DENOUNCED BY CONSERVATIVES.

There was a panic in political and financhal quarters when General Weyler's inten-tion leaked out. The marquis of Apez-tegula, the chief of the conservatives, was immediately summoned to Havana by wire and arrived yesterday from the Constancia sugar plantation, where he was making ex-tensive memorations for dort cases even tensive preparations for next year's crop. A meeting of the conservative leaders was held. Planters and politicians of great influence were present. After a long, hot discussion, in which General Weyler's expected edict was denounced without stint. resolutions were adopted to this purport: First—That a committee, composed of the marquis of Apezteguia, Pascual Goigoches and Patricio Sanchez, visit Weyler and try to prevail upon him not to issue the edict. This audacious resolution is the talk of the city, as it is well known that Spanish rule in Cuba has always been upheld by and in control of the conservative party, and especially in times of war, and that the resolutions are in effect an order of dismissal to the captain general. It will not be the first case of a captain

general being virtually dismissed by the Cuban conservatives. In the last war Captain General Dulce was sent back to Spain by the volunteers—conservative people. Captain General Campos was also sent to Spain by them. The conservatives want General Polavleja in Weyler's place. The workmen in a Spanish cigar factory, operated by an Englishman named Rock,

made a public demonstration Friday night in favor of Spain, at which the favorite cry was "Death to the Americans."

They then pennies for their frouble. They then entered the drug stare of Ed S. Lovely, cutting out a panel of the back door in order to gain an entrance. They wried his money drawer open and got nothing, but took about \$5 worth of cheap jeweiry and cigars. From there they pried open the back door of the postoffice and entered, tak-ing about 100 i-cent, postage stamps and tearing open some pickages of mail matter which was in the office, overlooking about 20 or 25 cents in change, which was in 20 or 25 cents in change, which was in the money drawer there. They then en-tered the office of Condit & Co., grain dealers, where they burst the money drawer open and got nothing again. Taking it all in all, it was a wholesale job of burglary without eny remuneration whatever for the work

Suicide of a Well Known Mason. RALEIGH, N. C., Aug. 30.-Henry M. Cowan, aged 42, a prominent Mason and member of one of the most prominent fam-ilies in the state, committed suicide by firing a bullet into his left tample. Mr. Cown was chief clerk of the treasury under the administration of Donal W. Bain.

INDIANAPOLIS, Aug. 39.-A meeting of structed: Wisconsin for Bragg, Michigan for the representatives of the different railroad Vilas, Missouri for Broadhead and others for Vilas, Missouri for Broadhead and others for for the structed for the str brotherhoods was held in this city today favorite sons; but the gossip here so far seems largely confined to Senator Vilas and Henry Watterson. Watterson, from his far off sojourn in Switzerland, has cabled his willingness to accept and make the light if named. He was one of the first of the democrats of national prominence to advise the rejection of the Chicago platform and the nomination of an independent ticket. From Geneva, three days after the conven-tion, he sent a cable to this effect. Ex-Mayor John P. Hopkins of Chicago, who arrived last night, is out strongly for Wat-terson, and it is believed that the Kentucky delegation will be here in force for the star eyed goddess. Senator Vilas somehow is re-garded as the administration's candidate. and it is said that General Bragg, for whom the the Wisconsin' delegation is instructed, would willingly step out of the way.

NO PRECEDENT IN HISTORY.

CLEVELAND IS SILENT.

It is conceded on all hands that if Mr Cleveland would accept the pomination it would be tendered him unanimously. though it is generally understood that the president is in full sympathy with the con-vention and its purposes, 'nothing has yet been received from him. The arrival of Secretary Morton, who will probably be the only member of his official family here, and of Comptroller of his official family here, and of Comptroller Eckels is, therefore, looked forward to anxiously. It is not regarded as improbable that some sort of utterance will come from the president before the convention meets or while it is session. Although the delegates have not put in

an appearance in any considerable numbers the list of delegates is being made Secretary Wilson and will be ready for th approval of the national committee, which meets on Tuesday. There will be representatives in the convention from nearly every state, the exceptions being Idaho, Wyoming, Nevada and one or two territories. The delegations will probably arrive in considerable numbers tomorrow, but

majority of them are not expected until esday. That they are coming there can Tuesday. be no doubt, as all rooms at the leading hotels have been engaged.

eral states will be fully represented.

CAN CARRY FOUR STATES. "How many states will the ticket nom inated here carry?" was the question put to Mr. Bynum today by the Associated press reporter. "Four," replied Mr. Bynum; "Florida,

Alabama, Texas and Kentucky." "How about Louisiana?"

"Louisiana," he replied, "will go for Mc Kinley.

Bynum expects the delegates and Mr. their friends to tax the capacity of Tomlinson hall, which will seat about 4,000 pecple. It is the intention of the management to accommodate all the visitors if possible. With this purpose in view the tickets are being carefully guarded and none will be distributed for local use until the visitors are provided for.

From some of the states a considerable number of sympathizers with the move-ment are expected. Ex-Congressman Outhwalte of Ohio telegraphed today that fifty gold democrats would come from Columbus. The rooms at the leading hotels are all en gaged and it seems probable that the present expectations of the managers will be realized. From the list of delegates being received at the headquarters it is evident that many of the prominent leaders of the party will be in attendance. Ex-Governor Flower of New York has telegraphed his acceptance of the post of temporary chairman and it is practically decided that Sen-ator Caffery of Louisians will be permanent

chairman of the convention. Indianapolis as yet has not put on her gala attire in anticipation of the invasion of the gold bugs. The entrance to the two leading hotels are festorned with bunting and the rotunda of the Bates house is pro fusely draped, but beyond this the

counties will be represented by volunteers. Colonel C. B. Moore, a prominent attorney of this city, and Captain Stowers, a banker of Morrillton, are leaders in the movement and will probably go to Indianapolis as delegates from the state at large. Colonel Moore is a lifelong democrat and will sup-port the state ticket, but opposes the Chicago platform and will favor a third ticket. It is probable that Arkansas will be represented at Indianapolis by a full delegation.

convention tomorrow will also very probably take steps looking to the establishment of a state organization of the new national democratic SYRACUSE, N. Y., Aug. 30 .- The state

gold standard democratic convention will meet in this city tomorrow to elect delegates to the Indianapolis convention and presidential electors. It is expected that Abram S. Hewitt and either George Magee of Corning, Franklin D. Locke of Buffalo or John G. Milburn of Buffalo will be chosen as delegates-at-large. The platform to be adopted, it is thought, will declare for gold monometallism, at least that is the talk among the leaders tonight. Some of the delegates are opposed to this and want it to declare for a gold standard and declare silver to be subsidiary money. Whichever platform is adopted, it is presumed that it will contain a plank favoring the income

the refrain started by the telegraph and from every quarter come endorsements of the document from people in all avenues of life The first delegation announced for this

Russian-American McKinley Club.

The Russian-American McKinley and Hobart club held a very enthusiastic meeting at Brodkey's hall, 1315 Douglas street, last night. J. D. Nathanson presided. After night. J. D. Examinison presided. After disposing of some business the constitution and by-laws for the government of the club were reported by the committee appointed to draft them and were unanimously adopted.

Thirty-five new members were added to the list. The club now has a membership of 500 stanch republicans. Preparations are now being made for a grand rally, which will be given under the auspices of this club within two weeks.

Dauntless Held in Quarantine.

BRUNSWICK, Ga., Aug. 30-The tug bauntless, supposed to have been on a tions of the Bates house consist of a pro-fusion of American flags hung from the bal-conies over a background of yellow buntfilibustering expedition, has returned to

said to surpass any similar exhibition ever given in the west. It occupies the entire west end of the building, and excels both in variety and excellence of work. The task of gathering and arranging this exhibit was performed by the committee, consisting of Mrs. Morraw, Mrs. C. W. Downs, Mrs. W. S. Wright and Miss M. Butterfield.

COUNTY EXHIBITS READY,

The county exhibits were practically com-pleted last night, and here also the quality of the exhibits is decidedly improved. It seems that most of the counties came with the intention of improving on the best exhibits of last year, and many of them have accomplished it. Any one who believes that the artistic sense is confined to the dwellers in municipalities should visit Agricultural hall and see what has been accomplished by the farmers in the arranging of their products, grasses and seeds. With these simple materials have been constructed designs which might almost be entitled to a place in the art building, and the victory over the drouth of previous years is chronicled

by such a complete and superior showing of farm products as few state fairs can offer. The Textile building, or women's building, as it is more generally termed, is all ready for visitors. Mrs. Lettie Moulton of Beatrice is the superintendent, and she is well satisfied with her work. The number of exhib-its is about equal to last year, but here, as elsewhere, there is a noticeable elevation of the standard of merit. There is four times the amount of really meritorious work that has been shown in any previous year, and the interested visitor will require twice as

much time to see the exhibits as was needed last year.

Commissioner May has at length suc-ceeded in getting his roof fixed and the fish exhibit is all ready for the commendation he expects it to command. The exhibit is much more complete than ever before, and every detail of the fish industry is com-pletely illustrated. In addition to the aquariums there is a big tank in the center of the room which contains a number of dis-tinguished inhabitants. One is a cat fish which weighs 110 pounds and measures twenty-eight inches around the middle. It swims around the tank in company with a fourteen pound earp, the only rock sturgeon which has ever been seen in Nebraska, and a score of other fish hig enough to excite the enthusiasm of the angler. A number of improvements have been

made in the arrangement of the Hortleul-tural building, which will add materially to the appearance of the exhibit. The p in the center of the building have all been encased in evergreens, and on each of the broad tables the center is banked with a row of paims and potted plants, beside which the exhibits of fruits show to the best

advantage. One of the features of the fair will be the exhibit of Douglas county in the Ag-ricultural building. Last year the society was hampered by lack of space, but now it occupies the entire west end and half of the north side of the building. Kach of the country precincts has a certain amount of space, and there is a lively competition to see which will make the finest and most complete exhibit.

OFFICIALS HAVE PLENTY TO DO. All the officials were at the headquarters throughout the day and they found plenty of business to engage their attention. The large corps of efficient clerks had no tunity to attend divine worship, for they were handling the entries from morning till well along toward sundown. The work of the officials, as well as that of the work-men and exhibitors was made lighter and easier by the fact that there were comparatively few people on the grounds. There were no great crowds around to impede the work, and it therefore progressed in a most expeditious manner. One or two of the buildings were numerously visited during the afternoon, but when anything like a crowd began to gather the doors were promptly closed and the workinen closeted. Many of the afternoon vi visitors were in carriages, and went to the ground more to enjoy the delightful weather by a

fine drive than to inspect the exhibits These did not alight from their carriages, but were content to drive through the All the lunch stands and many of the more

pretentious dining halls were open during
