the Associated Press.) LONDON. Sept. 5 .- The campaign in th United States continues to be watched here with intense interest. Mr. Henry Labouchere in Truth devotes three pages to the situation, during the course of which he says: "I one of the warmest admirers of the United States in Europe. I am a democrat of demo crats in the true sense of the word, and believe that one of the greatest dangers to democracy of America is that huge accumulations of capital are in the hands of a few. But as a democrat, and one de sirous that the cause of democracy should everywhere prevail, and as an admirer of

the sterling common sense of the Ameri cans, I sincerely trust that Bryan will b defeated." Truth also comments upon the decreas

Ambassadors Present a Collective Note to the Sultan.

CONSTANTINOPLE, Sept. 5 .- Great auxlety still prevails here, but there have been no further disturbances. The ambassadors have sent a collective note to the Turkish government dwelling upon the organized character of the massaures and citing several cases bearing this out. They quote the declaration of two Mussulmaus, who assert that they were requisitioned by the police who provided them with weapons and sent them to kill Armeniana. Other similar evi dence is also presented by the ambassadors who finally demand a strict inquiry into the causes of the outbreak and steps being taken to suppress it, and they insist upon the severe punishment of the culprits.
