## CRUELTIES OF THE JAPANESE

Eteries of Barbarons Atrodities from the Island of Formosa.

Saldiers of the Mikado, According to Credible Witnesses, Have Innne gurated a Reign of Terror in Which Blood Flows.

VICTORIA. R. C., Aug. 11 - From far Pormona, where for upwards of a year Japanese troops have been value striving to crush out the seeds of post bellum apposition to Japanese innovations, comes a story which for barbarous cruelty and violation of all ethics of civilization has fortunately few parallels in history, even among the savage nations of the world.

The terrible tale of rapine, murder and wanton cruelty reached here by the steamer Empress of Japan and fully bears out the statement of the eliuation in Formous given publicity by Rev. Dr. Mackay on his return to that island six months ago. Other equally credible witnesses are new the witnesses against Japan and the burden of their arraignment is that, seeing peither fame nor fortune is to be gained in the subjugation of the Formosans by the arts of modern warfare, recognized as legitimate by civilized nations, the agrances propo-ment to the island have embarked in a crusade of blood, their object being to crush out all signs of discontent by, as far as possible, exterminating the native popula tion. In this compaign there were no for-eign powers to make protest, no foreign press representatives to herald to the world the atrocities, the telling of which would bring upon Japan the contempt of an en-

lightened people.

Says the Talanfunow representative of the China Mail: "As a result the policy of extermination has been nealonsly pursued from the beginning of the campaign, and what with the destruction of their crops the burning of their villages, the desecration of the graves of their loved ones, the violabutchery of their innocent children, the people are driven to the last expedients of desperation."
