CONDITION OF OMAHA'S TRADE

Business in a Jobbing Way Gives Promise of Some Improvement.

MAIL ORDERS ARRIVE FROM THE COUNTRY

Local Retall Situation Continues Un satisfactory So Far as Volume of Business Is Concerned South Omaha Shows Improvement.

While an air of quiet has pervaded most All lines of business during the past week there are unmistakable signs pointing in the direction of improvement so far as the jobbing trade of the city is concerned. The retail trade of the state has been buying as the goods were wanted and now the season is so far advanced that if there is to be any business at all this fall it is time they were preparing for it. On that account and for the further reason that the crops of the state are assured country merchants are commencing to orler goods a little more freely. Most job bing houses report a considerable gain in the volume of sales the past week, and, as a matter of course, all are expecting a very large number of buyers in during the coming fair week. One indication that trade is improving in the country is the fact that mail orders are commencing to arrive, showing that the merchants are in peed of goods and that their requirements are so urgent that they cannot await the arrival of the traveling men to send in

arrival of the traveling men to send in their orders.

Conversations with prominent jobbers during the past week bring out the fact that a better feeling is prevalent among members of the trade and that the abundant crops have reassured them. In spite of low prices on leading farm products they anticipate a considerable business this coming fall and winter.

It would appear that there is a little better feeling all over the west and south and that the situation in Omaha is not peculiar to this locality. It must not be understood, however, that what is regarded as a boom has set in, as such is not the case. There is simply a slight change, but as it is a change for the better, it is gratefully received.

fully received.

The local retail trade continues very dull in practically all lines, but as a matter of course, merchants generally are anticipating a good out-of-town business during fair week, which will make up for some of the losses of the past month or so.

OMAHA FURNITURE FACTORIES.

The business of manufacturing furniture is quite well represented in Omaha in spite of the dull times, though it has suffered a shrinkage like every other branch of manufacturing. The loss of crops in Nebraska in 1894 compelled the furniture people to look for other fields, as furniture is generally classed as a luxury, and one that is not likely to sell very freely in times when money is scarce. The result has been that Omaha furniture has found its way all over the western states as far as the Pacific coast, but while reaching out for new fields the manufacturers have not lost sight of nearby territory. Naturally enough there has been a good deal of curlosity on the part of manufacturers as to the actual condition of the retail trade in the country and the future prospects. To settle this question I. G. Doup has sent out a large number of letters, containing questions, and blanks for answers, to the furniture dealers of Nebraska and western lowa. About 100 merchants have responded, and their answers are interesting, as showing the situation in the country. In regard to crops the most of the corree losses of the past month or so. OMAHA FURNITURE FACTORIES. sponded, and their answers are interesting, as showing the situation in the country. In regard to crops the most of the correspondents report corn as averaging forty to sixty bushels per acre. In a few localities the estimate is as low as twenty bushels, and in the vicinity of Culbertson the crop was practically a failure. A correspondent at Lexington, in Dawson county, reports a recent hot spell which did a good deal of damage, so that while some farmers will have fifty to seventy-five bushels, others will have little merchantable corn. The irrigation system proved a great success and all farmers who irrigated their fields had thirty to forty-five bushels of wheat per acre, and of corn about fifty-five bushels per acre.

wheat per acre, and of corn about fifty-five bushels per acre.

The oat crop, according to reports, was rather spotted. In the different localities the estimate placed upon the yield was all the way from ten to fifty bushels per acre, but in a good many sections the crop was poor. Thus, Modale, Ia., reports the oat crop as no good, Malvern as not good, Superior, Johnson, Rising City, Odell, Blue Springs, Culbertson, and some other Nebraska

retail furniture business has been very dull in most all sections of tributary territory. The present condition of business is generally given as slow or dull. Some go on the theory that no improvement may be looked for until prices on farm products advance, which would give farmers some money to spend upon furniture and other necessities. On the other hand quite a good many merchants anticipate improvement after election, while others think that better times will come when the corn is in the cribs. will come when the corn is in the cribs. Some, looking through darker glasses, predict dull times in their department of trade until the coming of a new year. SOUTH OMAHA LIVELY.

The past week has witnessed an active business in the live stock market. Receipts of all kinds of stock have been liberal and the demand has been fully large enough to absorb everything coming forward.

The most of the cattle coming are feed-The most of the cattle coming are feeders; that is, they are range cattle, which are being sold to the farmers to be taken out into the country and fattened for beef. Thus far, owing to the difficulty of securing money. Nebraska farmers have been taking few cattle, a considerable proportion of the cattle sold being sent to eastern feed lots. Unless the money stringency lets up a little later in the fall, the supply of comfed beeves available for this market next winter and spring gives promise of being light.

OMAHA GENERAL MARKET.

Condition of Trade and Quotations on Staple and Fancy Produce. The egg market made quite a spurt the past week, but settled back a little at the close. The week closed with a large supply of

poultry on hand and a lower market.

According to Chicago Produce, experts of butter from this country are certainly encouraging at present. It is estimated that this week's move-ment abroad, together with that of last week and the week before, will aggregate 40,000 tabs, besides the shipments that are going by the way of Montreal. A good deal of the goods sold in Chicago for direct expert go through Canada, because at certain times there are better re-frigerator accommodations from that point than from New York. rom New York.

The country can spare the butter and it is to e hoped the export trade will keep up. Quota-

APPLE CROP OF THE UNITED STATES

Large in the East and Small in the West, but Bigger Than 1895. In its issue of this week the Orange Jude Farmer presents the result of its extensive in-vestigation regarding the apple crop in the United States and Canada. It finds the crop unevenly distributed, in a general way the con-ditions of tast year being reversed. Where unevenly distributed, in a general way the conditions of last year being reversed. Where there was a large crop in 1856 there is this year but a small yield, while the districts of failure last year have this season an abundant crop. All indications now point to a total crop probably somewhat larger than that of last year. The crop last year was largely in the west and south, where summer and fall fruit is mainly grown and where facilities for taking care of the wister fruit are poor. On that account much was wasted, rotted in orchards, was fed to bags and went to the cider mill, so that the commercial supply was by no means in keeping with the large aggregate product. This year the heavy crop is in the north and east, where orcharding is conducted on business principles and where there is every disposition and facility to take care of the fruit. On this account even if the total production be no larger than last year the resulting commercial supply of apples will be considerably larger. The present returns show a nearly perfect prospect in New England, a full crop in the apple districts of New York, unusually good in northern Ohio, but varying in the central and southern portions of that state. Reports from Michigan indicate never a larger crop or better quality, the same being true to a less degree of Ontario. The Indiana crop is spotted and short. Illinois trregular, a rather poor outlook in Iewa; Missouri, trees resing and the Kanass crop smaller. The shortage abroad is serious and there will be a heavy expert demand, but it is still impossible to forecast prices. It seems wise on general principles to work off fail varieties freely whenever there is a fair prospect for winter apples.

Liverpool Markets.

COMMERCIAL AND FINANCIAL

higher. The weather in the northwest was favorable for the completion of the spring wheat harvest and a prominent elevator manager was reported as saying that owing to the threshing returns in South Dakota showing better yields than expected his previous estimate of 30,000,000 bu, for that state would have to be raised. The local crowd was also evidently apprehensive of the effect of an unfavorable bank statement from New York, and prices were pounded down to 604c. The bank statement was received and was fully as bad as anticipated, but its effect had already been discounted and no further decline followed. Chicago receipts were 228 cars, only four of which were contract—and those been discounted and no further decline followed. Chicago receipts were 228 cars, only four of which were contract—and those were all spring wheat, none of the red winter grading high enough for delivery on contracts. Minneapolis and Duluth received 607 cars against 732 cars a year ago. Argentine shipments for the week were 24. 607 cars against 732 cars a year ago. Argentine shipments for the week were 24. 600 bu. Near the close it was reported that the total wheat taken here for export was 180,000 bu. Sold there for export and St. Louis wired that 64,000 bu. of No. 2 hard winter wheat had been disposed of at that point to exporte ers. The clearances from the Atlantic ports for twenty-four hours in wheat and flour were equal to 700,000 bu. While the traders were discussing the export business a few of the heavy operators who had bought puts made a raid on the market and succeeded in getting this price down a point, at which the wheat was delivered to them. December, which on the heavy export trade had recovered from 60% to 60% to 60% broke on the attack to 60c and closed at 20% c.

Corn was quiet and ensy, largely influenced by the weaker tone in wheat and by the favorable weather for maturity of the crop. The business done was not heavy and change in prices was confined in the end to % reduction. September opened 4c lower at 20% to touched 20% c and closed at 20% c.

Business in oats, generally speaking, was rather quiet. The feeling had a suspicion of firmness early, but the range of prices was very narrow and at the close the tone was easier. September opened unchanged at from 16% to 16c, sold at from 16% to to 15% to 16c, and closed at 20% c.

Business in oats, generally speaking, was rather quiet. The feeling had a suspicion of firmness early, but the range of prices was very narrow and at the close the tone was easier. September opened unchanged at from 16% to 16c, sold at from 16% to to 15% to 1

was easler. September opened unchanged at from 18½c to 16c, sold at from 16½c to 16½c and closed with sellers at 16½c. The bulk of the business was in the way of

exchanging.
Only a moderate business in provisions Only a moderate business in provisions was reported, chiefly in the way of transferring contracts. Offerings were somewhat limited and the demand was moderate. The feeling throughout the session was heavy in sympathy with the corn market. Closing prices, however, showed but little change. September pork closed unchanged at \$5.62\foxup_5. September lard, unchanged at \$3.35. September ribs, 5c lower, at \$3.20. Estimated receipts for Monday: Wheat, 250 cars; corn, 780 cars; oats, 418 cars; hogs, 25,000 head.

STOCKS AND BONDS.

Covering of Short Contracts by Professionals the Feature, NEW YORK, Aug. 29.—The principal motivpower in the stock speculation today was the covering of short contracts by the professional dealers, caused by the improvement in the financial situation, based upon the gold imports. News of further engagements today brought the aggregate, including actual arrivals, to \$12,850,600. The bank statement, as on the week previous, was much less unfavorable than had been anticipated, the reserve showing a decrease of less than \$5,000,000. The exhibit caused something of a conflict of opinion among experts. A slight gain occurred from the increase in the circulation from the gold imports, and a fairly large sum was recovered by the banks direct from New Orleans in payment of advances on Sugar bounties. Then again the shipments of currency to the interior, which had been very heavy in the first half, fell off very considerably in the last tiree days of the week. The exhibit shows that the banks are continuing to exercise great vigilance in strengthening their position. The foreign trade statement for July shows very favorably the exports of merchandise increasing \$11,173,145, and imports decreasing \$21,098,080, as compared with the same month last year.

The publication of the statements referred to encouraged the buils to bid up prices in various parts of the list, with the specialties the chief favorites. A strengthening influence was imparted also by support, believed to be from insiders, in the Gould and Vanderbilt shares, and offset partially the effect of some of the less antisfactory traffic returns presented. The closing was at the top level, with fractional gains general. The dominating factor in the week's stock market was a demoralized condition of the foreign exchanges, operating to cause import orders for gold on a large scale, the aggregate engagements up to the close of business footing nearly \$11,000,000. Double have been entertained as to the legitimacy of the break, but the low prices for grain and the severe cuits in transportation rates undoubtedly favored the execution of very large sales to Europe and facilitated this decline in exchange.

The point has also been cagently made that, as the balance of trade is now largely in favor of cial situation, based upon the gold imports. News of further engagements today brought the

depressing influence upon exchange has been exerted by stiff rates for money. The successive announcement of the amounts of gold in transit stimulated buillish sentiment toward the close of the week, and material gains over the early low level resulted.

The drop in exchange was to the lowest points reached since 18th. Fosted quotations also underwent sharp changes. The call motey market jumped to an extreme 15 per cent, but later receded to 5 per cent on heavy offerings of local and foreign funds, and closed at the legal rate, as compared with 3 per cent last week. The market in general displayed considerable irregularity, owing to the varied influences at work, but the net results were sharp gains, in contrast with the early depression on account of the unfavorable mercantile situation, discouraging traffic returns and stringency in money.

An advance in anthracite prices ordered for September 1 had a stimulating effect upon the coalers, while the depression in iron and steel was reflected in material declines in the prices of stocks of companies affected. The bond mar-

ket was quite active dulay, speculative issues being specially strong. Sales amounted to \$80,-cop. During the week the suarket was very weak, many stocks declining. Sales were \$3,313,000. Government bonds were steady on moderate rales. Sliver certificates were dull, with sales of \$3,000.

Wheat Was Staggered by the Small Advance at Liverpool.

THAT CEREAL STARTED QUITE EASY

Apprehension Over the Unfavorable Bank Statement from New York Quite a Factor in the Trading.

CHICAGO, Aug. 29.—Wheat was staggered by the small advance at Liverpool following yesterday's bulge here and in spite of the generally bullish nature of the news of the day December closed at a loss of a full %e. Corn and oats and provisions were in the main heavy all day, but showed very little price changes at the close.

Wheat started easier than it closed yeaterday, December opened at from 60%c. Friday's latest trading having been at from 60%c. Friday's latest trading having been at from 60%c. The decline was partly due to the meager response of the foreign markets to the substantial advance made here on the day before. Liverpool only met the 1%e per bul bulge here by a rise of 1%d per cental, except for wheat and in loss verying from 80.6% to \$100.0% and in loss verying from 80.6% to \$100.0% and in the sport, which was ½d per cental higher. The weather in the northwest was favorable for the completion of the spring wheat harvest and a prominent elevator manager was reported as saying that owning better yields than expect for wheat and harvest and a prominent elevator manager was reported as saying that owning to the fereign and a prominent elevator manager was reported as saying that owning to the residual provisions were in the completion of the spring wheat harvest and a prominent elevator manager was reported as saying that owning to the residual provisions were in the northwest was favorable for the completion of the spring wheat harvest and a prominent elevator manager was reported as saying that owning to the effect of an unfavorable bank statement from New York and prices were large were the closing quotations on the leading stocks of the New York exchange to the effect of an unfavorable bank statement from New York and prices were large were large to the contraction of the effect of an unfavorable bank statement from N

Transcontinental Bicycle Race is Diverted from Its Course. DENVER, Aug. 29.-A special to the Times from Ogden, Utah, says: The package being transported to New York from San Francisco by bicycle, in the Examiner-Journal transcontinental relay race, was interrupted at a point east of this city early today and spirited away through the mountains toward Echo, forty miles east on the Union Pacific, to the great disappointment

in waiting to take the package to the capital for the governor's signature. Arrangements for the race through Utah were in the hands of a Salt Lake man, who laid out a route west of the Great Salt lake across the desert from Terrace, Southern Pacific, to Salt Lake City, leaving Ogden off the route. The Ogden wheelmen organized a volunteer division to carry a duplicate package north of the lake through Ogden and undertook to deliver it Echo six hours ahead of the Salt Lake

of a long line of Salt Lake riders, who were

A heavy rain Thursday made the desert route impassable and the Examiner manager decided to change the route, having the riders go through Ogden to Salt Lake and then back to Echo.

At Terrace a collision occurred between the rival ilders. Ther was a gun play, in which the assembled cowboys participated with the result that the package fell into the hands of Ogden riders and was landed at Echo at 11:22 a. m., ahead of time, leaving Salt Lake City high and dry. Threats were made to send the riders to the penitentiary for interfering with the United

The relay is ahead of time, however, and the manager is therefore in a happy frame of mind in spite of Ogden's coup.

FRONTIERSMEN TO FIGHT BANDITS.

United States Marshal Takes No Chances with Federal Troops. SILVER CITY, N. M., Aug. 29.—Owing to the roughness of the country, United States Marshal Hall has deemed it better to rely upon experienced frontiersmen in the attempt to capture the bandits entrenched in Skeleton canyon, near the New Mexico line. and has recruited sufficient deputies to make an attack without the assistance of troops. which have been ordered to return to Fort

Bayard and Fort Grant.

Marshal Hall and force will reach the stronghold of the robbers tonight and expects to attack it early tomorrow morning, according to present plans. It is now definitely known that the leader of the bandits is the notorious George who headed the band which held up the Southern Pacific train near Stein's pass, in this territory, about one year ago, and who escaped from the Colorado authorities. It is said that the reason the robbers are remaining in the canyon is to care for two men who were wounded in a

WEPT LIKE A CHILD AT THE NEWS. Grief of a Man Over the Death of Wife and Children.

KANSAS CITY, Aug. 29.-Charles W. Green, traveling passenger agent of the Big Four railroad, reached here this morning from Denver. Friends from the city had gone to Topeka to meet him, and broke the news of the terrible loss of his family to him as gently as possible. Green was over-come by the blow and wept like a child when told of the destruction of his loved ones. He said he could understand no reason for the

act having been committed.

There are no new developments in the case, and the supposition expressed yesterday, that Mrs. Green while temporarily deranged had killed her children and then herelf, is still adhered to. Bank Forgers Sent Up for Life.

SAN FRANCISCO, Aug. 25.-Carl Becker

and James Creegan, the Nevada bank forgers, have been sentenced to life intprisonment by Judge Waltace. Becker, Creegan and A. H. Dean concocted a scheme to rob the Nevada bank. They raised a draft drawn through the Bank of Woodland from \$12 to \$22,000. Dean cashed the check to rob the Nevada bank. They raised a draft drawn through the Bank of Woodland from \$12 to \$22,000. Dean eashed the check at the Nevada bank, where he had a deposit, claiming to be a broker. Becker is said to be the most skillful forger in the country and Greegan was the capitalist who furnished the money with which to operate.

Wealthy Woman Accused of Murder. KANSAS CITY, Aug. 28.—A special to the Star from Perry, Okl., says: Mrs. J. C. Cattle, Hogs, Sheep, Horses Star from Perry, Okl., says: Mrs. J. C. Cagles (formerly Madden) and her son, Charles Madden, have been arrested southeast of Perry by a deputy marshal from Parls, Tex., on a charge of murder committed near Caddo, I. T., several years ago. A warrant was also issued for the arrest of another son of Mrs. Cagles, but he has so far cluded the officers. The alleged crime is the murder of a wealthy man named Jeffries and it is charged that the Maddens, with the assistance of their mother, killed him for his money. Mrs. Cagles is a widow and wealthy. The arrests have caused much excitement. The official number of cars of stock

Forest Fires in Oregon.

PORTLAND, Ore., Aug. 29.-Forest fires are raging between Oak Point and Eagle Cliff, on the Washington shore of the Columbia river. An area three miles square has already been burned over. It is reported that dozens of cattle bave been burned, one rumor placing the number at 200. Many millions of feet of lumber have been burned, estimates running as high as 20,000,000. Benson's logging and lumbering camp, with all the buildings, was destroyed. Many animals dropped dead from the excessive heat

Methodist Pastor Expelled. DENVER, Aug. 29.-The Colorado Methodist Episcopal conference has expelled Rev. F. F. Passmore from the ministry because he accused Bishop Warren with being in league with saloon keepers and gamblers. Mr. Passmore takes the ground that in voting or working for republican or democratior working for republican or democratic tickets a minister of the gospel practically leagues himself with the saloon element, and his position is against that canon of the Methodist discipline which asserts that the for the last day of the week, the fresh receipts amounting to 1,011 head, as against 2.217 Saturday a week ago. The total cattle receipts for the week foot up 16,378, as against 16,092 for the previous week.

While the total receipts today were the smallest of the week, there were more good cornfed steers than have been seen in the yards for a long time. There were not only more, but better cattle. One bunch sold up to \$4.35, the best price paid in some time, and others brought \$4.39 and on down to \$4.10, and under. For some little time back there has been such a light run of fat cattle that the packers are hungry for them all the time and when a few loads of good cattle were offered today they met with ready sale at good, strong prices. licensing of the liquor traffic is a sin.

Troubles in the Business World. WATERLOO, Ia . Aug. 29 .- The dry goods firm of Miller and Daugherty, operating stores at this place and at Washington, Ia. has made an assignment. Liabilities \$40,000; nominal assets \$50,000. Inability to realize

nominal assets \$50,000. Inability to realize on assets is given as the cause.

MLIWAUKEE, Aug. 29.—The Roth Manufacturing plant, vinegar, has been seized by the sheriff on claims for \$12,000 in favor of the Marshal & Elisley bank. Assets and liabilities \$50,000 each. Dead in a Turkish Bath Room.

MINNEAPOLIS, Aug. 29.-James Cullen, & saloon keeper, was found dead in the hot steam room of the Guaranty Loan Turkish bath rooms here early this morning. He was intoxicated when he entered the establishment. While the attendants claim that he was in the hot room only twenty minutes, the skin was badly blistered. An investigation is in progress.

them all the time and when a few loads of good cattle were offered today they met with ready sale at good, strong prices.

Hardly enough cows and heifers were offered to make a real test of the market, but what few there were sold at good firm prices. A piece of a load of cornfed heifers brought \$3.40.

There were hardly any feeders in first hands today, but what there were sold readily. Speculators had gulte a few cattle, but the yards were pretty well cleared out before the close of the market.

The cattle market of the past week has, on most days, been favorable to the selling interests so far as the demand was concerned. The week opened down, and values suffered a still further reduction on Tuesday, which proved to be the low day, and the turning point of the market. Prices gradually improved until at the close of the week the market can safely be quoted 156/20c higher than it was on Taesday. The most of the cattle coming have been feeders, but an active demand was developed during the week, which kept the supply, large as it was, well cleaned up. On Tuesday feeders sold 306/56c lower than at the high times of the previous week, but the high times of the previous week, but the high times of the week, on that kind of cattle being 156/25c. Representative sales:

RAILWAY TIME CARD

against 5.225 last week and 15.43 for the previous week.

The market opened strong to 5c higher, and under the induces of a good demand the trade was active and the yards were soon cleared. Heavy hogs were about 5c higher, relling largely at \$2.542.8c, as against \$2.5942.5 yesterday. The medium weights and mixed brought \$2.854.25. The bulk of all the hogs sold at \$2.552.9c.

The hog market of the past week has shown considerable change, values fluctuating quite widely. The market was at the lowest point on record at the commencement of the week but advanced sharply on Tuesday, only to fall back again on Wednesday and Thursday. On Friday and Saturday the tendency was upward, and the week closed with the average sales showing an advance for the week of 15c. Representative sales;
