COMMERCIAL AND FINANCIAL

Wheat Is Depressed by Continued Large Northwestern Receipts.

ALL GRAIN MARKETS ARE MUCH EASIER

Although Provisions Inclined Toward Lower Prices, There Was No Pressing Desire to Sell Observable During the Session.

were easier today. Wheat was depressed by continued large northwestern receipts and declined %c for December. Core and oais both declined %c. Provisions were also easier and show slight losses. The advance yesterday of Mc per bushel in the price of wheat was soon lost this morning, in fact the first transaction opened it out. December, which closed on Monday at 60%c, opened with sellers at from 60c down to 59%c. In very few minutes it was 595kc, and before an hour had passed it had touched 19%c. The last named quotation was the rallying point from which it reacted to 59%c in the next half hour. The New York stock market was heavy, and northwestern re-celpts were again very large, amounting to 1.475 cars, against 1.295 cars on the corresponding day last year. Cables were some what disappointing, as they were without any especial advice, notwithstanding our strong market yesterday. This news encouraged the bears, and they sold wheat with considerable freedom. Business was more nearly active for the first two hours, after which it became dull and tame, but rather nervous, with ½c fluctuations on a very small amount of buying or selling. After the reaction to 39½c the price dropped again to 59¼c, with a sale or two at from 59½c to 30½c, and after that it kept on a tester between 59½e sellers and 59¼e buyers during the remainder of the session. Some buying orders were here from the United Kingdom, but they were for Duluth wheat, and a cargo of \$9.000 bu, was worked from there for export. New York advised that vessel room had been engaged there today for 20 boatloads for shipment in November. The closing price here was 59½c, or 5½c lower than on the day before.

Corn was quiet and weak. Early sales were at the closing price of yesterday, but the sharp break in wheat and the fine weather started a free liquidation and short selling, resulting in 3½c loss. May opened unchanged at 24½c, sold off to from 24½c to 245%c and closed case. couraged the bears, and they sold wheat weather started a free liquidation and short selling, resulting in %c loss. May opened unchanged at 24%c, sold off to from 24%c to 24%c and closed easy at 21%c.

Outs were weak in common with other grain markets though the easy feeling was independent, brought by free offerings and limited demand. The advance of eastern freight rates out off wheat shipping inquiry, May opened from about %c lower at 1%c, declined to 18%c and closed easy at that price.

Although the provision market, like wheat, corn and oats, inclined toward lower prices, there was no pressing desire to sell observable, and in the end prices were not much lower than they were yesterday. The slight decline noted was due principally to October liquidation. January pork closed to lower at \$6.79, January lard unchanged at \$2.67½ and January ribs 2½c lower at

Estimated receipts Wednesday: Wheat, 115 cars; corn, 315 cars; oats, 300 cars; hogs, 23,000 head. The leading futures ranged as follows: Articles | Ober | Egg | Low | Closs

STOCKS AND BONDS.

Volume of Business, Though Mod-erate, Is Well Distributed. NEW YORK, Sept. 15.—The stock market today justified by its movement the theories of the more experienced dealers. This contingent had expected a reactionary tendency, based upon a probable general desire to take profits, and he forecast was realized to the letter. The the forecast was realized to the letter. The volume of business, though moderate, was fairly well distributed. An early show of strength was made, partly due to higher London quotations and foreign purchases of the international favorates in this market. The initial gains extended to 1½ per cent in Hurlington. The grangers and industrials led in point of activity, and together with some of the specialities afterward hore the brunt of the reactionary movement. The bear leaders were active and succeeded in taking the market from a great many of the traders who wished to realize profits. The upward movement soon halted and a bear demonstration ensured, which was effective in depressing prices to the extent of 4½ per cent in Tobacco from the early high level. The decline in this specialty was attended by reports of increased cutting as a result of the long continued savage fight between the trust and its competitors in the plug tobacco business. Many of the other losses were quite severe. Burlington dropped an extreme 2½ per cent. Rock Island 2½ per cent. New Jersey Central Leather preferred and Chicago Gas 1½ per cent. Consolidated Gas 2 per cent and Sugar 1½ per cent. Other declines extended to 1½ per cent. Western Union was sold on the announcement of the loss of important railway business to a competitor and Chicago Gas on reports of impending further litigation. The attacks on the general list were facilitated by a firm money market, call Joans averaging the top figures of yesterday, 6½; per cent. In mercantile circles in this city. The story had not been confirmed up to the close of business. In addition to the foregoing some seiling was attributed to expectation of an advance to 3 per cent in the Bank of England rate on Thursday.

At the low level supporting orders were made in some shares and these were suplemented by a demand from the shorts. The effect was to impart a degree of steadiness and trifling railies occurred. This afternoon's speculation was marked by duliness and nervous temper. The closing was ne of business, though moderate, was fairly distributed. An early show of strength was

on the first call, but later lost the improve-ent. The transactions were \$10,800, Silver cer-dicates were weak and lower at 65%c for

tificates were weak and lower at 65%c for 145,000.

The Evening Post's London financial cable-gram says: The stock markets were depressed and fidgety today, closing flat. Consols opened 110%, but soon gave way on faise reports of gold shipments and a rise in the German bank rate. These reports being contradicted, a fitful rally followed, the price closing at 110. The other markets were irregular and nervous, especially giltedged stocks, the best colonial issues being almost unraleable. The position is this: Money has been dirt cheap for so long that stocks, such as consols, home corporations and other good stocks not usually used for the purpose of speculation, have been heavily speculated in with borrowed money, hence the abnormal collapse on the signs of dearer money. Americans were comparatively steady, but closed duilt. The report cabled yesterday of prospective gold shipments from France to New York is confirmed. Pully £50,000 sterling will go from there temorrow or Friday and in will go from there temorrow or Friday and in York is confirmed. Fully 2 awards of the goard of the tomorrow or Friday and in this quarters it is said that \$25,000,000 more follow, but this I cannot state as an absolute. The Berlin market was weak. The Paris ree was fairly steady. The mid-monthly set-

Layton & Company..... Sperry & Barnes..... Left over4.979 3,706 1,635 CATTLE—The receipts today were 4.947, the largest day's run of the year to date.

Lag area considered 12.40 to 42.40 log 42.40 the largest day's run of the year to date. Of the cattle here 1,298 were consigned direct to a local packer, leaving 3,600 on Killing eatile constituted a much larger proportion of the receipts than has been the rule of late, both corn-fed na-tives and western range steers being freely offered. The market as a whole was in-

tives and western range steers being freely offered. The market as a whole was inclined to be slow and on some kinds of cattle easier.

Choice corn-fed beeves could safely be quoted about steady, though there have not been many here of late with which comparisons could be made. Some 1,361-lb. natives sold at \$4.60, others at \$4.50, and on down to \$4.60 and under. Western steers were generally lower—to say that they were 10c lower than last week would, perhaps, best describe the situation. Owing to the number on sale the movement was a little slow, but the cattle kept selling and were pretty well cleaned up before the close.

The market on butchers' stock was also

and were pretty well cleaned up before the close.

The market on butchers' stock was also slow, the offeriogs being large and the buyers indifferent. The best cow stuff was not much different from yesterday as regards values, but unless it happened to be something very attractive in the eyes of the buyers, it was lower.

For the number of cattle here the offerings of feeders were very light. At the same time good feeders and good stock cattle were in demand, and while packers were bidding lower on killing cattle, the cattle that would do for feeders were selling at fully steady prices. Real attractive ing at fully steady prices. Real attractive sentative sales:

HOGS—The receipts of hogs were 3,667, as against 1,505 yesterday and 4,554 on Tuesday of last week. The demand was good and the market as a whole fairly satisfactory.
The trade opened with values firm, and closed a little stronger with everything sold. Heavy hogs sold largely at 12,709,275, as against 12,659, 2.70 yesterday, and the medium weights went principally at 12,7502.55. There were a few good lights which sold at 15.15.
The fact that there were a few lends of light hogs here today made the market look considerably higher as compared with yesterday, when there were none here. Representative sales:

SHEEP The receipts were liberal and the parket about steady. Representative sales: parket about steady. CHICAGO LIVE STOCK. Prices Fail to Recede and Demand

Remnins Good.
CHICAGO, Sept. 15.—The few native cattle offered moved off slowly, but prices were not any lower. Common to prime steers sold at from \$3.30 to \$5.10, largely at from \$3.30 to \$4.75. as follows, each buyer purchasing the num- up remarkably well and sales are largely at from \$2.55 to \$3.55. There is a strong demand for good hutchers' stock and fat helters are very scarce and bring good prices but canners move slewly. Calves were in good supply today and in active demand at steady prices. Texas cattle were in moderate demand at weak prices, grassers selling at from \$2.35 to \$2.90. Westerns were far too pientiful and soid slowly at a further reduction of loc.

Good packing droves of hogs were stronger to 5c higher, while light hoss averaged that much lower. Heavy lots soid at from \$2.50 to \$3.35. highes at from \$2.50 to \$3.35. medium weights at from \$2.50 to \$3.35. highes at from \$2.50 and shipping hogs largely at from \$2.50 to \$3.25. Play sold mostly at from \$2.50 to \$3.25. Play sold mostly at from \$2.50 to \$3.25. Play sold mostly at from \$2.50 to \$3.25. Sales of sheep were again slow at the ruling low prices, western sheep selling at from \$2.50 to \$2.75. while a few natives sold at from \$2.50 to \$2.55. Male sold fairly well at from \$2.50 to \$2.55. Male a few natives sold at from \$2.50 to \$2.55. Male a few natives sold at from \$2.50 to \$2.55. Male a few natives sold at from \$2.50 to \$2.55. Male a few natives sold at from \$2.50 to \$2.55. Male a few natives sold at from \$2.50 to \$2.55. Cannels sold fairly well at from \$2.50 to \$2.55. Cannels sold fairly well at from \$2.50 to \$2.50 and were in fairly active request.

OULT CLAIM DEEDS.

The temperature of the past week has averaged about two degrees below the normal; it was slightly above the normal on the first and last days of the week and decidedly below on the 10th and 11th. Light frosts occurred quite generally on the morning of the 11th on low lands, but very little damage was done, however, and none to staple crops.

The rainfall has been above the normal in all sections of the state. The greatest excess has been in the southeastern section, where the rainfall exceeded an lach generally and over considerable areas exceeded two inches.

Corn has made fairly good progress and with the exception of the latest pieces is entirely beyond danger of injury by frosts. In some localities shucking has commenced and the yield is reported as unusually large. The wet weather of the week has retarded threshing in localities where this work has not been completed and interfered with haying, a considerable of which crop is yet to be secured in some portions of the state. Sugar beets and chicory need dry weather to mature. Pastures are excellent.

The rains of the week have placed the ground in fine condition for plowing and cellent.

The rains of the week have placed the ground in fine condition for plowing and seeding and much of this work has already been done. A goodly acreage of winter wheat and rye are being sown and some pieces are already up in fine condition.

The crops have matured so far that they are practically beyond the reach of any further effects due to the weather, and therefore this bulletin will be the last for this season. Correspondents will please accept our thanks for their hearity co-operation during the season just closing.

G. A. LOVELAND,
Section Director.

Iowa Needs Warm, Dry Weather.

DES MOINES, Sept. 15.—The Iowa weekly weather crop bulletin, Isrued tostay, rays. There were but three favorable days for ripening and drying out the corn, but the general condition is fairly good. Reports indicate that the bulk of the crop is practically safe in the northern districts, where it is generally farther advanced toward maturity than in the central and southern districts. Cutting is in progres in all sections, and in the dairy districts a large portion of the crop will be cut and shocked within the coming week. For the complete ripening of the full crop of corn we need from ten days to two or three weeks of dry, warm weather. From 20 to 30 per cent was planted later than usual, and much of this is still green and quite immature. Fall plowing and seeding are being rapidly pushed. More than the usual area will be plowed, the conditions of the soil being favorable." Iowa Needs Warm, Dry Weather,

Ground Too Dry in Missouri. COLUMBIA, Mo., Sept. 15.—The Missour weekly crop report, issued today, says: The temperature varied from normal to 2 degree above. The rainfall averaged over one inch temperature varied from normal to 2 degree above. The rainfall averaged over one included frost occurred in Nodaway county on the fifth but did little damage. In the norther and western central countles the soil is generally in good condition for fall seeding and work progressing favorably, but in other parts of the state the ground is generally too dry, thous seeding is in progress. Corn is beyond injurby frost, and in some central and southern settions cutting is nearly completed. Cotton picling is progressing rapidly; potatoes will make a excellent crop. Pastures are in used of watern central and southern countles.

Last Week of Corn Cutting. Last Weck of Corn Cutting.

CHICAGO, Sept. 15—The Illinois weekly weather crop builetin, issued teday, says: It the northern section and the west counties o the central section farm work has made good progress, but elsewhere the dryness retarded seeding and plowing. Corn cutting has been gushed rapidly and most of the cutting has been done. The work will generally be finished into week. The grain is drying guickly and much of the crop will be safe to busk and crif within two weeks. Plowing and seeding in the dryer portions of the state have been much delayed or entirely stopped and rain is much delayed or entirely stopped and rain is much meeded, especially in southern counties, when stock water is scarce and wells, streams and pends are very low.

Corn Out of the Way of Frost. TOPEKA, Sept. 15.—The Kansas weekly creport issued today says: The avera emperature has been nearly normal wi ood rains general. Fall plowing has progress

CHARLES OF THE BUILDING TO THE STARTS AMUSEMENTS.

The reception given by Mr. Frank Lea Short of the Omaha School of Dramatic Ar

to Miss May Robson, the charming character actress of the Empire company, at Creighton hall yesterday afternoon was an occasion of more than ordinary interest to those present. The hall was tastefully dec orated with ferns and potted plants, divan-and easy chairs were disposed about and iced punch was served at a table in the center. The exercises which followed the reception proper were of an entirely in-formal nature and included a vocal solo by Mr. Homer Moore, two violin numbers by Mr. Franz Adelmann, the first scene of "Rosberry Shrub, Sec.," by Mrs. Wheelar, Mrs. Matheson and Miss Squires and "Life Studies" by Misses Kimball, Scannell and Pond, three of Mr. Short's pupils.

It is the instructor's aim in these studies from the studies of the s

from life to have his pupils reproduce types of character which they themselves have observed. Some of the work shown in this line was worthy of very high praise. Miss Kimball's negro washerwoman sketch, Miss Scannell's pantomime of a woman doing up her hair and Miss Pond's imitation of the state of the up her hair and Miss Ponds imitation of knitting and her truly admirable repre-sentation of a young girl lamenting hys-terically over the body of her mother were the best. Miss Pond, in particular, a young woman who has lately come from Missouri Valley for instruction at Mr. Short's school, showed such marked ability as will almost certainly bring her to high places in the profession which she wishes to adopt as

her life-work.

At the close of the regular program Mr. At the close of the Empire company was persuaded to give his famous recitation of "The Charge of the Light Brigade," in which he shows how the attrring lines might be declaimed by a nervous youth, a Scotchman, a country curate, a Frenchman, an Italian, Henry Irving and Mr. Dodson himself, the whole forming a remarkable display of skill in elecution; and Mr. Ferdinand Gottschalk improvised delightfully for a few moments at the plano. for a few moments at the plane. With two performances today the "Empire

Stock company" will close the engagemen at the Creighton. "Liberty Hall," which is remembered with genuine pleasure by those so fortunate as to witness its production by this company last season, will be the matinee bill, when it is safe to say that many of last year's auditors will again enjoy the delightful situations of R. C. Carton's beautiful play. "Liberty Hall" i well known here. William Faversham wil appear as the hero; Viola Allen as th heroine Ida Conquest as her sister, and William H. Crompton as the old gentleman who conducts the circulating library. Other

WEATHER CROP BULLETINS

cvening will be Pinero's new play "The Benefit of the Doubt," which will be presented for the first time in this city.

The story of the play is as follows: Mrs. Jack Allingham has brought a suit sgainst ber husband for a judicial separation on the ground of his relations with Mrs. Alexander Fraser, and the suit has been dismissed, Mrs. Fraser receiving "the benefit of the doubt," though severely lectured by the judge for her "indiscretion." Mrs. Fraser's first impulse on emerging from the court is to live down the scandal, with her husband's help, and to him accordingly the court is to live down the scandal, with her husband's help, and to him accordingly she appeals. He, however, is of a cold, reserved nature, and dees not see matters in the same light. His pride as a gentleman has been deeply wounded, and he is all for hiding his shame in a life of retirement abroad. Thereupon, Mrs. Fraser resolves to rid her husband of her presence by flight and the scene of the story shifts to a cottage at Epsom, where Allingham is living separated from the central office of the scene of the tory shifts to a cottage at Epsom, where Allingham is living separated from the pealous wife. Mrs. Allingham arrives to beg his forgiveness for the section at the University of Nebraska. the section at the University of Nebraska, Idecoin, for the week ending Monday, September 14, says:

the wrongs she has done him, and soon after Mrs. Fraser comes along to advise with her old friend. Mrs. Allingham agrees that her husband shall receive Mrs. Fraser on condition that she be allowed to overhear their conversation, and, of course, new trouble is the result. To add to the com-plications of the situation, Mrs. Fraser helps herself too freely to the spirit bottle and brings the second act to a close by becoming helplessly intoxicated. In the becoming helplessly intoxicated. In the next act—the last of the play—Mr. Fraser. too, arrives on the scene, and there is a pretty quarrel, in which everybody takes a hand. Eventually, however, an ostensible peace is patched up between the two families, and a venerable bishop provides for Mrs. Fraser's rehabilitation by taking her under his Episcopal protection in society. The company will be cast for The Benefit

The attraction announced at the Creighon for the coming week opening Sunday evening, September 20, is the Columbia Opera company, which will offer a repertoire the most popular comic opera successes, mong which are "Said Pasha," "Black lussar," "Fra Diavalo," "Pinafore," "Masamong which Hussar," "Fr "Olivette," and others equally as

David Henderson's Schiller Opera Comque company will be the attraction at the Boyd for the last three nights of this week, including a "bargain day" matinee on Saturday, "Bohemian Girl" will be pre-sented Thursday night; "The Mikado" Fri-day night, and "The Bells of Corneville" Saturday matinee and night. The magnifience of the presentations in Chicago was quite a revelation even in such a prom-ment theaterical center, and when it is cnown that the productions here will be on is elaborate a scale it will be understood hat this is quite an exceptional engage-Vocally this company is remarkably trong and the comedians second to none. No opportunity is lost in the presentation of the operas for brilliant spectacular efects and magnificent costuming. The folowing is the roster of the company alinger, Beatrice McKenzie, Mabel Klar, Lydia Payne, Dot Carier, Florence Straight, John McWade, William Stephens, Otis B. Thayer, Harry Cashman, J. K. Reynard, Will Walsh and F. W. Fox.

"In Old Kentucky" smashed a good many records last seson, but its most notable feat was in raising the mark at the big and famous old Boston theater. This theater has been in existence over forty years and in that time it has held many immense audiences, but it remained for "In Old Kentucky" to break all previous records for tig business on Thanksgiving night, 1894. It is estimated that 6,000 people werecrowded into the vast auditorium. It is also true that the biggest second night business was done by the company at the Boyd theater last season. The coming en-gagement opens at the Boyd next Sunday

Theories of cure may be discussed at ength by physicians, but the sunerers want quick relief; and One Minute Cough Cure will give it to them. A safe cure for chil-dren. It is "the only harmless remedy that roduces immediate results."

DEATH OF ATTORNEY JOHN SCHOMP. Well Known Omnha Lawyer Passes Away.

John Schomp, the well known attorney of this city, passed away at the Millard hotel about 9 o'clock Monday evening after an illness extending over a period of about twoyears. Mr. Schomp was associated in bustness with W. A. Corson and had been acness with W. A. Corson and had been ac-tively engaged in the legal business in Omaha since 1888, but ill health in-terfered somewhat with his practice about two years ago, and last Feb-ruary he went to his old home at Readington, where his father resides, hoping that the change would benefit his health. experienced no relief, and returned to Omaha Mr. Schomp leaves a widow and one son.

John T. Schomp of Moline, Ill., who was at his father's side when death claimed him. The remains will be taken by the widow and son to the family homestead at Readington for burial. Services were held at Maul's undertaking rooms at 5:30 last even-ing, Rev. T. J. Mackay officiating, after which the sad party left for the east.
