BRYAN MEN IN CENTRAL IOWA

Careful Canvass of the Situation Not Disheartening to Pepublicans.

GREENE COUNTY AS A FAIR SAMPLE

Pops Make Lots of Noise, but Fall Short in Voting Capacity-Review of Dolliver's District.

JEFFERSON,, Ia., Aug. 27 .- (Special.)-W. Bryan will not carry lows, nor one side of Iowa, if the condition or affairs in this section is any criterion of the situation in other parts of the Hawkeye state.

The assertion of the charman of the demperatic state central committee that the preliminary poll shows that Bryan will have from 30,000 to 35,000 majority in the state has had the effect to produce nothing more serious than a smile upon the face of the average republican. This claim would have a parallel in the assertion of the chairman the republican state central committee of Georgia that McKinley will have 50,000 plurality in that state. It is not unreasonable to assume that the state of affairs in central lowa, where populism flourishes like a green bay tree; where strong, able-bodied men while they go out and save the country with their mouths, is just about the same as in other Iowa. There will be no material republican less in central lows. These are free silver republicans, and there are sound money democrats-plenty of them; but there are not many republicans of the rock-rooted, always-reliable sort who have followed off the Bryan band wagon. They are the kind many of them, who have been known to bott before; who were at one time greenbackers and who always manage to kick at somebody or something connected with the party. The democrats, however, who are for sound money are the old line men who have remained faithful to the party since the days of Jefferson and Jackson, from principle One of the fundamental principles that has been drilled into them from the time of their boyhead is that a government founded upon financial system that contemplates repudiation and a shaky standard cannot endure, and they are solid against the free coinnage of silver at the satio of 15 to 1. of the leaders will vote for McKinley, even ticket; others will not vote at all, while many will place their ballot where it will do the most good. The fact of the matter is that it is difficult to find many old line democrats who will say they are satisfied with the Howell, republican candidate for county at free silver platform and candidate. FIRST NOTE BROUGHT THEM OUT.

The first note of the free silver trumpet ulists of this-Greene county-were up in arms, and shouting the war cry. They east over 300 votes in this county last fall, and considering the population are probably as numerous here as in any section in Iowa Then came Bryan on his triumphal march march to chicago to be nominated. He stopped off in this city for a few hours and The meeting had been advertised far and near knu a very large crowd was present, a large proportion of them farmers. Mr. Bryan led for the farmer; he talked especially for his benefit; told numerous stories to fielde the tollers; reasted the manufacturer and capitalist; drow a terrible picture of Wall street; enleavored to make it appear that it is a contest between the east and the west and of the rich against the masses. During the speech he wiped his tear-dimmed eyes and perspiring face with an immense bandana, which was flourished with dramatic effect. appealed to the patriotism of the audience to pealed to the patriotism of the audience to come to the front and add more millions to the bank accounts of the millionaire min owners of Colorado and other silver produc ing states, utterly ignored the fundamental principles of finance and of sound mone-

tary systems, and hurriedly took his cast-bound train for Chicago. As might have been expected under the practically nothing on the subject, the effect of the speech was to disconcert repub-licans and leave farmers in a state of doubt. corner debate. Sound money men, however, were not asleep. Facts and figures were sought for and found and fallacies met with sensible argument and logic. Then came Congressman Dolliver. The congressional convention was held in this city the latter part of July and Mr. Dolliver non-inated by acclamation. Following the convention he made a speech. It happened to be a populist stronghold. A recent poll of the county by the several recent poll of the county by the several recent poll of the county to vention he made a speech. It happened that a circus was here that day, and 10,000 people were in town. Seven thousand of them went to the circus and Dolliver talked to 3,000. His entire stock in trade was argument and substantiated. facts. He reviewed the whole history of noney-making in this country from 1792 until the present day; compared prices of produce, labor, commodities, ciching, imple-ments and silver prior to 1873, and on up to 1896, and completely exploded every argu-ment Bryan had set up. The populists were on hand in force. Some of the bell sheep had stated that when Dolliver came they would propound some questions to him that would give him a taste of sea sickness, and the populists wanted to be present to re-Joice at his discomfiture. But not a populist or free silver man opened his mouth, notwithstanding the fact that Mr. Dolliver re-peatedly pressed the audience to be perfectly free in asking questions. That turned the tide, and the wave has been growing every day since then. The populist and free silver advocates have concluded that business is of more importance than street talk and

have withdrawn from the field. REPUBLICANS WELL SATISFIED. A rough poll of this county shows that the A rough poil of this coding allowing that deabtful ones will be for Bryan, and that a very conservative estimate of the sound money democrats will be for McKinley. In Carroll county, which has been one of the leading democratic counties in Iowa, giving a majority of from 1.000 up to 1.200, it is said by men who are in a position to know 

Lohrville a few nights ago and scores of farmers who were inclined to free silver pub-liely announced that they would have no more of it and were for the republican ticket. In Crawford county there will prob-ably be a slight republican loss. It was itated in the public press that the Bryan dub of Denison contained more than a hun-lred republicans. After Dolliver spoke there the tide began to turn and many or republicans who had joined the club a misapprehension asked to have their names taken from the roll and a McKinley club was immediately organized and is in a flourishing condition. Good reports come from Boone county that the usual majority for the republican ticket will be polled in November, and in Webster county the reublicans say the majority will exceed that Just where the free silver managers are

going to figure out a loss to the republican ticket of about 90,000 votes over last year, which would be necessary to give the pre-dicted 25,000 for Bryan, does not appear sted 25,000 for Bryan, does not appears year certain that it will not co from this part of the state, and the intense parts of lows to see which locality shall est hold down the free silver sophistries, any part of the state.

CEDAR RAPIDS, Neb., Aug. 27.—(Special.) -At noon yesterday the people in the vi-cinity of Cedar Rapids began to congregate on the streets in anticipation of a repub-lican ratification meeting. At 2 o'clock the doors of Grove's opera house were thrown open and the crowd began to file in, and at 2:30 Judge H. H. Wilson of Lincoln was introduced by Hon. G. W. Brown, and de-livered a most convincing argument in support of the republican platform. The audince was well pleased with the speech and

SOME CAMPAIGN COMMUNICATIONS. Fight in Frontier County.

MAYWOOD, Neb., Aug. 26 .- To the Editor

of The Bee: It is probable that the people

are getting treated to more politics in this

of Nebraska than ever heretofore during a national campaign. Four years ago stern Nebraska had to look out for itself and get acquainted with the run of affairs as best it could. We were considered a arsely keitled portion of the state, and not amounting to much, but when the votes had been counted for two or three elections politicians and officeseekers changed their minds, and now I believe there are more political speakers to the square foot in western Nebraska than there are in the eastern part. The votes are here, too, and on the silver lining in the cloud can be plainly seen, "McKinley and protection, prosperity, an honest dollar and a chance to carn it." The people of western Nebraska will see that the honest dollar and the second of the seco far is retained, so far as they are concerned The people here are beginning to see that there is something vitally wrong with our national existence, and four years of demo cratic rule have put them on a basis of 10-cent corn and 30-cent wheat and 2-cent hogs, and they don't see that enriching the mine owner is going to raise the prices in this list, and, as they are generally producers of these commodities, they are look-ing to McKinley and protection for the cothing cordial. A Bryan and Sewall club trying to be organized here, but the eaders are meeting with poor success, as this is a strong republican portion of the state, and popperats and cast-offs are hard to find, especially in numbers sufficient to make much of a showing A McKinley and Hobart club was formed

SUNDANCE, Wyo., Aug. 22.-To the Edtor of The Bee: I notice in your daily an Rem from Cheyenne, dated August 19, entitled "Job of Wyoming Politicians." Why man is a mystery to me. No one has ever of organizing another district far as I have beard. The legislature of this state in the winter of 1893, organized the Fourth judicial district, and the govunder that law, appointed Hon, W state convention at Chevenne did not nom inate a judge for this district for the very good reason that it was none of its business. Every man of ordinary intelligence ought to know that the several districts nominate the judges, and that a state convention has nothing whatever to do with it. When the proper time comes we will hold a judicial evention for this, the Fourth judicial district, and nominate a judge and proceed to Th elect him at the November election. law in the case to us seems very clear. Ses sion Laws, 1890 and 1891, chapter lavili section 8, page 237, reads as follows: "A the general election held in the year A. D 1896, and at the general election held every year thereafter, there shall be elected be each judicial district in this state one judg. of the district court for such judicial dis-trict." Same section then provides for the Same section then provides for the filling of a vacancy.

There is no effort on the part of Crook Weston, Johnson or Sheridan county to set up any job, but to simply and openly comply with the requirements of the law.

### PART TERRITOR TO THE BORNE BORNE South Omaha News .

Chillian State of the Children of the Children In some tocalities there is complaint of sickness among hogs, the animals showing signs of disease, droop and appear drowsy. It should be borne in mind that the law provides a penalty for the offering of diseased hogs for shipment and the railroad companies are liable to prosecution for accepting or shipping diseased animals. It is of equal importance to shippers to remember that government inspection at all of the stock yards is rigid. All animals showing signs of sickness or having contaglous or infectious diseases are condemned by the government, entailing a loss to the shipper or owner. The object of the government inspection is not only to prevent diseased or unhealty animals from entering into the meat trade, but the rules are such as to prevent as much as possible the spread of contagious diseases. Hence the stringent regulations against shipping diseased animals from one point to another.

### FAVOR DIVIDING THE WARD, Present Plan Appears to Be Ac-

ceptable to All. A great deal of pressure is to be brought to bear on members of the city council in the matter of dividing the First ward, as it appears that a majority of the voters in the ward favor the division. Those who have the petition in charge are obtaining all the signatures possible, and it is thought that nearly all of the voters will sign. The dividing line now proposed, Twenty-fourth street, appears to suit all concerned. Heretofore when attempts have been made to divide the ward it was always near election and politics entered into the deal to such voters appear to be united regardless of party, and the project has some chance of being carried out. Plenty of men can be found who will be willing to serve the city as councilmen without salary until the next election. This fact is made prominent, as ome persons would not sign the petition if they thought the city would be put to additional expense at this time.

Took a Trip Through the Sewer. Yesterday afternoon Councilmen Bennett. Vansant, Hughes, Schultz, City Attorney Montgomery, Street Commissioner Ross, City Engineer Beal and W. P. Adkins made trip through the stock yards sewer under the guldance of J. S. Walters, assistant superintendent of the stock yards company. The company furnished the party with rubber boots and coats, and the investigation was a most thorough one. The object of the trip was to see just who was to for the foul matter which is sent into Mud creek. The stock yards portion of the sewer was found to be clean, and the water running through it was the overflow from the watering troughs in the cattle pens. The committee will make a report to the council

Manager of One of the Big Cattle Companies Talks on Prospects. George W. Baxter of Denver, territorial covernor of Wyoming under Cleveland's first administration, was in the city Wednesday evening. In answer to a question Mr. Baxter stated he was paying very little atten-

tion to politics at present, as private bus-

ness occupied all of his time. Mr. Baxter is the manager of the Western Inion Beef company, one of the largest, if not the largest, cattle company in the country. In regard to the outlook for cattle Mr. Baxter said: "Our company will not corn-feed any cattle this year. We have one of the largest and best equipped feeding establishments at Neligh, in your state, which is to be found anywhere in the country. For many years we brought cattle down from the range and fed them there during the winter; but we'll not do so this We do not see any money in it, even with the enormous corn crop up in that country and the cheap corn likely to result. We have leased the plant to our local

manager there."
"You intend, then, to sell your cattle lirect from the range"."
"Yes, what we sell of them, but it is likely we will take chances on the prices another year and carry over a large portion of them. It will cost us comparatively little to carry them over on the range, and we can at

least hope for better prices next year." Digging in Depot Rules. Depot Manager E. Haney, Ticket Agent Fonda and other employes around the union depot became much excited yester-day at the appearance of a gang of workday at the appearance of a gang of workmen, who after circling around the foundation of the contemplated depot structure, work upon which was stopped three
years ago, pulled off their coats and used
their shovels assiduously among the rules.
Word was passed along that the city and
the ruliroad corporations had at length
come to an amicable agreement and a
new depot was soon to be a reality. The
hopes of the crowd of railroad men and the
idle sight seers who collected on the viaduct were doomed to disappointment. The
neen were only detailed to clear the refuse from an unused track, which is to be
used by the Union Pacific suburban trains
during fair week.
