyone will have the nerve to introduce Candidate Hawley to an audience as the next governor of Nebraska.

Bryan has said that he would do nothing unfair to Mr. Sewall. But Bryan has not said that he would do nothing unfair to Mr. Watson.

The object of our penal laws is both retribution and prevention. A legal execution will serve no good purpose unless the example deters others from wrongdoing.

Strange how dense a railroad man's ignorance becomes when he is asked as a witness before the Interstate Commerce commission to tell what he knows of secret rebating.

Perhaps the Burlington left Omaha off the route of its special excursions for fear the visitors might take with them an indelible impression of that fine Mason street depot.

Bryan was nominated on Friday and started east on Friday to be notified of his nomination. Friday may be his rabbit foot day, but it must be remembered that the election falls on a Tuesday.

The Chicago Chronicle expresses fears that Kansas will maintain its reputation this fall as "the Midway Plaisance of American politics." Not a bad simile. But even the people of Kansas show signs of tiring of the Midway freaks.

How many debts date back before the alleged "crime of 1873"? How many of them were contracted under a regime of free and unlimited coinage? Not one debtor in ten thousand had any privileges when he made his loan that he has not now.

The comptroller of the currency has reported the condition of Omaha national banks, and the figures show these institutions to be sound in spite of business depression. The conservatism which has long characterized the management of these banks is the best guaranty that their patrons can have for the future.

The county commissioners favor the building of a bicycle track along the proposed boulevard to Fort Crook, and it will doubtless be done. This is the first substantial concession to be made the growing army of wheelmen of this city. In eastern cities improved bicycle paths in public parks and along leading boulevards are common, but out here public officials are just beginning to awake to the popular demand for them.

Sioux City has extended the term of the gas company's franchise on condition that the company pave the streets as stipulated under the terms of the original franchise. Here is an instance wherein Sioux City is ahead of Omaha in requiring adequate returns for special privileges granted. The time is sure to come when the people of Omaha will demand that corporations enjoying the use of streets shall pay the entire cost of paving and paying repairs.

Republican ward clubs will find a fruitful topic of discussion in the Crawford county system of direct primary nominations. While it is desirable that the subject be considered in all its phases, action endorsing or protesting against its proposed introduction should not be unnecessarily delayed. Whatever is to be done in this matter by the county and city committees must be done within the next few weeks if results are to be had for this year's nominations.

The railroads entering Omaha are doing excellent service in the matter of advertising the State fair. At St. Paul they are advertising the Transmississippi exposition. They propose to do everything possible to secure a large attendance during fair week. It is simply a business proposition with them, of course, but there is no better means of advertising the features of the week. The Iowa roads can do this city a good turn by advertising the fair week festivities along their lines in western Iowa, from which section a great many visitors may be expected.

Midsummer sports of all kinds at their height. The Rev. Dr. Haggard's new work, "The Wizard," is a story of the past, a story of the present, a story of the future.

Indianapolis Journal: "Where is the silver?" asks the editor of the Chicago Record.

Atlanta Constitution: "I believe," said the candidate, "that my country calls me."

Indianapolis Journal: "Much free silver sentiment out this way?" asked the tourist.

Courier-Journal: "Poor Dick is gone!" He was a devoted cyclist, wasn't he?

Detroit Tribune: "O, you just ought to see the way the silverites are going."

Washington Star: "Is Bryan what you'd call a politician?" asked the rural editor of the Chicago Record.

Chicago Post: "Suppose anything should happen to Bryan," suggested the sound-minded editor of the Chicago Record.

Indianapolis Journal: "What sort of a crowd is this I am to address tonight?" asked the orator, anxiously.
