Later details confirm the statement that the train was detailed by the insurgents who dynamited it and afterwards destroyed the cars completely. The defense made by the second is said to have lasted practically three days, although it is not claimed that the firing continued all that time. The in surgents who attacked the military train were in strong force and it developed later today that they also tried to dynamite the relief train, but without effect. Colone Arjona reports that in retiring with the rescued escort of the train he was attacke by Antonio Maceo and a force of 5,000 in surgents. Artillery fire, however, was opene upon the enemy and the latter retreated The insurgent loss is not known. The Spaniards say that the insurgents did n burn the military train until after the is lieving column of troops had retired.

EACH WAITS FOR THE OTHER.

The general situation in Cuba is about the same as it has been for months past Each side seems confident of tiring the other out and little or no progress is being made by either the insurgents or the gov-ernment forces. The threats of Captain General Weyler to take the field in person against Antonio Maceo have turned out to be nothing more than a rumor. Maceo practically holds Pinar del Rio while Maxim Gomes appears to be doing as he pleases in the eastern part of the island. Advices from San Jose de Los Ramos

province of Matanzas, say that a guerrilla force, commanded by a lieutenant, which force, commanded by a lieutenant, which left the Guerroro plantation where the mcn had been stationed in order to protect the laborers at work, without permission, have been surprised by the insurgents, but the litter were beaten off with a loss of one officer and two men killed and fifteen men wounded ...

The statement published in the United States that Felo Garcia has espured the city of Holguin, province of Santiago de Cuba, is pronounced by the authorities here to be suited of the state of the suborities here to be utterly false and they also deny that there is any truth in the statement that the Otesa's filibustering expedition has landed in Cuba.
