The time for filing petitions for delegates to be voted for at the republican primaries Friday, to be held from noon until 7 o'clock p. m., expired at noon yesterday, and for an hour preceding that time Chairman Lewis and Secretary Lunt of the county central committee were kept busy receiving and filing the documents. There are not so many delogations in the field as was anticipated, as owing to the multiplicity of candidates there has been a general tendency to effect a tieup wherever it was practicable. There is a fight on in the First ward, where a delegation headed by Tony Back is for Lee Estelle for county attorney and John Butler for the house of representatives. The other delegation is supposed to be for Howard Baldrige for renomination for county

In the Second ward there is a full delegation and two smaller ones. The delegates are divided between J. F. Brown and Frank

Dworack for legislative honors.

The hardest fight in the city is indicated in the Fourth ward, where Dick Smith and D. H. Wheeler have combined against T. K. Sudborough in the senatorial race. > EIGHTH WARDERS GO TOGETHER. Three Clubs to Be Consolidated for the Big Parade.

The McKinley and Hobart marching club of the Eighth ward held a meeting at its headquarters at Twenty-fourth and Franklin streets last evening and the hall was full. Some little routine business of no particular interest to the general public was transacted before the speaker of the evening was introduced. The club by a unanimous vote decided to unite with the Eighth Ward Republican club and the Eighth Ward Business Mcn's Republican club on the evening of September 29, upon the occasion of its contemplated Thurston

The occasion of its contemplated Thurston he occasion, the purpose of the three clubs being to participate in the parade in a body.

Ed J. Cornish was the principal speaker of the evening and he was listened to with close attention during his speech, which lasted for more than an hour. Mr. Cornish confined himself entirely to a discussion of the financial question, paying particular attention to the disastrous effects upon the tention to the city was deopted, which took the position that the cost of moving electric lights was adopted to another should be bettered to selt and son respectively. IT IS A TEMPEST IN A TEAPOT. Bryan Organ Makes a Mountain Out

A tempest in a teapot has been raised by members of the Omaha Hebrew club, and the matter has been given almost as much space in the local Bryan organ as is de voted to the Bourke Cockran meeting, which was attended by from 12,000 to 16,000 people. It appears that Prof. Selikovitsch of Chicago was invited to deliver a speech on the issues of the day. The professor, how-ever, did not put in an appearance, and t is alleged that he was order to stay away by the editor of The Hee, who, according to the veracious fake mill, informed Prof. Sell kovitsch that he would be discharged from the republican national committee if he spoke to the Omaha Hebrew club.

This is a fabrication, pure and simple, and without a shadow of foundation. The professor called at The Bee editorial rooms las week and has not been seen at The Becoffice since. No person connected with The Bec has communicated with him in any manner or form, and for that matter no person connected with the Nebraska campaign has any authority over his move-ments. "Long ago I said that just as soon as the people could be made to realize that this is a question of labor and not of banks. that the attempt to create cheap mone; was a conspiracy which would be more dis astrous to the wage earners than any other class the victory would be won. I even believe that we can carry Colorado for sound money on

Mr. Cockran was suffering severely yestertay morning from his throat, which had been badly strained by his efforts to make h self heard by over 16,000 people last night. No Report on the Proposition of the Belln Bondsmen.

INEFFECTUAL EFFORT AT A CONFERENCE

Mayor Vetoes a Resolution Turning Over Supervision of Emergency Work by the Board of Public Works to Connell Committee.

For the first time in several months there was a full attendance of members of the city council at the regular meeting last night. They were rewarded by a very tame session. The finance committee had falled men yesterday afternoon and consequently no report was submitted on their proposition to settle the claim of the city. The following veto from Mayor Broatch was sustained:

I have the bonor to return herewith without my approval a resolution instructing
the Board of Public Works "to do only such
work as may be authorized by concurrent
resolution of the city council; provided that
such emergency work as is absolutely necessary may be authorized by the special
committee appointed by the city council,
pending action of the council." The mayor
is the executive officer of the city and is
competent to pass upon the question of
emergency. His prerogatives cannot be legally taken from him and invested in the
hands of a committee. No indebtedness can
be legally created without the consent of
the mayor, and yet it is proposed to grant
this power to a committee which may or
may not use it to the best interests of the
city. It was understood in creating the
committee that it should exercise a supervision over the authorized expenditures of
the Board of Public Works, and not that it
should have the power to perform the leglishitye functions of the mayor and copped. I have the honor to return herewith with the Board of Fublic Works, and not that it should have the power to perform the legislative functions of the mayor and council, which cannot be delegated. This committee carried through the council a report which, had it not been stopped by the mayor, would have involved the city in an expenditure of from \$5,000 to \$7,000 on Hickory street.

Thereupon Allen and Taylor resigned their places on the special committee on the ground that the mayor had approved the resolution before it was passed and had now endeavored to criticise the work of the committee. The resignations were laid on the

WANTS PAY FOR A BICYCLE. Adolph Benwall wanted the city to pay him the value of a bicycle that he says was broken on account of a hole in the street. The committee on claims will conider his case. It was stated that these bonds carried 6 per cent, but that by a council resolution the rate had been reduced. It had now been dis-covered that the council had no right to

reduce the interest. The resolution was adopted after some discussion.

He then invited those who wished to join to sign the following statement; We, the undersigned, do hereby enroll ourselves members of the Omnaa Musical society, and do agree to attend rehearsals with all practicable regularity, to sing at public performances and to use our best efforts to promote the interests of said society; and we do hereby pledge ourselves to abide by and observe such rules and regulations as shall be formulated by said society.

## COCKRAN'S SPEECH

Had such an effect on a silver compositor in The Bee office that he reduced our \$19.50 suits to \$1.50 in our yesterday's ad. The proof reader accounts for the oversight by saying that he thought it was the ad. of another concern who reduce all their \$25.00, \$28.00 and \$30.00 suits to \$5.00 once a week or so, and he didn't see anything unusual about their claiming to sell \$19.50 suits for \$1.50. "The Nebraska" doesn't do business that way. We have too much respect for the intelligence of our readers and we have too much faith in thd lowness of our prices to stoop to such flimsy deception or to think that the public would believe us if we did. What we did say and what we now repeat, is that the suits we are selling at \$19.50 are the perfection of ready made tailoring and the finest that can be produced. Incidentally we may remark that if these same suits were marked 25, 28 or 30 dollars, they would command a great deal more respect from certain people, but they wouldn't be any better suits. The truth is, there are no better suits. Your tailor if he is honest, will tell you that he can give you no better cloth, no better linings, no better workmanship or no better style. He can give you a better fit if you are built on irregular lines-too tall or too short; too stout or too slim; but if you are a "regular" we can fit you new goods. as well as the tailor and the fitting won't cost you a
