

TELS BY TROLLEY CAR

Does Out Among the Farmers to Capture Their Votes.

KS AT A PICNIC AT KNOWLESVILLE

Claims That a Man Who Holds a Mortgage Will Be Benefited by a Cheapened Dollar—His Voice is Hoarse.

KNOWLESVILLE, N. Y., Aug. 28.—The Syracuse speech William J. Bryan read that few of the people had money high this year to visit a presidential candidate and it seemed odd that he should have endeavored to go to see Bryan. In pursuance of this policy Mr. Bryan left Buffalo by trolley this morning and began a two days' campaign among the cities of northern New York.

At Tonawanda there were gathered 200 or more people when the car stopped in the city of the town and Mr. and Mrs. Bryan, standing on the platform shook hands with the local country crowd. Mr. Bryan spoke briefly, his voice in its hoarse and ailing condition, and while of the week's visit.

At Chicago platform, while it was written and adopted by the democrats of the city and south. It simply reasserts the policy first taught by Thomas Jefferson and the people, and the democracy upon which the democratic party must always be based. It is a platform of principles from beginning to end, and the democracy is a platform of principles. The Chicago platform simply reasserts the fundamental principle of democracy. The note of the Chicago platform is found in the declaration that men and women are created equal, and that, therefore, citizens have the right to appropriate to the property of the people of the country. The platform should be made that the states and the people should be the fruits of the toil of the many. That the people are the only ones who should be benefited in the enjoyment of the fruits of the earth, but that no man should be enriched by the fruits of the earth, and which is taken from him by the laws of the country. The reason why those who support that platform is because it is the only platform that is not made for the rich, but for the poor. It is not made for the rich, but for the poor. It is not made for the rich, but for the poor. It is not made for the rich, but for the poor.

DECLARES FOR A DEMOCRAT

Democratic Convention Settles the Aspirations of Republican Free Silverites.

POPULISTS ALSO GIVEN THE GO-BY

Harry Miller Turned Down as Chairman of the County Central Committee—Executed by C. J. Smyth.

The democratic and populist county conventions met in Omaha yesterday to select delegates to the congressional conventions. They accomplished this successfully, and incidentally they arranged matters very nicely for a real readable time when the two congressional conventions endeavor to agree on a fusion candidate today. The populists had an unmistakable impression that they were to be used to pull democratic chestnuts out of the fire, and there were strong indications of a tendency to break over the traces.

The democratic convention declared that the candidate must be a democrat, and thus kicked out Harry Miller. The populist convention declared that the candidate must be a democrat, and thus kicked out Harry Miller.

JUDGE VAN WAGENEN'S POSITION.

SIOUX CITY, Aug. 28.—(Special)—The long time leader of the populist forces in this part of Iowa is just now furnishing the sound money people their best campaign arguments.

BABY DEATHS MULTIPLY.

Tiny Stomachs Give Out, Diarrhea Follows.

Utmost Strength Needed to Withstand Heat of August.

Lactated Food Keeps Them Sturdy, Well-Fed and Steadily Growing. These feverish days and nights make it a question of life and death with the babies. It cannot be impressed too often nor too strongly upon parents that August is the most deadly month for children, especially for those under 2 and for babies going through their second summer, and that now is the time when young children need the most wholesome, nourishing and palatable diet that can be prepared for them.

Lactated food is recognized all over the country as the most nourishing, strengthening, easily digested and palatable food that can be given the baby.

Hot weather must not be allowed to weaken the baby's digestion and prevent its eating heartily. Many parents, knowing

REMEDY FOR FINANCIAL ills. Adams County Farmers Listen to HASTINGS, Aug. 28.—(Special Telegram.)—Peter Jensen spoke in this city this afternoon to a large crowd of Germans from Adams county. Mr. Jensen addressed the Germans in their own language and devoted most of his time to the tariff, which, he said, was the really important issue.

SAVED FROM CHOLERA INFANTUM. The vital importance of keeping baby abundantly nourished in hot weather force the child to take more food than it can assimilate, or food that is ill adapted to hot weather feeding.

High temperature, with such improper feeding, brings cholera infantum, diarrhea and convulsions. Mothers who feed their children on lactated food will have the comforting feeling of having done everything possible for insuring baby's health, growth and lasting happiness.

Lactated food is the happy achievement of a long desired substitute for mother's milk. It is known to invariably make firm flesh, a clear skin, bright eyes and to strengthen the child's body so that diarrhea, cholera infantum and exhausting summer sickness do not catch afoot. Lactated food babies are rosy specimens of genuine fun-loving, noisy children, that develop strong physiques, with large bones and muscles.

The only assured safety for pale, weak, sickly babies in summer is for mothers to stick close to a diet of pure lactated food. The danger of overloading the tiny stomach, and the consequent diarrhea—nausea and vomiting—do not exist in hot weather. Lactated food is the one perfect substitute for healthy mother's milk. Specialists in children's ailments present a unanimous recommendation. They all agree that lactated food is the only safe food for babies.

See Mrs. A. Vreeland of Windsor, Conn., has the same reason to bless lactated food, that thousands of other mothers have. She writes to the proprietors of lactated food: "I send you herewith picture of my baby, Viria Roberta Vreeland, who has been raised on Lactated food. My baby is healthy, fat and happy. The doctor and druggists, and I saved her life. She was very sick with cholera infantum, and this was the only nourishment that she would take. My baby now weighs 26 1/2 pounds. I can gladly recommend lactated food to any mother."

Send your photograph of your baby to the proprietors of lactated food. We will send you a photograph of our babies and a list of the names of other mothers who have saved their babies' lives with lactated food.
