Allen Butler of New York City then took the platform and paid a deserved eulogium to the memory of Edward Otis Hinckley of Baltimore, who for many years was secretary of the American Bar association, and who of the American Bar association, and who died recently. Eulogistic tributes were also made by Henry Hitchcock of St. Louis, Skipwith Wilmer of Baltimore and Moore-field Storey of Boston, after which the life-

FIGHT THE STANDARD OIL TRUST,

CHICAGO, Aug. 21.-The Times-Herald says: Michael and John Cudahy, wealthy packers of this city, have entered into an oil deal of enormous proportions. If their present placs materialize Chicago is to have a new industry, a rival of the great plant of the Standard Oil company, at Whiling,

and the first pipe line from the oil fields to enter its limits. Cudaliys have purchased in Wells and Adams counties, Indiana, the entire plant and wells of the Northern Indiana Oil company. What price was paid is not known, but the purchase was made more a year ago and this fact has only leaked out in the commercial circles of the

Pipe company of Pittsburg a \$500,000 order for six-inch oil pipes. How big the order is may be appreciated when it is known that may be appreciated when it is known that it covers pipes for an underground oil line 170 miles in length and extending from the oil fields to Chicago. With the tankage which they will erect in Indiana and the refining plant and tanks needed at the Chicago end it is estimated that their investment, aside from the original purchase price, will represent \$1.500,000.

Iowa Railrond Commission Renders DES MOINES, Aug. 21.—(Special Tele gram.)-The State Railroad commission today handed down its decision in the matter of the application for a reduction of rates on hay. This has been the most bitterly contested case that has been before the commission for a long time. The board about two months ago changed the classification, so that hay was given a higher rate. At the same time it reduced the minimum carload weight from 24,000 to 20,000 pounds per car. The hay shippers declared the change had ruined the hay shipping business of the state, and that immense ame hay would not all over north and north-western lows if the rates were not re-stored to the old basis. They procured petitions and remonstrances upon the board and a date was fixed for a rehearing. At this rehearing there was a large delegation of shippers and railroad men present. The shippers all wanted the old rates restored. The railroads nearly all opposed the restora-

lecision. It holds that the present classification will prove satisfactory if shippers will give it a fair trial and refuse to change it. They, however, consent to a further reduction of the minimum weight, making it 18,000 for thirty-four-foot cars and grad-uating it down to 14,000 for smaller cars. The shippers generally testified at the hear ing that they were satisfied with the mums and wanted the classification changed There will be a vigorous protest from hay shippers when the decision becomes public.

"CANTON, O., Aug. 21.-Captain Dick Walker, Topeka, Kan.: Dear Sir-The silver club in Canton, about which you write, is composed of populists and democrats and the leading democrats of the city are not in it. The ex-republican mentioned as president, Colonel Holloway, was one of the most enthusiastic McKinley men in the city and during the greatest jollification meetings here after the St. Louis convention rode at the head of each procession escorting the various delegations to Governor McKinley's house. He was an as-pirant for chief marshal of the Escort club, but failed of election. Immediately after that he turned over to the opposition. The silver club at its organization only

claimed to have a membership of 200 to 250 upon the statements of its officials to the reporters of the press associations. When t is remembered that Stark county has a opulation of nearly 100,000 and this city speaking, a sound money nonpartisan rail-road club in this city, composed largely of democrats as well as republicans, signed 300 members the night of organization. The same night the McKinley Marching club was organized with 1,000 members. A poll of the precinct that Major McKinley has lived in since his return from Columbus, which has always been a democratic pre-cinct, out of 340 voters polled showed Mc-Kinley 190, Bryan 150, a republican gain over the combined Bryan vote, including populists and democrats, of seventy-four in a single precinct. The precinct in which Major McKinley lived before he went to combine as two to one for McKinley. to Columbus is two to one for McKinley. The opinion prevails here, and the circumstances justify, that the organization of the Bryan silver club here the week be-bore Mr. Bryan was advertised to pass through this city McKinley's home was a part and parcel of a premeditated pro-gram on the part of the national Bryan managers to make it appear that there was a large defection at McKinley's home. it being an effort to counteract the pells of Lincoln, Neb.
