STORM DAMAGE IS CONSIDERABLE. Inch Glass Broken in the Western

The damage by the hall storm on Saturday vening was much more severe than was thought to be. The business portion of the ty escaped with light damage, and this war lefty confined to skylights and thin panes window glass. The skylights in nearly all the photograph galleries in the city sufthe photograph galleries in the city suf-red hadly. The heaviest of the hall was in he western and southwestern part of town very window on the north and west sides fusion will be extended to the county offices. Keys Bros, carriage factory was broken e power bouse and barns of the Electric company met nearly the same fate of the windows on the south side of adway in Streetsville were smashed, A lian's grocery near Sixteenth street all the large window panes were demolished ntral establishment between 700 and 800 mes were broken, and at his plant on the several hundred panes of glass. The plants were but slightly damaged by the bombard-

many panes were broken out of the building at the Institute for the Beaf. Glaziers and glass merchants were doing rushing business all day yesterday, and he orders were more than can be filled all day today. They estimate the loss in broken all parts of the city at several

ousand dollars. The damage to the Union Pacific Railway company at the transfer depot will amount to several hundred dollars. All of the large ass on the north and west sides of the building was shivered. A good deal of famage was also inflicted upon the passenger coaches in the yards. The Overland passenger train was just on the point of starting when the hall began to smash the indow from the express car to the rear ullman was broken. The train was well iden with passengers, and there was a creat acramble among them to get away from the flying glass. The upholstery if the Pullman coaches was thoroughly water Every car in the train had to be to other coaches. The transfer of the bag gage and and express matter delayed the departure of the train for nearly an hour.

At 6 o'clock last evening several of the res had exhausted their stocks and were unable to fill the orders that came in.

The strongest combination ever played at the Grand Plana is now entertaining the crowds. There was a large attendance afternoon and evening yesterday, and the most conservative and blase people could not withhold their praise. The two great cards are Andy Adams and George W Brummel and Miss Gertie Kimberly, who render the latest songs of the day in a man ner that never tires. Both of these attractions will appear each afternoon and even ing this week, and there will be several other specialties that will be worth the trip to see

South Omaha News.

As an instance of how careless the cit officials were at the time the franchise ! colebration will begin with a commemora-tive religious service in the Marquand the water works company was granted and chapel at 11 o'clock in the morning. Presi- the contract was entered into the following comparison of the records is made. The ordinance granting the franchise says: "The charges for water to be the same as now charged in Omaha." That was in 1887, and according to that record the water works company could charge the 1887 prices for the term of its franchise seventeen years. But the contract in possession of the com-pany reads, for the same prices as it now charges or may hereafter liar services in the city of Omaha." Another point that is in the contract, the company agrees to keep and maintain at the surfaof the ground a pressure of eighty pounds. That refers especially to fire hydrauts. There has not been eighty pounds pressure at any of the fire hydrants for a long time. In the superintendent's office at the stock yards is a self-registering water gauge. On Saturday for form forty to forty-five pounds. Once in a great while the pressure a great while the pressure runs up to sixty pounds, but it is very seldom. There is on point in favor of the company that it will not do to overlook. The pressure is always increased in time of fire. When an alarm of fire is turned in a gong in the Poppiets of the orator and poet, the former being a avenue pump station rings and the enginee in charge sets the big pumps to work and thus helps out the water pressure a great deal. With the big thirty-inch main now in use there ought to be plenty of water to extinguish almost any fire here. But strictly speaking the contract is not lived up to by the company because the eighty pounds pressure is not maintained all of the time.

MERCHANTS OBJECT TO A CHANGE.

Think Street Car Extension Would Take Trade Out of the City. Contrary to expectations there was no meeting of the directors of the Omaha Street Railway company last week and consequently no decision has been reached line, which has a terminus near Sheely, as it would bring a great deal of Omaha trade to them, and that is just the reason versity will confer honorary degrees will be many of the local merchants object to the charged it is asserted that many Omaha people would buy their meats at the packing houses, and then again people inting in the Third and Fourth wards would ride is, however, a farewell dinner will be given to Omaha to purchase their dry goods and groceries. Business here would not be benofited one particle except right at the packing houses. The people would like to see soon, and it probably will be within another

Mayor Says Something Must Be Done

at Once The matter of abating the Mud creek puisance has remained dormant for some time. but yesterday Mayor Ensor said that he was ready now to push the stock yards and pack. Medill summer school, were asked to answer | ing houses into doing something, and he intended to get at it this week. When the question was first brought up an official of one of the nacking communies said that the greater part of the pulsance was traceable to the city. He asserted that it was the wash from the streets and alleys of the city that smelled so badly, and not the refuse from the yards and packing houses. When this statement reached the mayor he at once investigated and now says that it is prepos terous to assert that the washings of the city run into Mud creek. The railroad track roadbed is protected by an embankment so that it is impossible for surface water to run

south into the creek. It has been learned that refuse from all of the packing houses is allowed to run into the creek and also the waste water from the stock yards. Furthermore, it is asserted by an official of one of the corporations, that the city cannot compel the packers or yard company to cover the creek, as it is a nat ural waterway. The stock yards company has a good sewer direct to the river and that can be used by the yards if necessary instead of Mud creek.

Raising Street Car Tracks. The street car company will commence this morning to raise its tracks on the Althe blind. He says that Russia has nearly bright stub line. A stretch of about 400 feet of track will have to be raised, in some places as much as two feet, in order to con acil seminary, Auburfidale, Mass., has form to the grade established. COSTS MONEY TO MOVE LIGHTS. Changes in Location by the City Will Be Few in Consequence,

In the future the question of moving electric street lights will be carefully considered before at order is given for the removal and relocation of any of the lights. Heretofore the councilmen shifted the lights. around pretty much as they pleased, but since the city will have to pay \$70 for every light relocated there will not be so many changes ordered. The electric light company found that it was at considerable expense in moving the lights and recently when the council ordered two lamps moved the company, through its manager, staird that it would have to be paid for the work and the wire med. Members of the council thought the electric light people count to be willing to more the lights for nothing and the matter was referred to the directors of the company. The question was taken up and the decision of the superintendent was suctained. After this removals will be charged for. When the mayor was informed the decision he said that the light would remain where they were, as he would money for such a purpose at this time. It was intended to remove the light from the middle of the L street viaduct to the tutursection of Twenty-seventh and L streets and one from Twenty-first and Brown to Twenty-second and Brown.

AMERICAN IN EVERYTHING **ALWAYS FOR THE PEOPLE**

The Financial Question is an issue between Patriotism and Americanism on the one hand; Revolution and Repudiation on the other. This is a grave crisis in the welfare of our country, and the good citizens of the West must keep in touch with the good citizens of the East. Pennsylvania has long been the banner Republican State. It is staunch and true for Sound Money, and this great cause has no advocate more earnest, none more capable, than The Financial Question is an issue between ble, than
