Peature of the Day the New Low Price Record of Pork.

IMPETUS GIVEN WHEAT CONTINUES

Starting Prices for September and December Were Each a Fraction Higher Than Wedness day's Closing Rates.

CHICAGO, Aug. 20.-Pork made a new low mark today. September at one time selling at \$5.50 a barrel. Rumors that orders for gold importation had been countermanded and lower Wall street prices weakened wheat after a favorable opening, the clos-ing prices for September showing a 4c decline. Corn was sympathetically weak and closed to lower. Oats remain unchanged.

The impetus given to wheat by the engazement of gold for importation as rethis morning. The starting price for September and December were each to pe bu, higher than the closing rates of the day before. One of the chief factors of the opening firmness was the strength displayed in the foreign markets. Livet pool was quoted as opening fire at 1-d per ntal advance and London at 5d per quarter higher for American wheat. A paragraph from the Liverpool Corn Trade News was being paraded near the opening which said that the general impression there of the size of this year's American wheat crop was that it would be about 470,000,000 bu and that the general impression there of the size of this year's American wheat crop was that it would be about 470,000,000 bu and that wheat would be about 470,000 bu and that wheat would be about 470,000 bu oxide the corresponding time of the year before. There is still some of that great crop left, but the daily exhibit of the Minneapolis and Duluth receipts will, nevertheless, show a great discrepancy compared with this year's. The two cities received 250 cars today as against 405 cars a year ago. The Atlantic port clearances were equal to 350,000 bu, of flour and wheat together. Closing cablegrams confirmed the strength reported of the foreign markets at the opening but the market, exhibited all its strength in taking the fittle jump it did at the start. After the early advance business got slow and stocks getting weaker there was about as much effort to sell as there had been to buy early and all the improvement was lost. A rumor that some of the gold engaged for importation had been countermanded helped to depress the price near the end. There was a notice able lack of outside support all day and the consequent duliness of trading prevented larger fuctuations than were recorded. September opened about 3,c higher at from 16t to 56ke, gradually weakened to 15ke and olosed steady at 55ke.

Corn was very dull and easiert prices were strong early influenced largely by wheat the crop was hardly so promising as a month ago. But after the first builts the market began to decline. September opened strong at 25ke, and the day in the strength of the trading in the last half hour barely touched 25 ter higher for American wheat. A paragraph from the Liverpool Corn Trade News was being paraded near the opening which

STOCKS AND BONDS. Holders of Scentities Much Disappointed with the Situation. NEW YORK, Aug. 26.—Teday's stock market disappointed the owners and holders of securiwho had ninned their faith to a decided sterday. A further engagement for import to of business of additional Beavy imports impend-WATERMELONS-Per doz. crated according reported resterday had decided that concerted called for in the existing circumstances. As about in similar conditions the street was furnished with a considerable amount of ingenieus but unauthoritative data restarding the prospective important of the yellow metal. In well informed circles the impression prevailed that the imports of gold were for the express purpose of affording much needed financial relief to the mirroantile community. Tare was also a conflict of opinion among experts as it whether the 18,0000 engagement of Mesura Lazand-Freres was or was not a "special transaction. It is unquestionable that many business men may recently found it difficult to secure monetary accommodation, as is evidenced by the surcessive reports of the curtainment of industrial activity. Although not a matter of record, 5 per cent was paid in several instances today for money by merchants, and banking houses reported applications by customers for money wherewith to buy exchange. Conservative merchants believe, however, that most of the weak concerns have already been weeded out.

Transactions in commercial paper were reported at 7 per cent, as against nominal figures of Spitz pr cent quoted yesterday. The market was only moderately active, and prices moved irregularly, with a persistent downward trend. The fluctuations were in many instances quite marked. The traders were bearishly disposed on respond to the improvement on the local exchange yesterday. Herocred further cutting of railroad rates, a stiffening in exchange gesterday for one of the London market to respond to the improvement on the local exchange yesterday. Herocred further cutting of railroad rates, a stiffening in exchange in reserves of the associated banks on Schanday contributed to depress stocks. The opening was quiet and irregularly weak, with the variations in many instances guite and advance of 1 per cent, and decided the general reactionary tendency. Hurtimoton and Mainhatian rose 18, per cent, and decided to the season of the new of a 150,000 gold engagement abroad by a prominent banking iouse

cent. Sliver certificates were steady on dealings of \$15,000. The Evening Post's London financial cablegram says: The activity in the stock markets continues to center in Kaffirs, Germany was buying, but the market closed easier on Paris selling. The other market closed easier on Paris selling. The other markets were featureless and dull, the uncertainty in the American situation paralyzing business. Americans were well under the parity, with no business doing, the disposition here being to regard the salpments of gold to New York as evidence of the gravity of the financial situation in the United States. A large shipment of gold was made today to Monte-video, and in some quarters it was rumored that its real destination was the United States. This, however, is not so, although I gather that £1-260,000 will probably go to New York by Saturday's steamer. The shipments are apparently made by banking houses in the financial syndicate, who probably found inducements on this side of an exchange operation for shipping gold. Five hundred thousand deflars in gold is believed to have been shipped from Paris today. gold. Five hundred thousand dellars in gold is believed to have been shipped from Paris today to America. I cannot absolutely confirm this. The weekly statement of the Bank of Eng-land shows that the coin and bullion have in-creased £255,000, of which £16,000 was gold im-ported, and £190,050 of it from Australia and £16,000 from the continent. South Dakoia Crops.

HURON, S. D., Aug. 30.—Weekly crop bulletin No. 26 of the South Dakon section of the climate and crop service of the weather bureau for the week ending August I: says. The temperature during the week was considerably below the normal. The weather was generally cool, with less than the normal amount of suisibline. Fair to good showers occurred quite generally and in some localities an inch or more of rain fell, but most main reservices.

week, and promise a very good crop, except in localities. Haying continues. The cool weather and rains of the week have kept the prairies, especially the shorter gridges, in green and nutritious condition in most counties. Millet has done well and is rank liquit generally, with full heads. The harvesting of this crop is in progress, and heavy yields are reported except in limited localities. There is some report of fall plowing in localities is the most southern counties, and it is thought that threshing will become quite general this meek. NEW ORLEANS, Aug. 28 -Clearings, \$1,244. Reports as to wheat and outs vary, some counties reporting excellent results while others reporting excellent results while others report fair to very good. While the reneally cool weather during the week was not the most favorable for maturing own, this crop did well and has steadily progressed. In the southern counties much of the early is beginning to dent in many localities, and the later is generally in the roasting car stage. In the central and normer of the warm weather and lack of ample moisture during preceding weeks reducing the earlier is generally in the complaint is not at all general, and the crop is the most promising for years. It agreems that the corn replanted because of work of cut worms is nearly up to the earlier good control of the warm weather and lack of ample moisture during his precision of the composition of the commonish order predominated, but this complaint is not at all general, and the crop is the most promising for years. It agreems that the corn replanted because of work of cut worms is nearly up to the earlier is given the total countries. And the corn replanted because of work of cut worms is nearly up to the earlier in the market was slow to open buyers being determined upon securing a concession, while sitesmen were all pricing their holdings at steady prices. Owing to this difference existing between the buying and sellings interests the trade was slow and draging all the morning. The market was slow to open, buyers being determined upon securing a concession, while salesmen were all pricing their holdings at steady prices. Owing to this difference existing between the buying and sellings interests the trade was slow and dragging all the morning. In the end the beeves about all sold, the best bringing close to steady prices and others going 5670c lower.

About twenty-five loads of cows and helters were on sale road, liberal offerings for this market. The trade on that kind of cattle was more active than on beef steers. cattle was more active than on beef steers, and a good share of the offerings changed hands early. Good butchers stock sold at just about stondy prices, but the common grades were a little easier.

The yards were full of feeders, the fresh receipts being large in addition to the heavy holdings of speculators. Four days of heavy receipts in succession have filled every one up, the cattle coming in faster than they have been going out. On account of their heavy holding speculators were very poor buyers this morning. They appeared to be waiting for the country buyers, a good many of whom were in the sards, to do something first. The market was a drag all the morning, but later on, as country buyers began to take hold, the MEMPHIS, Aug. 26.—Clearings, \$500,270; halunces \$97.961.

STATIONS AND STATE

## OMAHA-ST. LOUIS RATE IS CUT

Packing House Products May Go for Thirteen and a Half Cents.

MISSOURI PACIFIC OUT OF THE WAR

Rate to New Orleans is Thirty-Two Cents, but the Road is Not Making Any Cut on Eastern Business.

ST. LOUIS Aug. 20 .- The Burlington today lowered its rate on packing house product for export from Omaha to the east bank of the Mississippi river to 131/2 cents. The Missouri Pacific has put in a rate on oleo stock and neutral lard, South Omaha to New Orleans for export, of 32 cents. The Missouri Pacific people do not think there is any money in bauling the business at the present rates and do not wish to be drawn into the controversy pending between the lines leading east from the Missouri

Cut in Freight Rates on Packing

House Products Going East. KANSAS CITY, Aug. 20.-The Wabash and Santa Fe railroads today met the 8-cent rate per 100 on lard, tallow, oleo, oil, grease and canned meats from Kansas City to the Mississippi made yesterday by the Alton. The Santa Pe followed suit in part by making the same rate on oleo, olf, lard, stearine and tallow for export and a rate of 1814 cents on other packing house products. This is in the interest of Atlantic against Gulf port shippers and apparently is the beginning of another interesting freight rate war.

Western freight rates are now in a worse condition than they have been for a long time. The fight between the Chicago roads and the Gulf lines for the grain traffic of the transmissouri territory is being waged with great bitterness and at present the Gulf lines seem to be having the best of the struggle. Although rates have been reduced one-half between Chicago and the Missouri river and one-third between Chicago and the scaboard, there is much of the grain going by the New Orleans and the Galveston gateways. The western roads do not at present see how they can reduce rates more without losing money and they are anxious that their eastern connections shall come to their relief. The latter, however, seem to be fairly well satisfied with their action in reducing the rates by one-third and the present indications are that the western roads will be left to work out their salvation in

WILL TRANSPORT SOLDIERS FREE.

Missouri Pacific Makes a Generous Offer for the Parades. The Beard of Governors of the Knights of Ak-Sar-Ben held its regular meeting at the Commercial club rooms Wednesday noon and talked over many minor matters connected with the great parades. Among other things the work of selecting the ushers for the ball was taken up and the selection of them is now under way. They will all be taken from among the well known young men of the ity and it is hoped to have the list completed

n a few days. n a few days.

Notice was received from W.B. Doddridge of the Missouri Pacific that his road would transport free of charge the troops from Fort Crook on the night of the great civic parade and return them on the same terms when the parade was over. The troops had previously consented to come up and under this arrangement it is assured that all of the Twenty-second infantry except the small number necessary to guard the the small number necessary to guard the post will be present and participate in the parade. The board by a unanimous vote tendered its thanks to the Missouri Pacific for its generous offer.

Railroad Valuation Increased.

CHEYENNE, Aug. 20.-(Special Telegram )-Railroad valuation in Wyoming for Births-Anton Inda, 2014 South Twenty-fifth street, boy; Richard Westgate, 4532 today by the state board of equalization over the state tax levy purpose was raised last year's valuation as follows: Union Pacific main line, \$240 per mile; Oregon Short line, \$240 per mile; Fremont, Elkhorn & Missouri Valley, \$300 per mile; Cheyenne & Northern, \$300 per mile. The increase adds \$312,664.50 to the 1895 valuation of railway property in the state and makes the total assessed valuation upon all classes of property \$30,029,704.65, an increase over last year of \$190,765.86. The state tax rate

DENVER, Aug. 20 .- The general agents of the eastern railroads today decided to recommend to their companies a one-fare round trip rate to Denver from Missouri river points and an 80 per cent rate from near points for the Festival of Mountain and Plain October 6 7 and 8.

Notice was received today that the Western Passenger association has granted a rate of one fare, plus \$2, from the Missouri river and intermediate points for the Eisteddfod, and a one-and-a-third rate from St. Louis and Chicago.

Railroad Will Raise Sheep. CHICAGO, Aug. 20 .- The Burlington road is going into the sheep business. It has not been satisfied with the amount of the sheep traffic which it has secured of late and has determined to raise its own sheep and keep them where they cannot be reached by any of its competitors. It has arranged for a tract of isnd along its line in one of the western states, and will stock it with about 10,000 sheep.

The king of pills is Beecham's Beecham's LOCAL BREVITIES.

M. P. Martin was fined \$10 and costs in police court yesterday for an assault

upon a man named Fancy. Mrs. E. A. Husten of Mount Vernon, In., is in the city looking for her 16-year-old son. The lad ran away from home a few days ago and has not yet been located. Mrs. Husten has called in the assistance of the police.

The police have been asked to keep their eyes open for a confidence man who turned a trick on a Council Bluffs merchant Wednes-day. The chap passed a worthless check for \$6 in payment for goods and received nearly \$4 in change.

The chief of police of St. Pau! has asked the local department for the loan of some detectives for service during the week end-ing September 5. As the local force will be needed during fair week Chief Sigwart

"Boys will be boys," but you can't afford to lose any of thera. Be ready for the green apple season by having DeWitt's Colic and Cholera Cure in the house.
