Explorer Jackson Tells the Story of How He Found Nansen.

GAVE THE NORWEGIAN A GOOD DINNER

British Expedition Discovered a Large Seal Which the Name of Queen Victoria Was Given—Other Map Changes.

On June 17 we had just finished dinner in our quarters at Camp Flora when suddenly Lieutenant Albert Arncliffe, R. N., our astronomer, put his head in the window and shouted: "How many of you are here? I see a man on the ice floor. Whoever it is I'm off."

Mr. Jackson's letter is addressed to A. W. A. Farnsworth and continues the story. He writes: "Hearing that some one had been seen on the ice I started to meet him. I saw a man on the pack ice about a mile further off, and I saw a second person still further off."

"I was covered with grease. I fired several shots to attract their attention, and after an hour's walk we met the man on the ice and concluded he was a Norwegian and intended to visit us. He had a dog with him and a rifle."

"We shook hands warmly and the following conversation ensued: "Jackson—I am awfully glad to see you. "Nansen—So am I to see you. "Nansen—How do you get on? "Nansen—No, my ship is not here. "Nansen—How many are there of you? "Nansen—I have one companion in the boat."

"During this time I was looking steadily in his face, and in spite of his long black hair and smoky skin I thought he was Dr. Nansen. He had a dog with him and a rifle. "I explained, "Are you not Dr. Nansen? "Yes, I am Nansen," was his reply. "By Jove," I answered, "I really am awfully glad to see you."

"Then we again shook hands, still more heartily. "I thank you very much," said Mr. Nansen. "When we reached headquarters it was midnight, but as light as noon. After Dr. Nansen and his companion, Lieutenant Arncliffe, had had their hair cut, our photographer took their pictures and they dined with us."

"Dr. Nansen's astonishment, we had roast loon, peas, and other vegetables, jam, tarts, cheese, preserved fruits, and port, sherry and whisky."

"SOME MAP MAKING. Mr. Jackson also sent by the Windward a resume of his diary, kept during the past year, and maps of his own making which entirely alter the geography of Franz Josef Land. He has also sent me a copy of the map of Payer, the Austrian explorer, shows land. This sea, which Mr. Jackson has named Queen Victoria sea, is bounded to the north by the "horns" of the ice, and extends from about seven miles north of his winter quarters to within three degrees of the pole and is considered by far the most important body of water yet discovered in those parts. Mr. Jackson also writes: "A long channel through which I passed from Tlato to Queen Victoria sea I named the 'Queen Victoria Channel.' It is bounded to the north by the 'horns' of the ice, and extends from about seven miles north of his winter quarters to within three degrees of the pole and is considered by far the most important body of water yet discovered in those parts. Mr. Jackson also writes: "I gave Dr. Nansen tracing of my map and his route south. As his watches ran down he was unable to establish his position. He had a dog with him and a rifle. Last year he supposed that no one had been there before him."

"SCARED BY A BOMB EXPLOSION. London Population Wrought Up by an Alleged Dynamite Hoax. LONDON, Sept. 7.—This city has been a "bomb outrage" to discuss. At about 11 o'clock last night an unknown man threw a clumsily constructed bomb into the premises of Farmer & Brindley, the marble masons and sculptors of 63 Westminster bridge road. The missile exploded and the report caused a large crowd of people to assemble about the premises. The police investigation which followed showed that no serious damage was done. An empty tin can with its ends blown out and a small quantity of dynamite had been exploded and a man was seen running away from the neighborhood shortly after the explosion. The police are investigating the matter, but it is believed to be nothing more than the result of foolish, petty spite on the part of a discharged employee."

"WARNED AGAINST BRITISH POLICY. Powers of Europe Urged to Make Peace with Germany. ST. PETERSBURG, Sept. 7.—The Novoye Vremya makes the important statement today that the czar's tour shows that Berlin and Vienna, as well as Paris and St. Petersburg, are conscious of the necessity of common action by the powers to defeat the political designs of Great Britain, which, it says, has clearly displayed in recent events its true character."

"CUBANS GAIN A DECIDED ADVANTAGE. NEW YORK, Sept. 7.—The Herald this morning publishes the following special correspondence from Pinaricillo, Cuba, under date of August 30: "Cecero, in his ruins and another step has been taken toward the ultimate expulsion of Spanish troops from Cuba. The forces of Rosa and Pina have been routed, and the Spanish troops are leaving the occupants of the forts in a precarious position. The inmates of the Cocco forts are now in a pretty bad way, no food of any kind being allowed to enter the place. Cecero is a small place, but important, from the fact that it was a relay station for troops marching between the cities of Porto Principe and Guaymaro."

CEAR REVIEWS GERMAN SOLDIERS

Two Emperors in a Second Carriage. GORLITZ, Sept. 7.—Upon the arrival here of their majesties the emperor and empress of Russia and the emperor and empress of Germany today, they were received in state by the provincial, municipal and military authorities assembled on the platform of the railroad station. The burgomaster delivered an address of welcome, to which Emperor William replied, expressing the thanks of Emperor Nicholas as well as his own. The czar wore the uniform of the Emperor Nicholas Hussars and Emperor William was dressed in the uniform of the Hussars of the Imperial Guard.

"Their majesties drove together to the review ground, followed by the empress in a second carriage. The streets were thronged with Russian and German flags and were packed with crowds of people, the various veteran associations, societies, etc., and nearly all the officers of the army and navy. The review in picturesque groups and attired in their brightest holiday clothing. The imperial party was heartily cheered on all sides. The emperors left the review at 2 1/2 p. m., riding at the head of the color company. Emperor William was on the left of the czar and General von Seeck, commanding the color company, which was led by the reviewing beloved, was on his right. On arriving at the town hall the monarchs reined up their horses in order to watch the color company and the review of the troops. Their majesties and the Russian suite then dined at the town hall. The czar started for Kiel at 6 o'clock on Monday."

"The departure of the czar and czarina was marked by an enthusiastic popular ovation. All of the German princes and the court officials, including the czar's son, the crown prince, and the czar's daughter, the grand duchess, were present. The line of march was lined with troops and beyond stood dense masses of people who cheered vociferously as the two rulers passed. Their majesties and the German princes and to other distinguished persons gathered there, and then, in the most cordial manner, they made their farewells to the emperor and empress of Germany. The two empresses embraced warmly, both being visibly moved as were also the two emperors. The czar and czarina played the Russian anthem. The Russian imperial pair waved adieu from the train until it was out of sight. The town was in a state of jubilation in continuation of the celebration of the meeting of the two emperors. A military banquet was given this evening at which Emperor Nicholas presided, and Emperor William, in proposing a toast to the Fifth army corps, dilated upon the pleasure which the czar's visit had afforded him."

LOUIS, Sept. 7.—A attractive girl aged 22, and of the name of Lizzie Everson, committed suicide in a most horrible manner on a farm eight miles from East St. Louis at 2 o'clock this morning. At that hour she arose and told her sister she was going to get a drink. Half an hour later the family heard a noise made by the cattle in a field nearby. Her father, on arising, discovered the large haystacks were on fire. An odor of scorched flesh aroused suspicions of the family and neighbors, as Lizzie could not be found. When the haystacks were extinguished the body of the girl was found. The family could ascribe no cause why she should have taken her life. William Everson, her father, is a man of wealth."

BRITISH TOLLERS GATHER

Parliament of the Men of Brawn and Muscle Meets at Edinburgh. OPENING OF THE TRADES UNION CONGRESS

Immense Bodies of Laboring Men Are Represented by Delegates Who Will Discuss Many Important Questions. (Copyright, 1896, by the Associated Press.) EDINBURGH, Sept. 7.—The twenty-ninth annual trades union congress opened its sessions at the assembly rooms, George street, this city, at noon today. About 360 delegates were in attendance. The congress will close Saturday, September 12. The vehement arguments and bitter personalities of the twenty-eight congress, held at Cardiff last year, will not be repeated this year, as the new constitution adopted then directed the improved formation of the congress of 1896. Men like John Burns, Keir Hardie and Henry O. Broadhurst are not present. In their places are real workmen, such as the Northumberland and Durham Miners' union, and the Boiler-makers' union, which have taken no part in the annual congress. Samuel Woods, secretary of the Parliamentary committee, in an interview with a representative of the Associated Press provided the following information: "There are not more than 350 delegates this year, owing to the new standing orders, and our congress is much more workable. Under the new constitution we have only 700 delegates. The delegates this year are only bona fide workers at their trade and legal members of trade societies. No person can be a delegate unless he is actually working in his trade at the time of his appointment or is a permanent paid working official of his trade union. This was definitely settled at Cardiff last year. The new standing orders have to have a little rub or two over an attempt to revert to the old way of voting, where each union or body represented had one vote. Under the new standing orders each delegate has one vote for every 1,000 workers whom he represents. This is direct representation and I do not think it will be overthrown. "We have about thirty more trades unions represented this year than last, and about twenty of them have never been represented before. There are two American delegates, Messrs. Strasser and Sullivan."

"MUCH WORK TO BE DONE. The work of the present congress is exceedingly ambitious, and the time available is considered. The Parliamentary committee, of which Edward Cowey of the Yorkshire miners is chairman, and also president of the congress, has introduced a program embodied in eleven resolutions. The trades unions have sent up no fewer than eighty-one resolutions for discussion. To these notice of over 200 amendments has been given. The two sets of resolutions cover the widest field for discussion and effort, practicable and otherwise. The temper of the congress toward the government is not so hostile as in the resolution of the paper mill workers that no representative of the press shall be allowed to report the proceedings unless he can show that he is employed in a paper mill. This resolution was printed by trade union labor and on paper manufactured in the United Kingdom. A further intimation of the trend of the congress is contained in a resolution proposed by the famous loom overtakeer, which the famous collective resolution adopted at the Norwich congress of 1888 on the initiative of Keir Hardie, and in its place to substitute the following: "In the opinion of this congress it is essential to the maintenance of British industries to nationalize the land, mines, minerals, railways, telegraphs and railways, tramway undertakings within their several authorities, and that the parliamentary committee be instructed to promote the enactment of legislation with the above object. "Councillor W. Thorne of the gas workers will ask the congress to declare "that the time has arrived when the duties of a citizen should be limited to eight hours per day in all trades and occupations in the United Kingdom."

"E. Harford of the Railway Men's union will bring up the question of employers' liability by a resolution calling upon the government to amend the law existing at present, among other things the responsibility to rest upon the employer for the acts of his employees, or those of any subcontractor, and in knowledge of any defective machinery, or of the person killed or injured; that its provisions may apply to the workers in all industries on land or sea. In private, state or municipal employment, and that contracting-out be made illegal. "Factory legislation, payment of members of parliament, taxation of land values and other matters, which he is demanding, will be a test question at the next general election, employment of children in factories and their consequent exploitation by the employers, which he is demanding, will be a test question at the next general election, hours of domestic servants, which are not to be "more than seventy per cent, including one and one-half hours for meals per day; fair wages, compensation for injuries; the hours of ship agents; workmen's contracts, old age pensions, education and public works, and many other matters all have places on the program. "The platform is being decorated with his important resolution: "That the recent decision of the Judge of the high court of justice in cases arising out of trade disputes, which have made it clear that the trade union acts of 1871 and 1875 afford no actual protection against civil actions brought against officials of trade unions and those who are merely in the line of combination supposed to be secured by those acts, and it is therefore most essential to the continued and effective existence of the trade unions that the government should endeavor to obtain an amendment of the conspiracy and protection of property act of 1875 as will protect those who are legitimately exercising the right of combination for trade purposes against civil as well as criminal proceedings. "The officers' union will attempt a sweeping reform in the alteration of the law of libel so that it may become lawful for any person or persons acting in the interests of the community who are doing so without malice to expose in writing, or by means of the public press any firm or firms who are known to be acting or working contrary to the interests of or in any way injurious to the workers and the public."

"STRENGTH OF TRADES UNIONS. The Miners' National union, representing 76,000 miners of the northern counties, sent thirteen delegates, including Messrs. T. B. Hart, M. P. C. Fenwick, M. A. and John Wilson, M. P. This body was no preponderant at Cardiff last year. Among other societies represented are the 40,000 Operatives, 40,000 Amalgamated Society of Carpenters and Joiners, 40,000 Card and Blowing Room hands, 24,500 Alliance Cabinetmakers, 4,000 seamstresses, 1,500 London Society of Compositors, 10,500 Dockers' union, 100,000 Amalgamated Society of Engineers, 35,500 Gas Workers' union, 21,000 Miners' Federation of Great Britain, 154,000 Amalgamated Society of Railway Servants, 40,108, and Northern Counties Weavers' association, 83,325."

KEY WEST IS BADLY SCARED

Extraordinary Story Supposed to Be Based on a Letter from Cuba. DANGER FEARED FROM SPANISH SPIES

General Weyer Believed to Be Plotting for the Destruction of the City—Spanish Consul Alarmed for His Own Safety. NEW YORK, Sept. 7.—A special to the World from Key West, Fla., says: A letter from Havana, Cuba, dated last night by the steamer Mascotte containing the information that the Spanish authorities are plotting the destruction of Key West. A similar report reached here several days ago, but at that time it was not generally believed. "The letter was written by a Cuban in Havana to a friend in Key West. The writer says that a few days ago he went to the government office in Havana and was introduced by a friend employed there that the Spanish authorities had "determined to burn Key West and annihilate the nest of snakes." The plan of the Spaniards is to send emissaries to Key West in the guise of Cuban sympathizers, who are to fire the city in any places as possible when opportunity arrives. It is said that Captain General Weyer is cognizant of the plan and approves of it. He is reported to have said that if Key West and Tampa were settled in ashes he would soon be able to settle the rebellion. It is said that in the event of the success of the plot, Weyer has ordered that the emissaries be paid \$10,000. "The people of Key West are so wrought up that it is feared an attack may be made on Senor Cruz, the Spanish consul, and his secretary, Senor Fernandez. It was reported today that these gentlemen, becoming alarmed for their safety, had gone aboard the United States revenue cutter Winona and demanded that the Spanish consul and his secretary be removed from the vessel until the excitement died out. The citizens have determined to form a vigilance committee to protect the city. It is feared that the account of himself will be forced to leave the city."

"WORKS HARDSHIPS TO SETTLERS. Incomplete Honorary Line Survey Reported for Nebraska Territory. NIOBRARA, Neb., Sept. 7.—(Special.)—A mass meeting of settlers in the Ponca reservation strip in Knox county has been called for September 21 for the purpose of coming to some understanding as to what shall be done with their locations on homestead sections of the government. A line survey was done in 1858-9, at the same time the Nebraska survey was made here, though that portion then was not a part of the Ponca reservation, and after that time went in as a portion of Dakota territory. When it was taken into Nebraska by Senator Saunders' bill to straighten the northern portion of the state, the Indian allotment to those Indians entitled to it according to the original survey. When settlers came in they were located on what was then only a right of way, and complications have grown out of it when it was discovered that an eighty-rod gap has put other settlers on lands not belonging to them, or rather settling those who made valuable improvements eighty rods west. Senator Allen introduced a bill last session to resurvey by the government the lands in Nebraska, and it appears that no different arrangements in the location of the Indian allotments. The interior department has made various suggestions, but what any one of them dispenses the other and the middle is perplexing and the cause of much bad feeling among a very thrifty and worthy lot of settlers."

WELCOME CLARKSON HOME

Magnificent Reception Tendered Commander Clarkson of the G. A. R. THOUSANDS TURN OUT TO GREET HIM

Comrades Renew the Congratulations at a Campfire Held at the Commercial Club—Testimonials to Their Leader's Worth. Major Thaddeus Stevens Clarkson, the new commander of the Grand Army of the Republic, must have been filled with honest pride and gratification last night; his heart must have beaten with the thrills of a conqueror, for a soldier's pulse; his soul must have swelled at the homage that was paid to himself and to the office to which his comrades have elected him. It was a spontaneous, hearty welcome that greeted his return to the city as the bearer of the greatest honor that the veterans could bestow upon a comrade. There was no show or pretense in the words that fell from the lips of the veterans and friends as they pressed forward with their congratulations.
