Wheat Advances Early, but Fails to Keep the Pace.

NEW YORK CONTRIBUTES THE STRENGTH

### Several Big Operators Become Heavy Sellers of Wheat During the Late Hours of the Session.

CHICAGO, Sept. 2-Wheat made a short, nervous, feminine sort of a %c jump at the opening, December starting at from 58% to 58%, as compared with from 584ge to 58%c, its closing price of the day before. That little morning altempt at being strong soon gave place to a kind of fainting spell. In about twenty minutes from, the opening it was selling at 55%, and notwithstanding the utmost efforts of its friends to bring about its recovery, before 12 o'clock it had sold as low as 58c. The with which the market started was due to the strong tone from the New York falling off in the number of cars received at Minneapolis and Duluth-from 1,396 cars yesterday to 345 today. What favorable effect the latter item might have had, however, was neutralized by the explanation that the failing off was caused by a partial blockade on one of the great grain roads. The true inwardness of the slumpy condition of the market was the apprehension resulting from the unsettled state of local finances in connection with Diamond Match and Yerkes Street rollroad stocks. Bradstreets reported an increase for the week of 1,500,000 bu, of wheat in the world's visible and increase for the month of 1,500,000 bu, on the Pacific coast. Several big operators were heavy seliers of wheat during the progress of the above drain and after 12 o'clock the early buyers of that wheat tried in their turn to find some one else to take it off their hands. The consequence was that December had another slump to 57%. A mild reaction followed this break, December advancing from 5% to 58% bid. This was also the closing price. effect the latter item might have had, how-

he closing price.

Corn showed some firmness during the arry hours of the session. Prost was preicted for tonight in several of the western states, which encouraged holders. The weakness displayed by wheat gradually affected prices, however, and the close was at a slight decline May opened unchanged at 24%c, advanced to from 24%c to 25c and declined to 24%c, closing at 24%c bid.

Oats followed the general trend of corn and likewise suffered a slight loss in values. Trading was exceedingly dull and mostly of a scalping nature. The visible supply reports showed an increase of 194,000 bn. May opened 5c lower at 185c and sold between 19c and 185c, closing easy at 18%c. Provisions opened strong and while most Provisions opened strong and while most of the early advance was subsequently lost there was a firm undertone to the trade all day. A perceptible improvement in the demand was noticeable. January pork closed about 5c higher at from \$6.872 to \$6.85; January Jard 2½c higher at from \$3.72½ to \$3.75; January ribs unchanged at \$3.75. Estimated receipts for Thursday: Wheat, 5 cars; corn, 565 cars; oats, 335 cars; hogs,

flames, Mr. Hajek was in Omaha taking part in the parade of the Bohemian Turners, part in the parade of the honemian lattice, and when he returned home he found everything destroyed. There was no insurance, Loss, about \$500. A cottage adjoining, belonging to Joseph Hundruna, was damaged to the extent of about \$100. Two blocks of to the extent of about \$100. hose had to be laid and the pressure was poor, but the firemen did good work in saving one of the cottages, as there was a strong

wind blowing at the time. Stock Receipts and Shipme The monthly statement showing the receipts and shipments at the Union stock yards for August was issued yesterday. The yards for August was issued yesterday. The receipts were: Cattle, 56,911; hogs, 80,662; sheep, 28,808; horses and mules, 274; cars, 3,609. In every thing except cattle an increase over 1895 is shown, and the prevailing low price of beef is the cause of the scarcity of cattle on this market. During August, 1895, 21,469 more cattle were received than during the same month this year. A large increase is shown in hogs, the increase being 24.837 head. Sheep receipts are also ma-terially increased, the difference in favor of of the live stock received here last month

23.894 cattle, 67,963 hogs and 19,827 sheep were consumed at South Omaha. Magie City Gossip.

Jay Cox of Hampton was a visitor in the city yesterday.

C. E. Olmstead of Atkinson is in the city risiting with friends. Mr. and Mrs. P. Anderson of Wahoo are the guests of Daniel Rafferty.

G. H. Westgate, a cattleman from St. Paul. s in the city for a day or two. Zack Cuddington has been admitted to nembership in the local coal exchange. Mrs. Frank E. Boyd and son of Springview

are the guests of Mrs. R. A. Carpenter, Twenty-third and J streets. Mrs. John Joseph and daughters of Wahoo are visiting Samuel Shrigley and wife of I wenty-first and I streets.

fair weather; north winds, becoming variable and warmer in northern portion.
For Wyoming—Generally fair; winds shifting to south
For Montana—Fair; warmer; west winds.
For Iowa—Fair, preceded by showers in
extreme southeast portion; cooler; north
winds.

name and undermine the walls of her political structure.

Mr. Bryan takes pains to reiterate, in about every second speech, that he stands squarely on the Chicago platform and supports every one of its planks. He has not yet announced his acceptance of all the planks of the populist platform, but imasmuch as these are only different in degree and he has been identified with populism quite as much as with democracy, it is but fair to assume that he stands on both platforms. Not quite so radical on his views, perhaps, as Aligeld or Tillman; not quite so frank as Tom Watson, he is, nevertheless, a fit representative of the revolutionary forces behind him—ambitious, unsteady and unsafe. There is nothing in his career

ary forces behind him-ambitious, unsteady and unsafe. There is nothing in his career or in his present utterances to encourage the hope that if elected he would rise above his surroundings or stay the hand which threatens to destroy and pervert.

An untried man, a demagague, a wordingsier, he perhaps will represent the restless mob from which he rose, and with characteristic recklessness does not hesitate to appeal to base human passions in order to attract votes. That in this incendary's role, standing, as he professes to

tate to appeal to base human passions in order to attract votes. That in this incendiary's role, standing as he professes to stand, on principles as undemocratic as those of Herr Most he should deserve by any conception of party regularity the support of true democrats is past comprehension and explainable only by ignorance of the men and his platform of disloyalty to genuine party faith.

No sound conception of party regularity can justify encouragement to social disorder. Not even the honest believer in a silver standard or the most enthusiastic bimetallist, can, if he be a patriotic citizen, conscientiously support the forces of political anarchy. Even the advocacy of free silver coinage by Bryan and many of his associates is only a cloak for the spirit of revolution behind.

BRYAN A CHARLATAN.

The revolutionary spirit which forced

associates is only a close for the spirit of revolution behind.

BRYAN A CHARLATAN.
The revolutionary spirit which forced speeches now being delivered throughout the country. His conspicuous failure at Madison Square Garden to advance the cause of sliver by close argument has indiced him to abundon the weapons of the ingician and statesmus and to employ the arts of the orator. From the rear end of cars he has been flinging out social and political firebrands among the people. He appeals to the base instincts of the ignoration of the ingined in the transaction of the ingined and it can be a contest of the passe instincts of the ignoration of the ingined and it has been our proud about rary class against class, to incite employe against employer, to sile up debtor against creditor, to make this a contest of the paor against the rich. May God prevent this incendiary's work! In this broad land it has been our proud boast that avenues of success have been of success or position is created by law, industrial conditions may be effected by unwise laws and when this is demonstrated we attempt to change them through some men succeed, and many fail, this is the lot of life and no candidate for the price (3) commissioner's District.
