Senator Butler, chairman of the populist committee, says he has been receiving some very favorable reports from different states where there have been disagreements be-tween the populists and democrats as to fusion on electors. It is now likely that the offer of the populists in Texas of seven of the fitteen electors will be accepted. In West Virginia the committee has about agreed upon a division giv-ing the democrats four and populists two electors. It is also stated that the chances of fusion in North Carolina have improved. It was stated at populist head-quarters that they believe the Idaho fusion will be arranged so as to give the silver republicans a share of the offices and equal interest in the campaign, the electors to be divided among the three parties. The national populist committee, it was stated, will insist upon this and will be joined in it by the democratic national committee.

Prominent Worker in That Class Talks on the Subject. DES MOINES, Aug. 21.-(Special Tele

gram.)-L. S. Coffin, ex-railroad commis sioner, who has devoted the last ten years to philanthropic work for railroad employes, is in the city. He has traveled all over the country this year in the interest of his scheme to build in Chicago a great home for disabled railroad employes. He is probably more widely acquainted with railroad employes than any other man in the country.

"Railroad employes are almost to a man opposed to free silver," said Mr. Coffin. is as true in the west and south as in the east, and it will have a great influence on the result in the election. They would naturally be favorable to Bryan, for he was one of the leaders in securing the passage of the bill to compel railroads to use safety couplers. They entertain a genconventions shall be selected at this con-vention. but they cannot vote for him; they say their wages cannot be increased, because laws in almost every state limit the charges roads can make. But the value of the money in which they would be paid would be re-duced nearly one-half. The fixed charges of the roads must still be paid in gold. The men are studying this question and they are satisfied free compare would be Honors Not Easy for W. L. Green. KEARNEY, Aug. 21.-(Special Telegram.) -W. L. Green returned from Crawford this The regular meeting of the McKinley club inst evening was well attended by people of all parties. The hall had been decorated with flags, bunting and golden rod and large pictures of McKinley were on each side of the stage. Hon, John A. Davies of Plattsmouth was to have been here to deliver an address, but was detained by sickness. This left the entire evening to afternoon, where he returned from receiving the nomination for congress by the populists of the Sixth district. A few of his admirera secured the band and tried to work up enthusiasm and a crowd to meet him at the train, but after trying half a day they suc-ceeded in getting only thirteen to join in the procession and escort him home.

under the auspices of the Bryan club. Ambrose claims to be a silver republican. He eulogized Lincoln, but when he was asked tonight if he ever voted for him he had to acknowledge that he did not. He spent a considerable part of his time in showing why he is not an anarchist. Mr. Ambrosse openly declared that the value of the silver dollar depends not upon its ex-changeability for gold, but upon the flat of the government. He said it is not the com-mercial value of a silver dollar that makes it a dollar, but the value placed upon it by the government. The speaker attacked The Bee for saying that silver is not the money of the constitution, and then ere long led himself in a net by asserting that the constitution did not mention the money metals.
