TRACKED BY A WATCH CHECK

Bit of Pastebord Brings a Burglar to Grief in a Hurry.

SHERLOCK HOLMES HAS HIS EQUALS. Local Officers Do a Rather Neat Bit of Inductive Reasoning in Tracing Back a Cold Trail.

Council Bluffs officers yesterday arrested a burglar of some ability if not note. Early in the week the office of Dr. Robert...

Early in the week the office of Dr. Robert, in the Continental block, Omaha, was broken into and a large quantity of jewelry, a large bottle partly filled with morphine, a fine opera glass and \$8 in cash.

When Dr. Robert made a survey of the premises on the morning after the burglary, he noticed a little pastebord check lying on the floor, and found it was a watch check issued from the repair department of M. Wollman's jewelry store in this city.

It was numbered 1466. The doctor turned this over to the Omaha police and it afforded the only clue the officers had to work upon. Omaha detectives came over yesterday morning and with a local officer visited Wollman's store...

The watch for which the check had been given had been called for and the duplicate check contained the number and description of the watch and if it could be found it would draw a great deal of light upon the Omaha case.

It was found, however, that the missing check was found. A search of the books showed that the watch had been left for repairs by a woman who gave the name of Mrs. J. H. Blinder, vice president of W. Wallace, secretary, and Mrs. W. L. Smith, solicitor.
